DESIGN CONCEPT

Please provide a succinct description of the design concept or idea (not the functional goals). Attach additional page if needed.

The T2 Buildback will add two levels of space at the site of the old Air Traffic Control Tower in Terminal 2. Located at the geographic center of the airport, the design highlights the site's excellent views to the airfield by maximizing the glazing to at the Northern and Southern ends of the building and to provide a rich user experience for people accessing these spaces.

ADDITIONAL INFORMATION

Is this project on a City designated landmark or in a City designated historic district? If yes, have you contacted staff of the Historic Preservation Commission to determine whether a certificate of appropriateness is required?

COMMUNITY OUTREACH

It is your obligation to notify the community (by mail or email) that there is opportunity for public comment at the Civic Design Review Meeting. This is an important part of the public process. What has been done in this regard?
