

Decorative Painting of the word "play" in 14 languages.

This painting will cover the west side of the South Sunset Community Center facing the playground. The painting will feature the word "Play" written in the many languages of the community members who use the park; Chinese, Japanese, English, French, Spanish, German, Korean, Russian, Arabic, Vietnamese, Hebrew, Hindi, Tagalog and Gaelic. The colors of the mural would match and compliment the colors of the mosaics and the play structures in the playground. The word play will appear in various vibrant colors for each language represented on a blue background. The painting will be covered with graffiti resistant treatment upon completion by SF Recreation and Park staff.
