DESIGN CONCEPT

Please provide a succinct description of the design concept or idea (not the functional goals). Attach additional page if needed.

The primary goal of the YBI Water Tanks visual impact study is to confirm that there is not a negative aesthetic produced by the installation of the water tanks. This is accomplished by thoughtfully positioning the water tanks, preserving trees, proposing new trees, and carefully selecting wall/tank colors to blend with the natural surroundings.

ADDITIONAL INFORMATION

Is this project on a City designated landmark or in a City designated historic district? If yes, have you contacted staff of the Historic Preservation Commission to determine whether a certificate of appropriateness is required?

COMMUNITY OUTREACH

It is your obligation to notify the community (by mail or email) that there is opportunity for public comment at the Civic Design Review Meeting. This is an important part of the public process. What has been done in this regard?
