Chapter 14B: Local Business Enterprise Participation Annual Report

Fiscal Year 2012-2013

This Report summarizes LBE certification and LBE contract awards for Fiscal Year 2012-1013.

San Francisco Contract Monitoring Division 30 Van Ness Avenue, Suite 200 San Francisco, CA 94102 www.sfgov.org/cmd

CONTRACT MONITORING DIVISION CITY ADMINISTRATOR'S OFFICE

Edwin M. Lee, Mayor Naomi M. Kelly, City Administrator Maria Cordero, Director

Dear Colleagues:

On behalf of the Contract Monitoring Division (CMD) and City Administrator Naomi Kelly, I am pleased to present the Fiscal Year 2012/13 report on Local Business Enterprise Participation.

The CMD was formed in July 2012 to better implement and enforce the City's Local Business Enterprise Ordinance and to ensure that employees of the vendors doing business with the City receive equal benefits. Our agency is dedicated to helping businesses comply with the Local Business Ordinance and qualify for contracting opportunities.

We are committed to the transparent and efficient enforcement of the City's contracting laws; it is critical that businesses know what is expected of them and how to access lucrative contracting opportunities. My goal as Director is to ensure that all San Francisco businesses have a clear understanding of both the requirements and prospects presented in this policy.

This year's report shows strong positive results. We currently have over 1,400 certified LBEs in over 270 certification categories. Our LBE firms were awarded over \$240M from the City's five largest contract awarding agencies. I am grateful to our City partners who have worked with us to empower our local firms and create job opportunities.

On July 1, 2013, we launched the LBE Utilization Tracking System, a web-based tool, to better track LBE participation on City Contracts. In September, we began accepting LBE applications and recertification documents via our website, www.sfgov.org/CMD. Along with our partner City agencies, we held our first vendor fair in October. The event filled Koret Auditorium to capacity. In addition, we launched a business development program, and we are working towards launching a mentor protégé program working with the assistance of the SFPUC. Please visit our website for more information on upcoming events and workshops.

As Director of the CMD, I look forward to collaborating with our community partners, City agencies and elected officials to continue to create opportunities for our City's local businesses.

Thank you,

Maria Cordero

Director, Contract Monitoring Division

Maria L. Cordero

FY 2012/13 LBE Participation Annual Report

Purpose

As mandated by Chapter 14B of the Administrative Code, this FY 2012/13 annual report on LBE participation is presented to the Mayor, Board of Supervisors and the public to report on LBE certification and contracting award for FY 2012/13 and also outlines the CMD's one year accomplishments and priorities for the coming fiscal year.

Methodology

The fiscal year began July 1, 2012 and ended June 30, 2013. CMD LBE certification totals are based on the number of certified firms on June 30, 2013, the last day of the fiscal year. The CMD utilized contract award information gathered by Contract Compliance Officers stationed with each respective department to provide the information produced in this report. Whenever possible, this information was confirmed with department staff. Dollars awarded were obtained from bid documents submitted by winning prime bidders. Award amounts to subcontractors were added and then subtracted from the original bid amount to determine prime awards. Information on Job Order Contracts (JOC) was provided by the Gordian Group, a consulting group hired by the City of San Francisco to track payments on JOC-employed firms. On July 1, 2013, the CMD began using the LBE Utilization Tracking System (LBEUTS), an automated online tracking system developed by Elation Systems and Software, to monitor awards and payments to LBEs. Future reports will be developed through the LBEUTS.

Report Overview

In FY 2012/13, CMD oversaw the award of over \$413M in formal contracts at the Airport, Department of Public Works, Port, Public Utilities Commission, and Recreation and Parks Department. Formal contracts are generally construction contracts over \$400k and professional service contracts over \$100K that are subject to CMD requirements. On these contracts, CMD contract compliance officers meet with project managers to set LBE goals based on LBE certification availability. Contract compliance officers also ensure a fair contract process throughout the life of the contract. In FY 2012/13, \$82M were awarded to LBEs as subcontractors. This constitutes over 21% of the total dollars subcontracted on formal contracts.

