San Francisco, CA 94103

13EXC-0286

Utility Excavation Permit

Address : Multiple Locations

Cost: \$3,659.71

Block: Lot: Zip:

Pursuant to Article 2.4 of the Public Works Code in conjunction to DPW Order 178,940 permission, revocable at the will of the Director of Public Works, to excavate and restore the public right-of-way is granted to Permittee.

Bay Area Lightworks

Name: Bay Area Lightworks

Address: 1460 Yosemite Ave. San Francisco, CA 94124

Contact: Lindy Galimba

Phone: 415-822-2336

Conditions	Two (2) of the work locations included on this permit are under moratorium and these are: 1. intersection of Sunset Blvd. & Lawton St. (Moratorium ends on 4/18/2017); 2. Lawton St. between 36th Ave. to Sunset Blvd. (Moratorium ends on 4/18/2017). This permit is approved for sidewalk work only for these two locations. No work in the street for these locations will be allowed under this permit. Thus, approval for working in a moratorium street is not required. All street restoration shall be to the satisfaction of the City assigned inspector. (WARNING: Failure to comply with these conditions may render this permit void and may subject Bay Area Lightworks to a fine or citation for up to \$10,000.00 a day for excavating without a valid permit.)
EmergencyConfirmationNumber	
24 Hour / 7 Day Contact:	Jim Lau 415-806-8166
Service Address/Project:	Sunset Blvd. Pedestrian Countdown Signals (Contract No. 1984J)
Start Date	02/11/2013
Permit expires on:	5/17/2013
Purpose	Curb Ramp
Purpose	Electric
Purpose	Traffic Signal
Excavation Reason	Place Conduit
Excavation Reason Description	Install new curb ramps and electrical conduit for the pedestrian countdown signals and relocate/install traffic signal controller cabinets
Method:	Open Cut: Sawcut

STREET EXCAVATION REQUIREMENTS:

