Good Afternoon Cal,

These docs look good to us and we can offer preliminary approval therein. The reason I emphasize preliminary is that the actual installation of the plaques may necessitate additional permits and approvals from Public Works.

When you are ready, and have gained Art Commission approvals, you can prepare and submit this [application](#) with any required docs.

Please do not hesitate to follow up with us should you need anything else.

Gregory P. Slocum

Happy New Year, Gregory and Nick. I'm not sure if you're in the office this week but I did wish to follow up to make sure that you have everything you need from us regarding the slip resistance of our commemorative plaques. Thank you much and wishing you both a terrific 2021.

Best,  
Cal

Good morning, Gregory. I've attached a summary of our commemorative plaques, their composition, and the slip evaluation of the foundry's manufacture. Is there any other information we can provide to obtain the department's approval before we present to the Arts Commission?

Thank you so much for your guidance through this process. It is greatly appreciated. Also, my phone has mysteriously decided to stop tracking recent calls. Would you be so kind as to give me your direct number again? Thank you again!

Cheers,  
Cal

Cal,

Per our discussion, here is a prior example of a slip resistance letter that accompanied a plaque. CC'ing my colleague Nick who I believe may have taken a call on this one.

Have a great day,

Gregory P. Slocum

Hey there,

We will work on your request, I am going to seek an example you may mimic.

Thank you for your time,

Gregory P. Slocum
