Dear Anne,

I have heard from artists that Jeff Potter was removed from Seattle's Pikes Place market for copying. The director of the Pikes Place market, David Dickinson, is in the process of retrieving disciplinary records. Mr Potter has also copied the work of several artists in the Embarcadero Plaza market including Gary Freed who was the original peace sign tee shirt guy and several other artists as well. This shows an insidious pattern and practice Mr. Potter has used over many years.
