## DESIGN CONCEPT

Please provide a succinct description of the design concept or idea (not the functional goals). Attach additional page if needed.

Verizon proposes to install small wireless facilities on roughly 10 SFPUC owned poles in the public right of way in the Mission Bay area. Each installation involves the installation of one cylindrical antenna on top of the pole, along with two small equipment boxes (mRRUs) on the side of the pole. All equipment will be painted to match the existing streetlight pole

## ADDITIONAL INFORMATION

Is this project on a City designated landmark or in a City designated historic district? If yes, have you contacted staff of the Historic Preservation Commission to determine whether a certificate of appropriateness is required?

## COMMUNITY OUTREACH

**It is your obligation to notify the community (by mail or email) that there is opportunity for public comment at the Civic Design Review Meeting.** This is an important part of the public process. What has been done in this regard?
