Hi Anne,  
Good afternoon.

I've been wondering why the animal hats in the internet is identical from the one they are selling here. The store is called DHgate and AliExpress wholesale from china. Look at their prices.

I've been crocheting since I was in 5th grade and I can tell what is handmade and machine made. If you can look closer from their display it's totally identical. I will leave it up to your judgement Anne. I'm really sorry for bringing this up to you. Thank you.

Sincerely,  
[REDACTED]
