

### David Best Sculpture in Patricia's Green to Celebrate 10 Year Anniversary of Green

At the December, 2013 VAC meeting, I made a preliminary presentation to determine if there was Commission support for the proposal to commission David Best to create a temporary sculpture at Patricia's Green to commemorate the 10<sup>th</sup> anniversary of the construction of the Green and the demolition of the Central Freeway.

The sculpture will be designed to be larger than its predecessor from 2005 and will be engineered and constructed to be safe and sound for a minimum of one year.

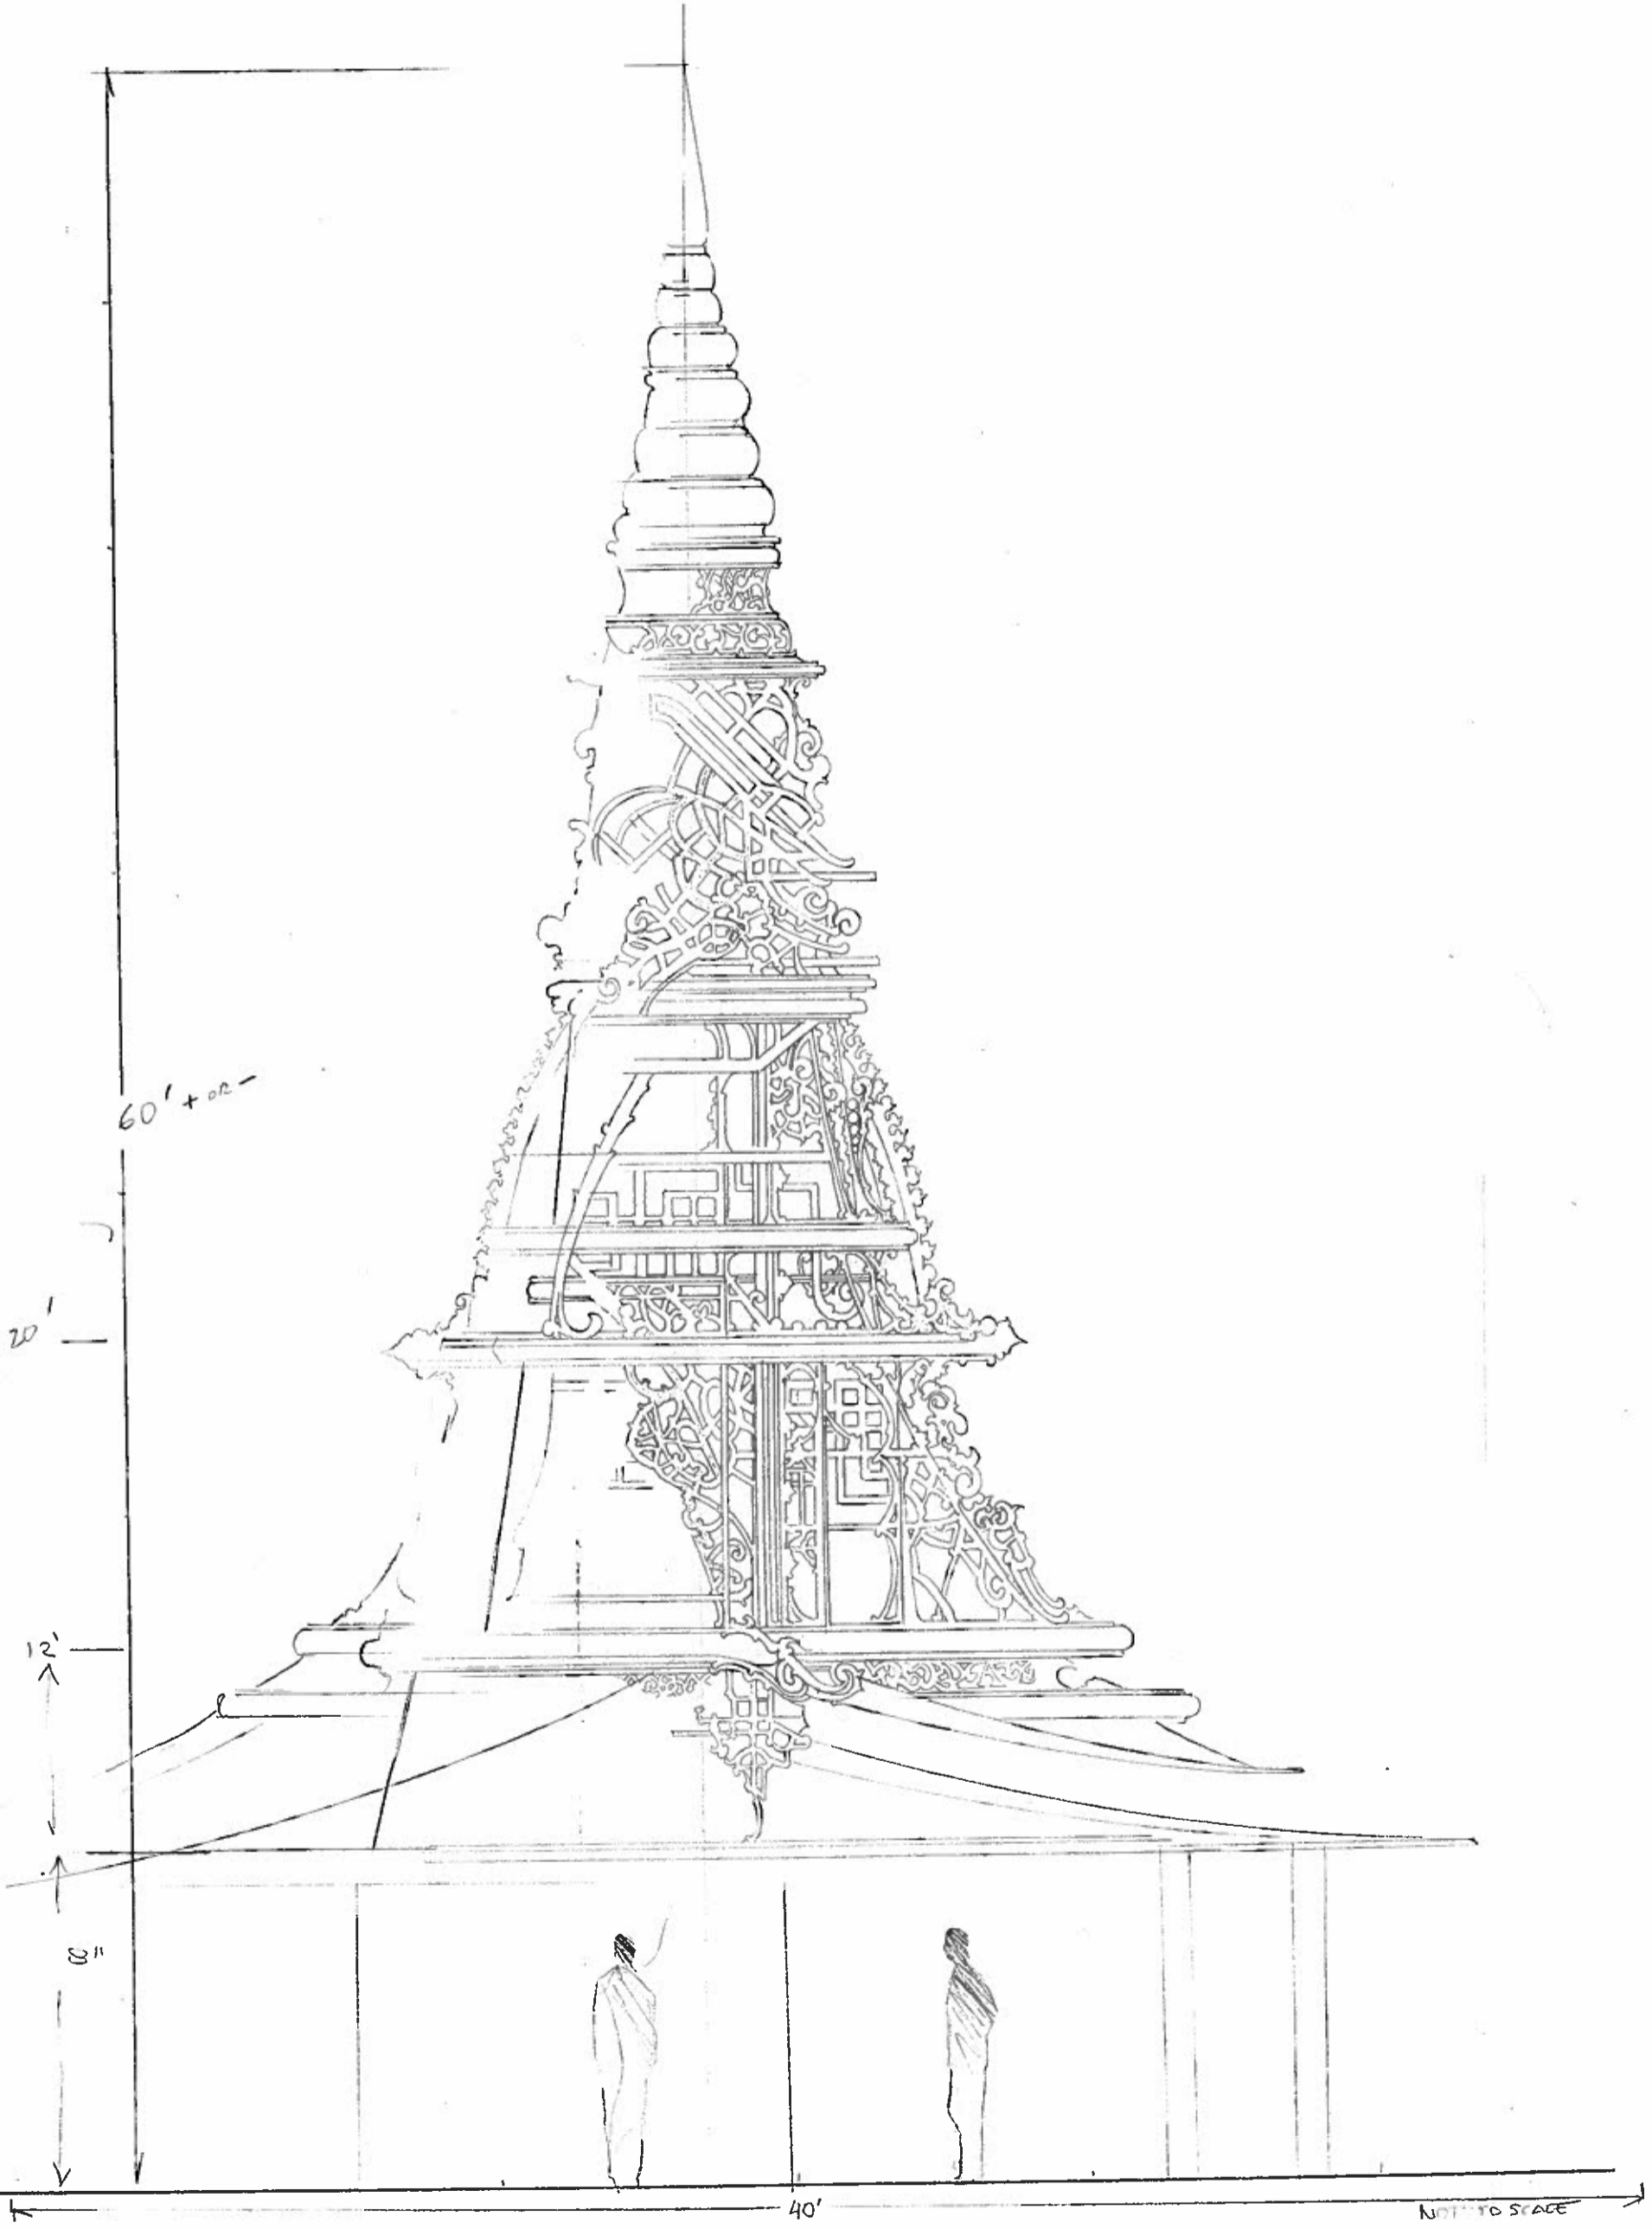

The Arts Commission has \$34,000 to contribute to the project from the receipt of IPIC funds (development impact funds) which were allocated to the Arts Commission by the Board of Supervisors. Black Rock