DESIGN CONCEPT

Please provide a succinct description of the design concept or idea (not the functional goals).

Responding to community input from neighborhood families, the park play structures have been updated to include safer and more active, age-appropriate play equipment, as well as an imaginative nature play area.

The current design also increases the size of the playground area, creates a better definition of playground use zones, and takes on a more organic, natural form overall.

IS THIS PART OF A MULTI-SITE PROJECT, BOND OR CAPITAL IMPROVEMENT PROGRAM?

If yes, which program? Mission Bay Redevelopment Plan Area
