RE: Bridging the Bernal Cut

Alaric Degrafinried
Acting Director

Dear Mr. Corpora:

San Francisco Public Works
1 Dr. Carlton B. Goodlett Pl.
Room 348
San Francisco, CA 94102
tel 415-554-6920

This letter is written in support of the College Hill Neighborhood Association's (CHNA) Community Challenge Grant funded mural Bridging the Bernal Cut, part of its ongoing Bernal Cut Beautification Project. As a City department, Public Works has been working with the Bernal Cut Beautification Project since 2014. Public Works is responsible for the hillsides lining the Cut as well as the Richland-Miguel bridge.

sfpublicworks.org
facebook.com/sfpublicworks
twitter.com/sfpublicworks

My staff has met with the project's manager, Sophie Constantinou, to discuss CHNA's proposed mural across the bridge and wholeheartedly support it. This public art project will use otherwise undeveloped public space to tell the story of the area, adding beauty and interest and promoting neighborhood connection. We have scheduled the Richland-Miguel bridge to be closed for unrelated repair work in 2021, and will work with CHNA during the closure period to ensure the mural is installed safely, efficiently, and with no additional disruption to the community. CHNA has worked with Public Works' Clean & Green Team multiple times over the years in their planting, cleaning, and beautification efforts and rapport has been excellent.

Sophie Constantinou and her neighbors have been steadfast stewards of the Bernal Cut path between Richland Avenue and St Mary's Avenue to the North and South and College Avenue and San Jose Ave to the East and West. This previously undeveloped space has been part of a community greening effort that expanded in 2015 with a San Francisco Environment Carbon Sequestration grant that brought 100 trees and 350 drought tolerant plants to the hillside. In the past year, the community effort (supported by a Community Challenge Grant) has added more native trees and plants in addition to interpretive signage that enhances the space for passerby. I look forward to the added benefits this new phase of the project will bring.

Public Works looks forward to collaborating with Sophie and CHNA on their exciting mural. If you have questions, please feel free to contact me or my staff, Jeremy Spitz, at Jeremy.spitz@sfdpw.org or 415-361-2368.

Sincerely,

A handwritten signature in blue ink, appearing to read "Alaric Degrafinried". The signature is fluid and cursive, with the first name "Alaric" being more prominent than the last name.

10-Year Maintenance Plan

College Hill Neighborhood Association and its neighbors are committed to maintaining the mural and other improvements related to the Bernal Cut Beautification Project. This 10-year Maintenance plan includes and identifies the responsible parties and their roles.

The Bay Area Mural Project and **Andre Jones** has committed his team to be on call, **free of charge**, to address any vandalism or graffiti within 48 hours of an incident, for a minimum of 10 years. The mural will be coated with an anti-graffiti sealant for easy cleaning. BAMP performs annual site visits to make sure all the surfaces are holding their paint and their color. Touch ups and repairs are a part of BAMP's guarantee, also for a minimum of 10 years.

Year One: 2021

- **Bernal Cut Path Year Round Maintenance** The Bernal Glen neighbors from College Ave, St Mary's Ave, Richland Ave, Highland Ave, Park Street and Mission Street volunteer quarterly to keep the hillside beautiful, clean and maintained. The following core participants will monitor the mural, notify BAMP in the event of needed repairs, and provide **in-kind support**. **Sophie Constantinou** has been a Public Works Street Park Steward for the Bernal Cut since 2014 and donates her time as project manager and storyteller.
- **The Bay Area Mural Project** will train three **College Hill Neighborhood Association** members as local graffiti removers with a basic kit. The kit includes paint remover that does not penetrate the mural sealant, rags and a touch up kit for small blemishes. Erika Ehmsen is currently trained and equipped to address mural defacement on the mural on Randall and the Bernal Cut Path. Sophie Constantinou and David Wallace will join Erika in this work.
- **San Francisco Department of Public Works** is the landlord of the Bernal Cut and provides **in-kind support of tools, expertise and permits**. **Paul Noa DPW's Clean & Green Team** Program manager leads our annual hillside clean up to support the neighborhood to keep the path and mural clean and beautiful. DPW has committed to **providing paint** as needed for mural upkeep and for graffiti cover up on unadorned concrete.
- **Citizen Film** is committed to keeping the mural in the public eye, using video and photos to inspire and animate community efforts in the Bernal Cut. After the grant period Citizen Film will continue to provide in-kind support, Sophie Constantinou and Aurora Jimenez, will manage the bernalcut.org website and send at minimum quarterly newsletters.

Year Two- Four: 2022-2024

- **CHNA** conducts quarterly work days and emergency touch ups to mural.

- **BAMP** conducts annual check ups on the mural to assess and repair.
- **DPW's** Clean & Green Team conducts annual clean up.
- **Citizen Film** publishes quarterly communications and updates. Talking and presenting about the creative placemaking in San Francisco at national and international venues.

