DESIGN CONCEPT

Please provide a succinct description of the design concept or idea (not the functional goals). Attach additional page if needed.

"A necessary seismic upgrade will entail the removal of site trees and application of exterior shotcrete shear walls to an existing 1950's building. The design team is exploring opportunities to streamline and enhance the visibility of the building by echoing the adjacent architecture and planting through inscription, contrasting textures or applied linework."

ADDITIONAL INFORMATION

☐ Is this project on a City designated landmark or in a City designated historic district? If yes, have you contacted staff of the Historic Preservation Commission to determine whether a certificate of appropriateness is required?

COMMUNITY OUTREACH

It is your obligation to notify the community (by mail or email) that there is opportunity for public comment at the Civic Design Review Meeting. This is an important part of the public process. What has been done in this regard?
