On June 19th, 2013 the Board of Permits and Appeals found no factual evidence for a street artist permit denial of March 13, 2013. Howard Lazar did not file a response and was reprimanded by the Board for not following the rules. He wanted to postpone the meeting but could not supply medical evidence. He could not supply facts and evidence to support his 6 violations. He ranted for 7 minutes over dismissed cases of 15 years ago.

John Tenuli, slandered me with gossip and hearsay. I did not spend 2 years in prison in NY. There were over 20 SFPD cops in the room and 3 lawyers who questioned his credibility. He ran out. I suggest that Tenuli stop harassing me and making annoying 911 calls. I am diabetic and went to the emergency room twice because of him.

Ray Hertz. San Francisco Open a government was present at the March 13, 2013 street artist meeting. He explained procedural issues and lack of evidence. He said there was overwhelming hostility towards me and believed it was not a fair hearing.

At rebuttal, I explained that I was AGAIN ganged up on and slandered for no real reason. I went to the full commission when these events were going on yet nothing was done.

Lazar was again reprimanded. He had 41 years to get it right and can not seem to do so.

No idea why the street artist program of San Francisco is so nutty but someone needs to be supervising Howard Lazar. It is clear that I am not the only one who seems puzzled.

Lazar seems to enjoy wasting the city's time and resources on meritless filings. He needs to be supervised and held accountable for his actions.
