### DESIGN CONCEPT

Please provide a succinct description of the design concept or idea (not the functional goals).

The new SFO ATCT will make a simple but clear architectural statement within an already distinguished airport context. Its elegant balanced curvilinear form is articulated and enhanced by a bold vertical incision which evokes a public face to an otherwise very private insular facility.

### IS THIS PART OF A MULTI-SITE PROJECT, BOND OR CAPITAL IMPROVEMENT PROGRAM?

If yes, which program? No

### COMMUNITY OUTREACH

It is your obligation to notify the community (by mail or email) that there is opportunity for public comment at the Civic Design Review Meeting.
