PLEASE JOIN staff and representatives of the CCPEC in an opportunity to review and strengthen the **“City and County of San Francisco’s Public Safety Realignment and Post-Release Community Supervision, 2012 Implementation Plan Draft”**.

During this working session staff will review the draft plan in depth side by side with community members. We want your input on how to improve the plan. This Plan will outline how the City and County of San Francisco will address the needs of individuals exiting jails and prisons as a result of the Public Safety Realignment Act (AB 109/117).

The CCPEC is the body responsible for recommending the 2012 Realignment Implementation Plan to the Board of Supervisors for approval.

Draft Plan is available at <http://sfgov.org/adultprobation>