Fiscal Year 2013/14 One Year Accomplishments and 13/14 Priorities

CMD will continue to work towards maximizing opportunities for LBEs in FY 2013/14. On July 1, 2013, the CMD launched the LBE Utilization Tracking System (LBEUTS), an online contract compliance database, to better monitor compliance on City contracts. In September, the CMD began offering online LBE certification and re-certification to modernize and expedite the LBE certification process. Additionally, the CMD will be launching a mentor/protégé program designed to encourage and motivate prime contractors to assist certified LBEs and enhance their capability of performing successfully on City and County of San Francisco contracts and subcontracts. Information on each of these programs and upcoming events can be found on CMD's website, www.sfgov.org/cmd.

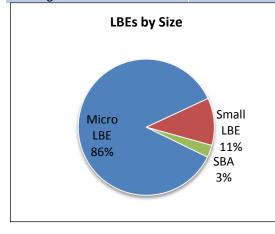

LBE Certification

Pursuant to the San Francisco Administrative Code Chapter 14B Local Business Enterprise and Non-Discrimination in Contracting Ordinance and accompanying Rules and Regulations, a business contracting with the City and County of San Francisco may be eligible for bid discounts or bid rating bonus as a certified LBE, PUC-LBE, Non-Profit (NPE), or SBA/LBE. This certification promotes the utilization and participation of San Francisco small businesses with respect to City contracts. Specifically, certified businesses benefit from bid discounts, sub-contracting goals and micro-set asides that are set for most City contracts. To receive these benefits, a business must be certified with the San Francisco Contract Monitoring Division *prior* to the submittal of a bid or proposal. There are currently over 1,400 firms actively certified by the Contract Monitoring Division in over 270 unique certification categories.

Certified Firms by Threshold

Based on the average gross receipts of a LBE over a period of three years directly preceding the date of certification, the entity will be deemed a Micro-LBE, a Small-LBE or an SBA-LBE. The maximum thresholds for each such category are listed in the following table.

	Certification Size Standards (Average Gross Receipts)						
Industry	For San Francisco "Micro Business" LBE, PUC-LBE	For San Francisco "Small Business" LBE, PUC-LBE	San Francisco SBA Program				
General Construction							
Contractors (A and B Class)	\$7M	\$14M	\$33.5M				
Specialty Contractors (C License)	\$3.5M	\$7M	\$14M				
Professional Services	\$1.25M	\$2.5M	\$7M				
Architects	\$1.25M	\$2.5M	\$4.5M				
Engineers	\$1.25M	\$2.5M	\$7M				
Goods, Materials Suppliers,							
General Services	\$3.5M	\$7M	\$17M				
Trucking	1.75M	\$3.5M	\$25.5M				

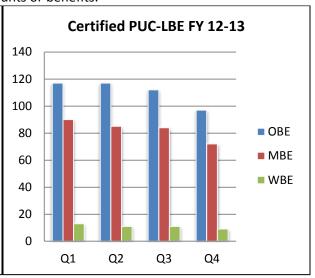

Category	As of 6/30/13
Micro LBE	1212
Small LBE	159
SBA	41

Woman-Owned, Minority-Owned, and Other-Owned Designation

Micro-, Small- and SBA-LBEs with either woman or ethnic minority ownership greater than or equal to 51% may be designated as being a "Woman-Owned" (WBE) or "Minority-Owned" (MBE) business in their certification letter. All other firms are designated as "Other-Owned" (OBE) businesses. *The woman or minority owner(s) must be the license qualifier(s) and/or possess the credentials required for the category for which they seek certification.* WBE and MBE designation is granted solely for the purpose of monitoring the availability and utilization rate of WBE and MBE businesses by the City and does not provide the certified firm with any additional discounts or benefits.