Year Five: 2025

DPW, BAMP, CHNA and **Citizen Film** conduct a five year milestone assessment of both the infrastructure and the mural. **Raymond Lui** DPW Design & Engineering Section Manager will lead the assessment.

- **CHNA** conducts quarterly work days and emergency touch ups to mural.
- **BAMP** conducts annual check ups on the mural to assess and repair.
- **DPW's** Clean & Green Team conducts annual clean up.
- **Citizen Film** publishes quarterly communications and updates. Talking and presenting about the creative placemaking in San Francisco at national and international venues.

Year Six-Nine: 2026-2029

- **CHNA** conducts quarterly work days and emergency touch ups to mural.
- **BAMP** conducts annual check ups on the mural to assess and repair.
- **DPW's** Clean & Green Team conducts annual clean up.
- **Citizen Film** publishes quarterly communications and updates. Talking and presenting about the creative placemaking in San Francisco at national and international venues.

Year Ten: 2030

2030 marks the one hundredth anniversary of the Richland-Miguel Bridge and the expansion of the Bernal Cut so it is time to mark the event. **DPW, BAMP, CHNA** and **Citizen Film** organize a celebratory event for both the 100th anniversary of the bridge and the 10th anniversary of the mural. Community fundraising will support a neighborhood party, mural color refresh and civic engagement.

Artist Bios

Sophie Constantinou is a creative placemaking artist, documentary storyteller, and co-founder of Citizen Film, a nationally acclaimed nonprofit organization devoted to inspiring active engagement in civic life. In addition to sparking national reflection (in both 2018 and 2019, over 1 million people viewed Citizen Film's public media work), Citizen Film collaborates with local communities to illuminate challenges and opportunities, disrupt conventional thinking and create new landscapes that improve sustainability and environmental health.

Sophie's work in her own neighborhood is guided by the belief that participatory documentary storytelling is a powerful tool for catalyzing change. After moving to her new home alongside the Bernal Cut in 2003, Sophie started working with the College Hill Neighborhood Association to make small improvements. Gathering neighbors together to clean up an abandoned hillside eventually led to the ambitious restoration of an acre of land sloping down towards San Jose Avenue, a process Sophie continues to creatively document. Improvements so far include tree plantings, a native California demonstration garden, a shared lending library and solar lighting along a pedestrian walkway. Sophie is creating a set of interpretive signs and an online multimedia project exploring how natural and built environments interact on the Bernal Cut, and encouraging residents to get involved. Sophie is the first documentarian ever to receive a prestigious ArtPlace America Creative Placemaking Grant and she sees all of her projects as a means to strengthen the social, physical, and economic fabric of communities.

City and County of San Francisco

On behalf of the San Francisco Arts Commission (SFAC), I am writing this letter to express support for the work of Sophie Constantinou. SFAC partners with Sophie and Citizen Film, the nationally acclaimed documentary media non-profit she co-founded in 2002, on Buchanan Change, a creative placemaking initiative in the Western Addition.

Sophie and Citizen Film are exceptionally skilled and effective at using documentary art to create positive neighborhood change. In her proposed mural project across the Richland-Miguel bridge, Sophie will lean on her expertise as a creative placemaking artist who uses film, photography, installation art, and public murals to rally communities around environmental and social justice-related issues. In Buchanan Change, Sophie and Citizen Film are generating a cycle of collaborative documentary storytelling and story-sharing to empower the community to address issues of public safety, neighborhood beautification and resilience, waste management and infrastructure improvements. They have engaged hundreds of Western Addition residents in design workshops, film screenings and other public art interventions. Their storytelling work has brought together and built trust between residents and leaders of City Agencies including Recreation and Parks, the Mayor's Office of Neighborhood Services, the Office of Economic and Workforce Development, Department of Public Works, the Planning Department and the Mayor's Office of Housing and Community Development.

Citizen Film's approach has also attracted national attention to San Francisco as a city where arts-based strategies for community change are making a difference. In 2015, Citizen Film under Sophie's leadership received an extremely competitive ArtPlace America award and is often asked to speak about her work at national creative placemaking conferences. In addition to traditional film venues like Sundance and PBS, Citizen Film presents its documentary art projects in spaces for educators and civic changemakers, including the Aspen Institute, SXSW-EDU and Civic Collaboratory. SFAC is pleased that its collaboration with Citizen Film not only make a difference in our city, but can provide a model for other cities and communities to implement innovative beautification and placemaking strategies.

Citizen Film has been a high-performance SFAC grantee and I am fully confident of their capacity and expertise in executing their proposed projects. Feel free to contact me at rachelle.axel@sfgov.org or 415.252.2237 if you have any questions.

