

Jill Manton
Director of Policy and Planning
San Francisco Arts Commission
October 7, 2016

Dear Jill,

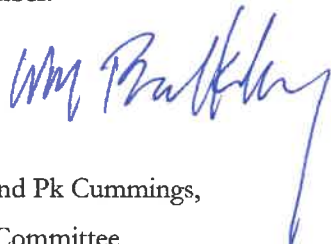

The Hayes Valley Neighborhood Association strongly endorses the planned installation of more than one work by the art collaborative HYBYCOZO in November of this year in Patricia's Green in Hayes Valley. We, the co-chairs of HVNA's ACE (art, culture and entertainment) Committee, had several opportunities to review their work and feel it is the best option for Patricia's Green at this time

We appreciate your sharing with ACE the list of artists that responded to the SFAC's Public Art RFP. From that list, HYBYCOZO was a standout in our minds. Pk and I visited their studio in Oakland on Saturday September 17 where we met the artists and discussed in detail their process and materials. On September 22nd, HYBYCOZO came to Hayes Valley and presented their work to a very well attended ACE committee meeting. The vote from that committee was unanimous in favor. Finally, Pk presented the work to the HVNA board on Tuesday October 4 and received a final nod of approval.

Jill, we are very excited by the prospect of placing one of HYBYCOZO's pieces on the space vacated by the large tree that has died at the north end of Patricia's Green. I have spoken with Steve Cismowski of the Recreation and Parks Department and he assures me there will be electricity there and that the tree stump will be removed before the anticipated November installation date. Please let us know if there is anything we can do to support this effort further.

Again, HVNA strongly endorses the installation of HYBYCOZO's art work in Patricia's Green in Hayes Valley this November.