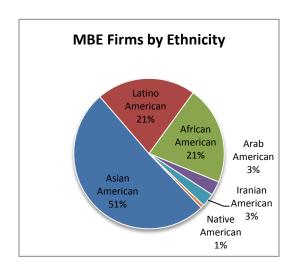

SF LBE	Q1	Q2	Q3	Q4
MBE	492	481	485	465
OBE	441	436	437	439
WBE	300	293	295	289
Total	1233	1210	1217	1193

PUC LBE	Q1	Q2	Q3	Q4
MBE	117	117	112	97
OBE	90	85	84	72
WBE	13	11	11	9
Total	220	213	207	178

Minority-Owned Designation

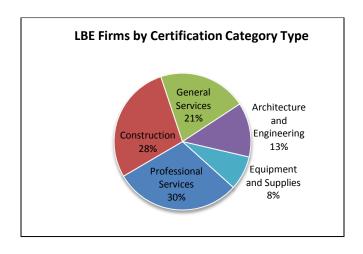

The 14B Ordinance defines ethnic minorities with respect to LBE certification: (i) African Americans, defined as persons whose ancestry is from any of the Black racial groups of Africa or the Caribbean; (ii) Arab Americans, defined as persons whose ancestry is from an Arabic speaking country that is a current or former member of the League of Arab States; (iii) Asian Americans, defined as persons with Chinese, Japanese, Korean, Pacific Islander, Samoan, Filipino, Asian Indian, and Southeast Asian ancestry; (iv) Iranian Americans, defined as persons whose ancestry is from the country of Iran; (v) Latino Americans, defined as persons with Mexican, Puerto Rican, Cuban, Central American or South American ancestry; and (vi) Native Americans, defined as any person whose ancestry is from any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.

Certification by Industry

There are currently over 1400, LBE firms certified in over 270 unique categories. LBEs can be certified in multiple certification categories as long as the owner is licensed and demonstrates an expertise and competence in the service for which certification is sought. PUC-LBE certification is limited to licensed contractors and construction suppliers providing services for the Hetch Hetchy Waterway System outside of San Francisco. The table below lists the top ten certification categories for actively certified LBEs.

Certification Category	Number of LBE Firms	% of Total Cert Categories
GENERAL BUILDING CONTRACTING (B)	176	6%
TRUCKING AND HAULING	174	6%
GENERAL ENGINEERING CONTRACTING(A)	116	4%
ARCHITECTURAL, INCLUDING HISTORICAL AND CONSERVATOR SERVICES	113	4%
CONSTRUCTION MANAGEMENT	93	3%
COMMUNITY RELATIONS/PUBLIC AFFAIRS	89	3%
ELECTRICAL CONTRACTING(C10)	62	2%
CIVIL ENGINEERING	60	2%
COMPUTER AIDED DESIGN (CAD)	58	2%
ENVIRONMENTAL ADVISORY SERVICES	54	2%

LBE Compliance

The purpose of San Francisco's Chapter 14B Local Business Enterprise Ordinance is to help small, local businesses compete effectively for City contracts. The Ordinance provides for bid discounts or bonus ratings to LBE primes and requires prime vendors to sub a portion of each covered contract to LBEs. Contract Compliance Officers set LBE goals based on LBE availability and estimated contract amounts.

Chapter 14B, along with its implementing Rules and Regulations, is incorporated by reference into every applicable City contract and provides that the failure of any bidder or proposer to comply in good faith with these requirements shall be deemed a material breach of contract. The CMD compliance team ensures that pre-award LBE requirements are met and also monitors each prime progress toward achieving these requirements throughout the course of the contract.

CMD contract compliance officers are stationed at each of the City's large contract awarding agencies. They include the Department of Public Works, Public Utilities Commission, Airport and Port. CMD contract compliance officers stationed at the CMD headquarters provide assistance to all other City agencies.

LBE Compliance Overview

In FY 2012/13, the CMD oversaw the award of over \$413M in formal contract awards at the Airport, Department of Public Works, Port, Public Utilities, and Recreation and Parks Department (excluding JOCs). \$160M (or 39%) were awarded to LBEs as prime contractors and \$82M (or 21%) were awarded to LBEs as subcontractors. Table 1 shows the total awards by department. Of the 143 contracts eligible for an LBE bid discount 69% were awarded to LBEs or LBE Joint Ventures. Table 2 lists the percentage of formal contracts under \$10M awarded to LBEs and LBE Joint Ventures by department. Over \$137M were awarded to LBEs at the PUC, more than all other departments combined. Thirteen micro set-aside contracts were awarded Citywide in FY 2012/13.

Table 1: FY 2012/13 14B Governed Contracts Awarded by Department

San Francisco International Airport

About Airport Projects

The San Francisco International Airport is a world class airport serving over 45 million domestic and international passengers annually. The Airport Commission's Small Business Affairs Office (SBAO) conducts outreach programs to promote and ensure local, small and disadvantaged business participation in Airport concession leases and contracts (e.g., construction and professional services). SBAO staff serve to advocate, disseminate information, and develops policies and activities to maximize small business participation in all phases of Airport contracting. The SBAO also enforces the Federal Disadvantaged Business Enterprise and Airport Concession Disadvantaged Business Enterprise Program contracting requirements, and works with CMD/LBE staff to ensure Airport staff follows the requirements of the 14B Ordinance.