Re: Community Challenge Grant 2019 Cycle

Dear Ms. Henriquez,

I am writing to offer my support for the "*Bridging the Bernal Cut*" Community Challenge Grant 2019 Cycle application to create a new mural on the Richland-Miguel Bridge, as part of the broader Bernal Cut Beautification Project.

Since 2012, the residents of Bernal Glen and Glen Park have led an extraordinary community effort to steward public space by improving a pedestrian pathway and revitalizing the Bernal Cut's formerly blighted hillsides. I was proud to support these efforts by securing a \$40,000 add-back in the Fiscal Year 2019/2020 budget to further the Bernal Cut Beautification Project and match future Community Challenge Grant funding. As part of that Project, residents are proposing to create a new mural on the Richland-Miguel bridge that connects the two neighborhoods. The mural will welcome thousands passing each day as they enter San Francisco on a busy thoroughfare, with evocative imagery that affirms our City's environmental and social justice values.

Project director Sophie Constantinou is a celebrated artist and standout District 8 resident. She uses documentary storytelling and public art to rally communities to solve seemingly intractable social problems. Her work on the Bernal Cut, for which she recently received a commendation from my office on behalf of the Board of Supervisors, is a perfect example. *Bridging the Bernal Cut* will further empower an engaged network of neighbors that have been working tirelessly to transform a former illegal dumping site and neglected walkway into a family-friendly urban green space, delighting residents, commuters, visitors, and passersby alike.

I strongly urge you to accept this application as part of the Community Challenge Grant 2019 Cycle. Should you have any further questions, please do not hesitate to reach out to my Legislative Aide, Erin Mundy, at (415) 554-6986 or erin.mundy@sfgov.org.

Thank you for your consideration.

Sincerely

Dear Community Challenge Grant Panelists,

As longtime Glen Park residents and neighborhood activists, we enthusiastically lend our support to *Bridging the Bernal Cut*. Painting a mural on the bridge that connects Bernal Glen and Glen Park will cement the bond between our neighborhoods, which face common issues including the health and safety impact of increased motor vehicle traffic, the need for greater housing density, and the challenges and opportunities created by our changing times.

The multi-year Bernal Cut Beautification Project has significantly improved the hillside view, sense of safety, and quality of life for Glen Park residents living on the Cut. We will be glad to support this newest phase of the Project by mobilizing neighbors to participate in the mural design process, organizing volunteer support, and monitoring the mural for future maintenance. We look forward to closely collaborating with artist and project director Sophie Constantinou, whose creativity and energetic outreach to neighbors is changing our community for the better each day. And we welcome the opportunity to strengthen ties with the College Hill Neighborhood Association in order to promote community strength and preparedness for emergencies.

The Glen Park Urbanists are a group of over 175 local neighbors living in Glen Park and adjacent neighborhoods like College Hill who have come together to discuss, to educate, to celebrate our urban home, and to cultivate everything that makes city life so great.

Thank you for your support.

Dear Lanita Henriquez, Program Manager CCG

We, the residents of Bernal Glen, would like to extend our deep appreciation for the Community Challenge Grant and the ways your support have changed our neighborhood with greenery, signage and amazing solar lights. Now we are excited about the opportunity to expand the impact of our neighborhood organizing and beautification. For some of us, this neighborhood is our new home. Others of us have lived here our entire lives. But together we hope to make this neighborhood a more beautiful, more connected community in order to address some of the larger issues we face together.

The bridges that connect the two sides of Bernal Glen and Glen Park are symbolic. These bridges are also a very real source of stress and anxiety. The bridges represent our connectedness and our disconnectedness. There are commuters that speed through our neighborhood, run our stop signs and endanger our children as they walk or bike to school. That is what we can see. The invisible impact of this busy commuter corridor is noise, pollution and anxiety that permeates our domestic realm. There are unhoused people that live beneath these bridges that remind us daily of the inequities of our current economic environment. They leave trash, they leave needles, and they leave us with a sadness that we cannot combat. There is a hopelessness to the disconnect between these problems: people too busy to respect the streets they drive on, people too poor to be respected.

Our community's work to beautify, restore and respect our neighborhood is an antidote to that hopelessness.

Together we have transformed a once barren hillside into an environmental oasis for birds, butterflies and we humans to enjoy. Together we have started to meet our neighbors and build a network of friends and resources. Together we have enlivened the pedestrian path with our string lights, holiday lights and solar technology. Together we fill our community sharing library with books, and giggle with our children on the tree swing. Our dogs know each other now. Our children know each other now. We feel safer because we have neighbors.

The bridge mural is an opportunity to go beyond the block party and reach across all divisions to amplify our work. The bridge mural is a welcoming gesture to commuters, visitors and neighbors alike. The bridge mural is also a story of the collective San Francisco history that predates us all and brings us all together.

Thank you for considering the proposed mural and for empowering a little neighborhood in our ever expanding city.
