Re: Public Safety Building – Fire Station Artwork

During the January 2012 Visual Arts Committee meeting, Commissioners approved the concept of the cistern for the fire station artwork and recommended the artist team, Merge Conceptual Design, work with the design team to develop a proposal that would be well-suited for the site. The artists have spent the past several months developing the attached revised proposal. SFAC staff's recommendation is to proceed with the further development of this proposal.

The artists are meeting with Chief Hayes-White and the Project Team on Monday, April 16th to present the revised proposal for comment and feedback. SFAC staff will report on the feedback and input from the Project Team at the April Visual Arts Committee meeting.