The SBAO and LBE/CMD staff have participated in a number of community and LBE outreach events in FY 2012/13. Additionally, the Airport has been instrumental in the beta testing and launch of the LBEUTS payment system. CMD staff thanks the SBAO and Director John Martin for his support of the LBE community.

Projects Overview

Table 3 shows an overview of dollars awarded by SFO for 14B governed contracts in FY 2012/13. There were a total of 18 contracts awarded totaling over \$73.6M. LBEs received over \$20M (or 34%) of the total dollars awarded. The average LBE goal set on SFO contracts was 15%. Additionally, the department awarded one micro-aside contract. 66% of all construction contracts were awarded to LBE primes. The 14B bid discount does not apply to contracts over \$10M, for contracts under \$10M, the LBE award amount increases to 46% of all awards.

Table 3: FY 2012/13 SFO AWARDS BY QUARTER (\$ Millions)

Department of Public Works

About DPW Projects

The Department of Public Works (DPW) designs, builds, maintains and improves the City's facilities and urban space in partnership with the San Francisco community. Many of the DPWs projects governed by the LBE Ordinance include street improvements, renovation and new construction of public facilities, and engineering contracts.

During FY 2012/13, DPW successfully executed a number of activities and initiatives to encourage more LBEs to participate on DPW contracts. Such activities included: changes to the DPW website to make bidding information more accessible to LBE firms; participation in the "Doing Business with the City" training workshop conducted by CMD for LBEs; willingness to try new project delivery methods, such as the Bayview Library where over 68% of the contractors were LBE firms; and Executive Director Mohammed Nuru mandated a goal of no less than 25 Micro LBE projects for FY 2013-14. CMD staff thanks Director Nuru, former Contracts Manager Gordon Choy, current Contract's Manager Stacey Camillo and Jocelyn Quintos for their support to the LBE community, hosting their own Micro-LBE outreach, and LBEUTS transition.

Projects Overview

DPW consistently awards the highest percentage of contracts and contract dollars to LBEs of all contracting departments in the City. Table 4 shows an overview of dollars awarded by DPW for 14B governed contracts in FY 2012/13. There were a total of 47 contracts awarded totaling over \$91M. LBEs received over \$72.6 million or 83% of the total dollars awarded. The average LBE goal set on DPW contracts was 23%. Additionally the Department awarded four micro-set aside contracts.

Port of San Francisco

About Port Projects

The Port Commission is responsible for the seven and one-half miles of San Francisco Waterfront adjacent to San Francisco Bay, which the Port develops, markets, leases, administers, manages and maintains. Its jurisdiction stretches along the waterfront from Hyde Street Pier on the north to India Basin on the south.

The Port has a track record of supporting opportunities for small and local businesses in San Francisco. In FY 2012/13 Port staff attended workshops, sponsored business breakfasts, and participated actively to outreach to CMD certified contractors and consultants whenever contracts were issued for advertisement. On the Port waterfront a number of private developments have agreed to good faith LBE goals such as, the proposed new Golden State Warriors basketball stadium and the Giants development at Seawall Lot 337. CMD staff thanks Port Executive Director Monique Moyer for her support to the LBE community, hosting events for the community and supporting CMD staff stationed at the Port.

Projects Overview

In FY 2012/13, the Port of San Francisco contracting activity was significantly reduced as the department focused on hosting America's Cup 34. Table 5 shows an overview of dollars awarded by the Port that fall under the 14B Ordinance requirements for contracts in FY 2012/13. There were eight contracts awarded totaling over \$4.1M. All eight contracts were awarded to LBEs or LBE joint ventures. LBEs received over \$3.1M (or 75%) of the total dollars awarded. The average LBE goal set on Port contracts was 22%. The Port awarded five micro-set aside contracts during the year, more than any other department in the City.

Public Utilities Commission

About PUC Projects

The San Francisco Public Utilities Commission (SFPUC) provides water, wastewater and electric power services to the City and an additional 1.6 million customers within three San Francisco Bay Area counties. The SFPUC also manages the Water System Improvement Program (WSIP) and the Sewer System Improvement Program (SSIP). The WSIP involves a broad range of projects varying in size and complexity covering all aspects of the water system – from dams, reservoirs, pipelines and tunnels to treatment facilities, pump stations and water storage tanks. The SSIP is a 20-year, multi-billion dollar citywide investment required to upgrade aging sewer infrastructure to ensure a reliable and seismically safe sewer system.

