Public Comment Board of Craftsmen Examiners

May 7, 2014

I am filing a formal request for enforcement on the **Fama Thiam** stand on Market between 4-5th Streets. For the past 25 years, she has not made what she sells and has been in an illegal location more than in a legal location. The Immediate Disclosure Requests asking for enforcement information on that stand did not yield much relevant information. It seems clear that there is a selective enforcement and monitoring issue going on within this department. See attached photos of the past 3 years of the **Thiam** stand. Note: **Thiam** was before this body last year. She could not make the items she sold; did not bring tools or raw materials. The receipts provided were not relevant to the items presented. $\frac{3}{4}$ of her stand was banned. She was out the following day with the same items.

I am filing a formal request for enforcement on the hat stand next to the **Thiam** stand.

I do not believe these are handmade hats as there are too many identical ones; too many in total and they cannot be produced by two people who seem to work in the street everyday. I believe this stand was suspended last year. The same condition exists.

See photos.