Sincerely,

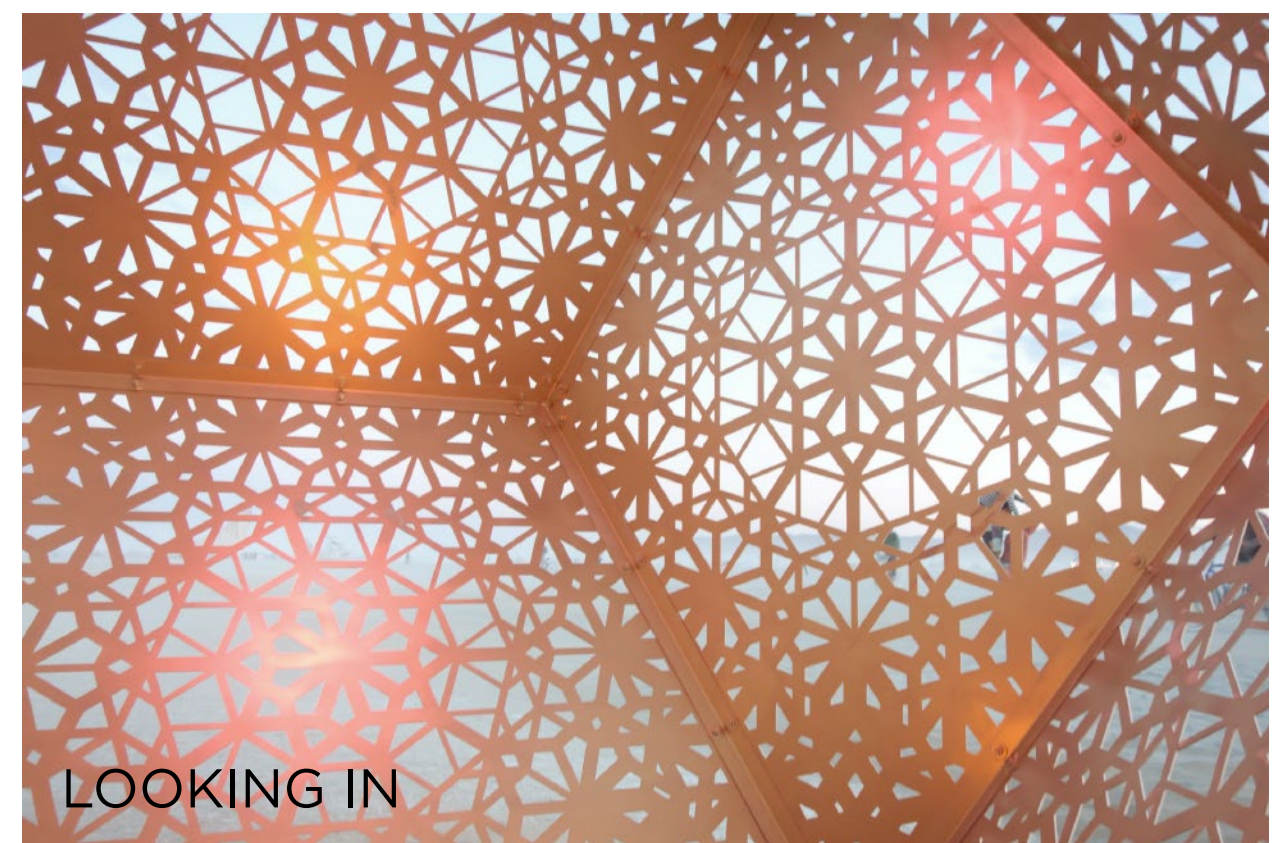

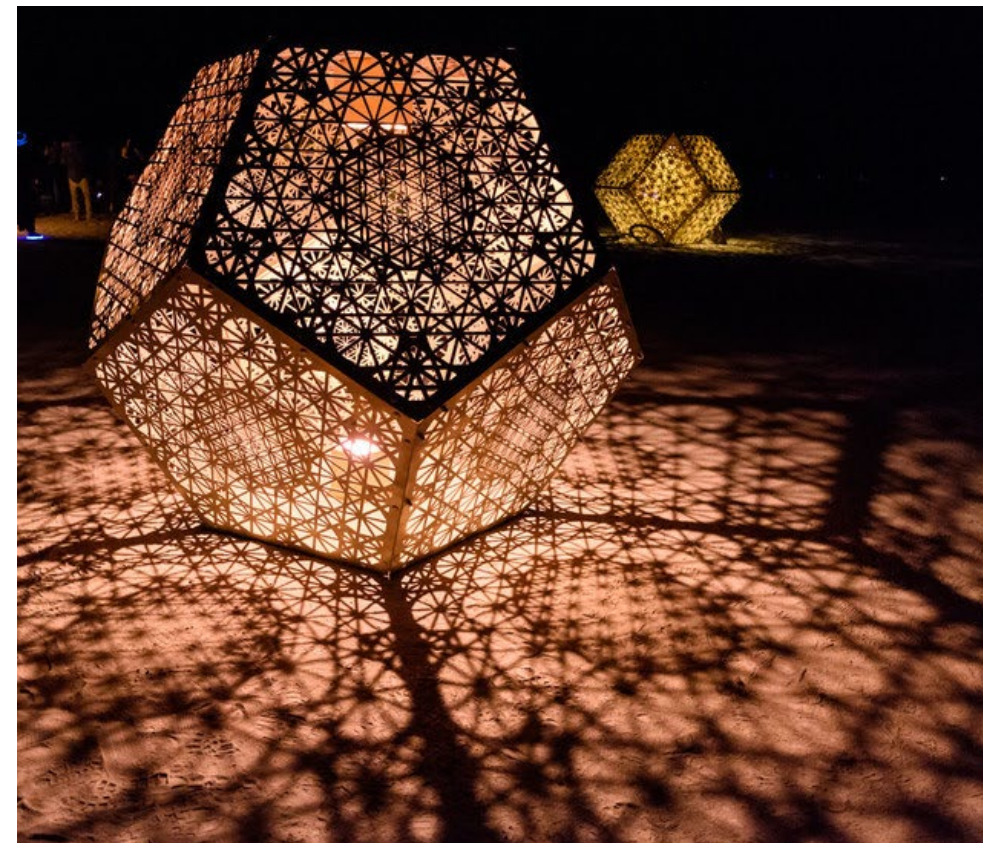

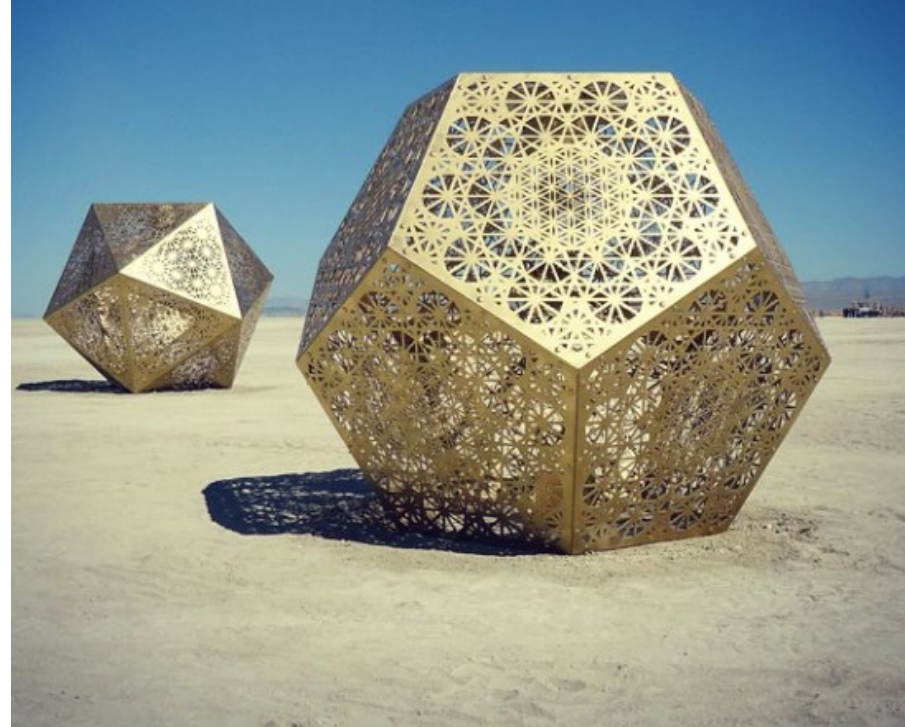

William Bulkley and Pk Cummings,
Co-Chairs, ACE Committee
Hayes Valley Neighborhood Association