The PUC-LBE program provides small regional construction firms located in the water service territory (Daly City to Hetch Hetchy) eligibility to be certified by the CMD for construction contracting opportunities on SFPUC-specified construction projects, as San Francisco-based firms. There are currently over 170 firms certified as PUC-LBEs.

The PUC and its staff are committed supporters of the LBE program. In FY 2012/13, the PUC conducted a number of outreach meeting and workshops for LBEs. Additionally, the department worked with the CMD to develop a Mentor-Protégé program that will be launching in 2014 and in late 2013, the PUC opened the Contractor's Assistance Center a space committed to helping small local businesses gain access to City contracting opportunities. CMD staff would like to thank many individuals at the SFPUC. SFPUC staff is involved with the CMD in several LBE initiatives; they were instrumental in developing the SBA/LBE program to aid firms transitioning from LBE to SBA-LBE. General Manager Harlan Kelly is a true friend of the LBE community and his staff is truly committed to his vision. CMD being a small department is faced with financial challenges and SFPUC's enterprise spirit has benefited CMD's work towards the LBE community.

Projects Overview

The PUC awards more dollars to LBEs than all other City departments combined. Table 8 shows an overview of dollars awarded by the PUC for 14B governed contracts in FY 2012/13. There were a total of 66 contracts awarded totaling over \$241.2M. LBEs received over \$138M (or 47%) of the total dollars awarded. The 14B bid discount does not apply to contracts over \$10M, for contracts under \$10M, the LBE award amount increases to 67% of all awards. The average LBE subcontracting goal set on PUC contracts was 14%. Additionally, the Department awarded 4 micro-set aside contracts.

Recreation and Park Department (RPD)

About RPD Projects

The Recreation and Park Department oversees more than 220 parks, playgrounds and open spaces, including recreation centers, athletic facilities and other venues. The 2012 parks bond will provide over \$160M in park renovations between 2013 and 2018. The Department of Public Works administers large construction projects on behalf of the RPD. CMD staff would like to thank the staff of RPD for participating in outreach meetings and their support of the LBE program.

Projects Overview

Table 10 shows an overview of dollars awarded by the RPD for 14B-governed contracts in FY 2012/13. There were a total of 4 contracts awarded totaling over \$3M dollars. LBEs received over \$2M (or 83%) of the total dollars awarded. The average LBE goal set on RPD contracts was 17%. Additionally, the Department awarded 1 micro-set aside contracts.

Job Order Contracts

About Job Order Contracts

Job Order Contracts or JOCs are used by several City departments to expedite simple, low-risk construction projects, primarily for maintenance and repair. For JOCs, contractors submit proposals not for a specific project, but for a general contract that will allow them to perform repair, maintenance, and minor construction projects as needed. In the JOC process, departments identify a need and determine the scope and requirements of the project, then allow the JOC program manager to assign the project to a prequalified contractor.

The JOC contracting process is currently used by the PUC, DPW, RPD, and Airport. Reporting on payments made through the JOC process is handled by the Gordian Group, a consulting firm, with exclusive rights to the JOC contracting process.

Projects Overview

There are currently 51 active JOC contracts Citywide, 35 at the PUC, 10 at DPW, 5 at the Recreation and Park Department and 1 at the Airport. There have been over \$140M in task orders issued Citywide with \$116M at the PUC, over \$7M at RPD, \$20M at DPW and over \$700K at the Airport. The average LBE subcontracting participation goal set on JOC contract is 15% Citywide, 14% at the PUC, 15% at DPW, 24% at RPD, and 25% at the Airport.

14B Waivers

About 14B Waivers

Under certain circumstances, City departments may request that the CMD Director waive the LBE bid discount or LBE subcontracting goal for a particular contract. These circumstances include:

1. Sole Source Waivers

Under Section 14B.7(J)(1) of the 14B Ordinance, the LBE bid discount shall be waived when the Director finds, with the advice of the contract awarding authority and the Office of Contract Administration, that the needed goods or services are available from a sole source.

2. Emergency Waivers

Under Section 14B.7(J)(2), the LBE bid discount shall be waived when the contract awarding authority certifies in writing to the Director that the contract is being awarded under the emergency provisions of the Administrative Code (i.e., situations in which there is an imminent threat to life, property, etc).

