

I just want to be a witness to the harassment that Jeff has committed against Lucinda, though she is not the only one I have bared witness him personally attack, either by going off on them both outside and inside the booth and just being a bully too through the years. I have also in the past been yelled at by him for just setting up next to him and him telling me to "fucking go anywhere else because I take business away from him "dealt with sexual innuendos and have seen him go off on vendors more than once for not signing his petition (whatever petition he might be having at the time)

As far as Lucinda goes I have witnessed him for long periods at a time just record her (20 minutes intervals) just to stop whenever he has a client that continue on recording her. As soon as he would get noticed by her he would just start laughing. This sort of behavior for what seems months now. Just taunting her.
