DESIGN CONCEPT

Please provide a succinct description of the design concept or idea (not the functional goals).

The simplicity of the program is reflected in a the massing scheme and architectural expression of few parts: the grey metal box of the 'land' side is wrapped by a white wing on the 'air' side. A translucent clerestory (warmly colored) separates the two elements. Narrow openings of the same material create a playful pattern on the long 'wing' wall.

IS THIS PART OF A MULTI-SITE PROJECT, BOND OR CAPITAL IMPROVEMENT PROGRAM?

If yes, which program? NO