1. The permittee shall call Underground Service Alert (U.S.A.), telephone number 1-800-227-2600, 48 hours prior to any excavation.
2. All work including sidewalk and pavement cutting and removal, lagging, excavation, backfill, and sidewalk and pavement restoration shall be done by a licensed paving contractor and in accordance with the requirements of the Standard Specifications of the Bureau of Engineering, Department of Public Works, July 1986 Edition and Department of Public Works Order Nos. 176,707, copy attached.
3.
 - a. DPW Order 181,305, dated 6/17/13, Reinforced Concrete Bus pads, shall be constructed in accordance with SFPDW Standard Plan, File No. 96,607 and SFPDW Standard Specification Section 210 except that the concrete bus pad shall have a minimum compressive strength of 5,000 psi. Concrete bus pads shall be constructed at a minimum thickness of 10 to 12 inches and shall be approximately 10-foot wide.
 - b. DPW Order 181,306 dated 9/26/13, Reinforced concrete sidewalk, shall be constructed in accordance with the SFPDW Standard Plan File No. 96,608 and SFPDW Standard Specification Section 204 with #3 steel reinforced bars at mid-depth of the concrete sidewalk slab.
4. Sidewalk and pavement restoration shall include the replacement of traffic lane and crosswalk striping, parking stall markings, and curb painting that might have been obliterated during street excavation. The permittee shall perform their work under on the following options:
 - a. Have the City forces do the striping and painting work at the permittee's expense. The permittee shall make a deposit with the Department of Parking & Traffic for this purpose in an amount estimated by the Municipal Transportation Agency (MTA) 7th Floor 1 South Van Ness Ave telephone 701-4500, and notify the MTA at least 48 hours in advance of the time the work is to be done.
 - b. Perform the work themselves following instructions available at the Department of Parking & Traffic.
5. The permittee shall submit a non-refundable fee to Bureau of Street-Use and Mapping to pay for City Inspection of the backfill and pavement restoration. At least 48 hours in advance, the permittee shall make arrangements with the Street Improvement Section Inspectors, 554-7149, for an inspection schedule.
6. The permittee shall file and maintain an excavation bond in the sum of \$25,000.00 with the Department of Public Works, to guarantee the maintenance of the pavement in the excavation area for a period of 3 years following the completion of the backfill and pavement restoration pursuant to Article 2.4.40 of the Public Works Code.
7. The permittee shall conduct construction operations in accordance with the requirements of Article 11 of the Traffic Code. The permittee shall contact the MTA 7th Floor 1 South Van Ness Ave telephone 701-4500, for specific restrictions before starting work.
8. The permittee shall obtain the required permits, if any, from regulating agencies of the State of California.
9. The permittee shall verify the locations of any City or public service utility company facilities that may be affected by the work authorized by this permit and shall assume all responsibility for any damage to such facilities. The permittee shall make satisfactory arrangements and payments for any necessary temporary relocation of City or public utility company facilities.
10. The permittee shall pay the required fee for sewer installation permit at the Plumbing Inspection Division, Department of Building Inspection, 1660 Mission Street and arrange for inspection of this work, telephone 558-6054.
11. Concrete form work, planting of trees and pouring of sidewalk and/or curb shall not be performed prior to obtaining a permit from Bureau of Urban Forestry (BUF), telephone: 554-6700.
12. Per DPW Order 178,806, the recycling of Cobble Stones and Granit Curb shall follow as:
 - a. Cobblestones shall be clean of dirt prior to transporting. Extreme care shall be taken during the transporting the cobblestones to minimize damage before delivery to City. The cobblestones shall be neatly and securely placed on pallets so they can be moved about safely after the delivery. The Minimum size of cobblestone shall be 4 inches square (16 square inches). The cobblestones shall be delivered, including off loading, to the lower lot at the Cesar Chavez Street Yard located at 2323 Cesar Chavez Street or at alternative location directed by the Department within the City of San Francisco. Contact the Department forty-eight hours (48 hours) prior to delivery. The Department can be reached at (415) 641-2627.
 - b. Granite Curb shall be neatly and securely placed on pallets so they can be moved about safely after delivery. The Contractor shall exercise care in transporting the granite curb to minimize damage. The length limit of recyclable granite curbs shall be no less than four feet. The granite curb shall be delivered, including off loading, to the back lot at the Griffith Pump Station located at 1105 Thomas Street or at an alternative location directed by the Department within the City of San Francisco. Contact Bureau of Street and Sewer Repair (BSSR) at least forty-eight hours (48 hours) prior to delivery. BSSR can be reached at (415) 695-2087.
13. In consideration of this Permit being issued for the work described in the application, Permittee on its behalf and that of any successor or assign, and on behalf of any lessee, promises and agrees to perform all the terms of this Permit and to comply with all applicable laws, ordinances and regulations.
14. Permittee agrees on its behalf and that of any successor or assign to hold harmless, defend, and indemnify the City and County of San Francisco, including, without limitation, each of its commissions, departments, officers, agents and employees (hereinafter collectively referred to as the "City") from and against any and all losses, liabilities, expenses, claims, demands, injuries, damages, fines, penalties, costs or judgments including, without limitation, attorneys' fees and costs (collectively, "claims") of any kind allegedly arising directly or indirectly from (i) any act by, omission by, or negligence of, Permittee or its subcontractors, or the officers, agents, or employees of either, while engaged in the performance of the work authorized by this Permit, or while in or about the property subject to this Permit for any reason connected in any way whatsoever with the performance of the work authorized by this Permit, or allegedly resulting directly or indirectly from the maintenance or installation of any equipment, facilities or structures authorized under this Permit, (ii) any accident or injury to any contractor or subcontractor, or any officer, agent, or employee of either of them, while engaged in the performance of the work authorized by this Permit, or while in or about the property, for any reason connected with the performance of the work authorized by this Permit, or arising from liens or claims for services rendered or labor or materials furnished in or for the performance of the work authorized by this Permit, (iii) injuries or damages to real or personal property, good will, and persons in, upon or in any way allegedly connected with the work authorized by this Permit from any cause or claims arising at any time, and (iv) any release or discharge, or threatened release or discharge, of any hazardous material caused or allowed by Permittee in, under, on or about the property subject to this Permit or into the environment. As used herein, "hazardous material" means any substance, waste or material which, because of its quantity, concentration of physical or chemical characteristics is deemed by any federal, state, or local governmental authority to pose a present or potential hazard to human health or safety or to the environment.
15. Permittee must hold harmless, indemnify and defend the City regardless of the alleged negligence of the City or any other party, except only for claims resulting directly from the sole negligence or willful misconduct of the City. Permittee specifically acknowledges and agrees that it has an immediate and independent obligation to defend the City from any claim which actually or potentially falls within this indemnity provision, even if the allegations are or may be groundless, false or fraudulent, which obligation arises at the time such claim is tendered to Permittee by the City and continues at all times thereafter. Permittee agrees that the indemnification obligations assumed under this Permit shall survive expiration of the Permit or completion of work.
16. Permittee shall obtain and maintain through the terms of this Permit general liability, automobile liability or workers' compensation insurance as the City deems necessary to protect the City against claims for damages for personal injury, accidental death and property damage allegedly arising from any work done under this Permit. Such insurance shall in no way limit Permittee's indemnity hereunder. Certificates of insurance, in form and with insurers satisfactory to the City, evidencing all coverages above shall be furnished to the City before commencing any operations under this Permit, with complete copies of policies furnished promptly upon City request.
17. The permittee and any permitted successor or assign recognize and understand that this permit may create a possessory interest.