3. LBE Subcontracting Goal Waivers

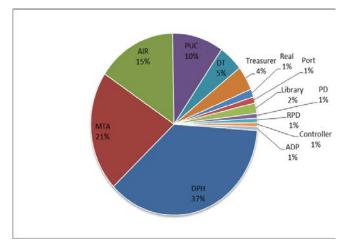

Under Section 14B.8(A) of the 14B Ordinance, the LBE subcontracting goal may be waived by the Director when the contract awarding authority anticipates that there are no subcontracting opportunities or there are not sufficient LBEs available to perform the subcontracting work available on the contract.

14B Waivers Overview

In FY 2012/13, the CMD approved 208 requests to waive the 14B Ordinance. Of the 208, 14B waiver requests received, the type of 14B Ordinance waiver requests received can be broken down by count as follows: 10 (5%) were emergency waivers; 61 (30%) were subcontracting waivers; and 135 (65%) were sole source waivers.

Figure 21 shows percentage of the 14B Ordinance waivers approved for FY 2012/13, for major contracting City departments. 23 City departments have less than \$1M in approved waivers. Detailed information on FY 2012/13 14B waivers can be found on the CMD website: www.sfgov.org/cmd.

FIGURE 21: PERCENTAGE OF APPROVED WAIVERS BY CITY DEPARTMENT

Fiscal Year 2013/14 Initiatives

LBE Utilization Tracking System

On July 1, 2013, the CMD launched a web based tool to track LBE compliance in City contracts. The new LBE Utilization Tracking System (LBEUTS), developed by Elation Systems and Software, enables the CMD to ensure that City's departments are in compliance with the provisions of the Local Business Enterprise (LBE) Ordinance. The purpose of the ordinance is to assist small local businesses in competing effectively for City contracts, and to provide for an overall fair City-wide contracting process.

For contracts advertised on or after July 1, 2013, City departments, contractors and all participating subcontractors and subconsultants will be required to use the LBEUTS to submit payment information pursuant to Administrative Code Sections 14B.13(A)(7) and 14B.11(A). All future LBE participation reports will be generated from the LBEUTS and will be based on actual payments rather than award information. More information on the LBEUTS can be found at www.sfgov.org/lbeuts.

Online LBE Certification

In an effort to streamline the LBE certification process and reduce paper, the CMD began offering online LBE certification in September 2013. The new web based tool allows vendors to submit applications and uploaded required documentation to obtain LBE certification. More information is available at www.sfgov.org/lbecert.

Mentor Protégé Program

In 2014 the CMD will introduce a Mentor-Protégé Program designed to encourage and motivate prime contractors to help CMD-certified LBEs enhance their capability of performing successfully on City and County of San Francisco contracts. The goal is to increase the overall number of LBEs receiving City and County contract awards, resulting from mentorship and refined business practices.

The City and County of San Francisco's Mentor Protégé Program provides a platform for successful prime companies to assist CMD-Certified firms in any of the following capacities:

- 1. Organizational/Structural Needs
- 2. Leadership Development Needs
- 3. Financial/Business Infrastructure Needs
- 4. Insurance/Bonding Needs
- 5. Networking/Business Community Engagement Needs

Business Development Program

Doing business with any government agency requires a specialized set of skills, knowledge and capacity. San Francisco's Contract Monitoring Division recognizes that there are unique and distinct barriers to accessing San Francisco contracting opportunities for Local Business Enterprises (LBE's).

The Business Development Program is designed to providecertified local businesses with technical assistance to enhance their ability to compete for City contracts. This yearlong pilot project consists of twenty certified firms. Each member of the class learns how to develop their skills, access the experts, and increase their capacity. They take an active role by using their own businesses as a case study and creating a strategic growth plan with milestones to help them stay focused on their goals of winning City's contracts. We offer monthly programs with different City Agencies for the class to have access to the experts, learn best practices and network. The program sunsets in April 2014 when CMD will assess its acheivements for future consideration.

Benefit Corporation Ordinance

Benefit Corporations are a new class of corporation that are required to create a material positive impact on society and the environment. In December, administration of the City's Benefit Corporation was transferred to the CMD. Benefit Corporations may be eligible for a 4% bid discount on certain City contracts, however, these entities may not adversely impact any bid submitted by a LBE, SBA, local San Francisco, or regional Bay Area business.

Future Outreach Events

The CMD holds monthly workshops on LBE certification, doing business with the City, LBEUTS training, and more. Information on upcoming events can be found at www.sfgov.org/cmd on the events page.