Arts Foundation/Burning Man has agreed to partner with the Arts Commission on the project and to raise the balance of funds needed for the project, which is estimated to be approximately \$150,300 total cost. Black Rock Arts Foundation/Burning Man has agreed to act as fiscal sponsor for the project and will enter into an agreement with the Arts Commission to implement the project.

The date for the installation will be on or before June 1, 2015 and the sculpture will be deinstalled approximately one year from that date unless an extension is approved by the Commission.

The initial idea for the project has been met with overwhelming positive support and enthusiasm from the Hayes Valley community, although they have not yet seen the design submission. This will be presented to them at an upcoming community meeting.

At this point, I am requesting that the VAC approve the either of the two preliminary designs submitted so that we may enter into contract for final design, fabrication, transportation and installation of the work. The final design proposal will be presented to the VAC prior to the commencement of fabrication. The contract will include a requirement that Black Rock/Burning Man conduct periodic inspections of the sculpture and perform periodic maintenance as needed.

There are two motions, one for the preliminary design approval, and the other, to request authorization enter into an agreement with Black Rock Arts Foundation/Burning Man which will obligate them to raise the funds for the project and co-manage the implementation of the project.

PATRICIA'S GREEN 20015

THIS IS A STUDY NOT TO SCALE BUT CLOSE

DAVID BEST 20014
