

To be read the September 12, 2012 meeting of the San Francisco Street Artist Meeting
under Public Comment: Via Certified Mail.

My name was Paula Datesh until 2010 and I ask that this be read out loud and into the minutes
under public comment. I am not able to personally be there today. At your last meeting,
I called to see if it was going to take place. No one answered the phone. I went to your office
about 1 hour before it was scheduled to take place and no one was there.

In 2008-due to an over sight of Howard Lazar I was accused criminally of stalking a secretary there
who I do not know and never met-Evelyn Russell. I was told by Lazar to call 415-252-2583 to, "**See if
there was a quorum**". I did and some female answered the phone. Each time I followed up with an
email asking who that female was and why she was answering his phone. I was noticed **after** I was
arrested that the phones were rolling over. I spent 45 days in jail and 2 years in Criminal Court.
Russell never appeared and the case was dismissed. Most of the time, I commuted from the
East Coast to make Court dates.

Additionally, I was slandered in your meeting under public comment over 41 times by Mike
Addario, a street artist who I do not know. He never had any evidence to support his claims and
I changed my name legally in 2010 to get away from his slander about me in the minutes which
post on the Internet. This is a direct oversight on the part of Howard Lazar for his failure to run
his meetings in accordance with Robert Rules of Order-allowing 3 minutes under public comment.
Addario got over 1 hour. The previous meeting he had 1 ½ hours under public comment. I know,
I waited in the hallway. I noted in the minutes that Addario continued in his campaign of harassment
and slander up to and including 2 weeks ago in the comment section of an article:

Pay To Paint in the SF Weekly. These are personal attacks under public comment which

have no merit or content. This is not a First Amendment right as Howard Lazar claims. It is slander and liable. Had Lazar run his meeting correctly in 2008-this would not continue to this day.

Lazar is the moderator of these meetings and his blame shifting to, "**his Commissioners**" is a misnomer.

Furthermore, I noted recent emails sent to me by Lazar that I am continually accused of, "harassing unnamed employees of the SFAC". Each time I respond via email for additional information-I do not receive it. Note also, I have 1 email not 2 as Lazar contends.

I would suggest that it is due to the on-going disorganization, delay tactics; blame shifting; inability to run public meetings correctly and lack of accountability that I spent 2 years in Criminal Court and continue to be slandered under public comment by someone I do not know-Mike Addario.

Mike Addario
