### DESIGN CONCEPT

Please provide a succinct description of the design concept or idea (not the functional goals).

The intent of the design is to create a modern and distinctive fire station with a strong presence in the community, a civic and public facility that serves its community – that becomes a “community beacon” that promises security and care during a public crisis, understanding the relationship between community pride and the practical needs for the facility to work. The building design incorporates the required program elements for the fire department and personnel to work, rest, and live. The first floor incorporates for the most part the working areas (The apparatus bay access - fire apparatus), Public and personnel access and rest areas (The day room, dining room and kitchen). The Second and Third floors are

### IS THIS PART OF A MULTI-SITE PROJECT, BOND OR CAPITAL IMPROVEMENT PROGRAM?

If yes, which program? Yes - 2010 ESER Bond

### COMMUNITY OUTREACH

It is your obligation to notify the community (by mail or email) that there is opportunity for public comment at the Civic Design Review Meeting.