Special Conditions

13EXC-0286

Conditions

====>NOTES: Per the Public Works Excavation Code:

- 1). ' T ' trench shall be the standard restoration practice for all trenches greater than 18 inches in width. The restoration of the concrete base and pavement will be equal to 1 ft. as measured from the edge of the trench;
- 2). the minimum pavement restoration requirements (mill and fill) for trenches exceeding 25% of the length of the block shall include the restoration of all affected lanes for the entire length of the block. For streets that are not delineated by painted lanes and the width of the excavation is less than thirteen (13) feet, the pavement restoration requirements (mill and fill) shall be for the entire length of the block thirteen (13) feet in width;
- 3). for excavation in the intersection, the restoration shall be to pave all affected quadrants either with the 13 foot rule for streets without delineated traffic lanes unless it is on a Muni route and for streets with multiple delineated traffic lanes in one direction, the restoration shall be limited to the affected lane(s).

====>Per DPW sign specifications, all projects impacting the length of one (1) block face or more will require the installation of a project information sign, for the duration of the project. The project information sign should be located at either end of the project facing oncoming vehicular traffic. For larger projects that exceed five (5) blocks, the project information sign should be placed at five (5) block intervals in both directions. The signage is intended to keep the public informed of the intent of the project, project schedule, contact information and allow for updates as needed.

====>If concrete street, gutter or parking strip is excavated, Bay Area Lightworks shall remove and replace the entire concrete section from construction joint to construction joint. (No new construction joint will be allowed).

====>When drilling/excavating in the sidewalk area, entire sidewalk flag(s) must be replaced to adjacent score lines.

====>Placement or installation of any utility facilities within the curb return area is prohibited per DPW Order No. 175,387.

====>The Department of Public Works approves this permit pursuant to the following special conditions, which the Department of Public Works incorporates into the permit and makes a part thereof.

SPECIAL PERMIT CONDITIONS:

1. Bay Area Lightworks shall coordinate all work with any other construction projects and events known or unforeseen such as to minimize the impact of construction project on the general public and/or event(s).
2. Bay Area Lightworks shall comply with Code Section 2.4.50(a), post and maintain notice(s) at the site of the excavation 72 hours prior to start of construction.
3. Bay Area Lightworks shall comply with Code Section 2.4.55(b)(i), such that each excavation will be backfilled and compacted within 120 hours from the time the construction related to the excavation is completed, and immediately place and maintain temporary pavement (cutback) over the excavation(s).
4. Bay Area Lightworks' work shall be in accordance to all traffic regulations per S.F. Traffic Code (The Blue Book) or with any DPT approved traffic routing plan or DPT special traffic permit.
5. Bay Area Lightworks shall provide safe access for all pedestrians at all times. Special attention must be paid to provide ingress and egress to businesses and driveways.
6. Bay Area Lightworks shall coordinate all work with MUNI so as to avoid disruption to MUNI services. Please call Carlos Carrillo of Muni at #567-8745 to coordinate the schedule of work.
7. Bay Area Lightworks shall discuss and coordinate with Muni with regards to relocating bus stops if necessary for pedestrian safety. Please call Carlos Carrillo of Muni at #567-8745 for coordination.
8. Bay Area Lightworks shall hire SF police officers (when necessary) to control traffic so as to minimize the impact of the construction on the general public.
9. Bay Area Lightworks shall cooperate and participate in all public outreach and information including community meetings.
10. Bay Area Lightworks shall replace any existing traffic stripings and markings that are removed or damaged by the work activity with temporary stripings and markings after the restoration of the pavement as specified on the revised Section 6.2 'Pavement Markings' of DPT's 'Blue Book'. Also, Bay Area Lightworks shall pay to DPT the cost of replacing the permanent pavement markings. For any questions, please call Conrad Magat of DPT at (415) 701-4680.
11. Bay Area Lightworks shall restore all trenches per the Excavation Code and shall be to the satisfaction of the assigned city inspector.
12. Bay Area Lightworks shall construct curb ramps per DPW Standard Curb Ramp Drawing Nos. CR-1 and CR-3, Revision 3 and Drawing Nos. CR-2, CR-4 thru CR-6, Revision 0 on any curb return/angular corner where excavation occurs. All curb ramp installation shall comply with ADA requirements.
13. Bay Area Lightworks shall remove all temporary pavement markings including USA marking on both the sidewalk and street at the conclusion of the excavation.
14. Bay Area Lightworks shall submit compaction test results done by a certified material testing laboratory as required by the excavation code prior to pavement restoration. [NOTE: Per Article 2.4 of the Public Works Code, the required compaction test shall be one (1) set of three (3) compaction tests per one (1) regular city block, or as specified by the DPW assigned inspector. Copies of the compaction test results shall be provided to the assigned DPW inspector.]

Failure to comply with the above requirements may render this permit void and may subject Bay Area Lightworks to a fine or citation.

MEMORANDUM

TO: Rene Lopez
Bureau of Street Use and Mapping
875 Stevenson Street, Room 460

FROM: 
Geraldine de Leon
Assistant Engineer

DATE: September 20, 2012

SUBJECT: Surface-Mounted Facility Submittal Package for Signal Controller Cabinet Installation at **Lawton Street** between **36th Avenue** and **Sunset Boulevard** (near the intersection of Lawton Street and Sunset Boulevard)
(DPW Contract No. 1984J – Sunset Boulevard Pedestrian Countdown Signals Project)

Please find enclosed our submittal package for the proposed installation of a surface-mounted facility (signal controller cabinet) at **Lawton Street** between **36th Avenue** and **Sunset Boulevard** (near the intersection of Lawton Street and Sunset Boulevard). This intersection is included as part of Sunset Boulevard Pedestrian Countdown Signals Project and the construction is proposed to begin around January 2013.

Revisions have been made to the application package per your comments.

The required public notices will be posted after we receive your written approval regarding the proposed SMF location.

If you have any questions, I can be reached at 701-4675.

VERIFICATION STATEMENTS OF PRE-SITE VISIT CHECKLIST (EXHIBIT A)

1. STATEMENT REGARDING 5-YEAR PLAN

See attached copy of SFMTA's Five Year Plan.

2. STATEMENT REGARDING CABINET SIZE

Attached are the specifications for the traffic signal controller cabinet and foundation.

3. STATEMENT REGARDING ATTEMPTS TO PLACE SURFACE-MOUNTED FACILITY ON PRIVATE PROPERTY

Because of the purpose, function and special requirements of signal controllers, their placement is critical to public safety and is limited to the portion of sidewalk as close to the intersection as practical, such that the controller is curbside with a direct line of sight to as much of the intersection, signal indications and vehicle and pedestrian traffic as possible. For such reasons, signal controller cabinets cannot be placed on private property away from the roadway and they must be fully accessible at all times.

4. STATEMENT REGARDING ATTEMPTS TO PLACE SURFACE-MOUNTED FACILITY UNDERGROUND

Because of the purpose, function and special requirements of signal controllers, their placement is critical to public safety and is limited to the portion of sidewalk as close to the intersection as practical, such that the controller is curbside with a direct line of sight to as much of the intersection, signal indications and vehicle and pedestrian traffic as possible. For such reasons, signal controller cabinets cannot be placed underground where a direct line of sight is not available.

5. STATEMENT REGARDING ATTEMPTS TO COLLOCATE THE SURFACE-MOUNTED FACILITY

There are no other surface-mounted facilities at this intersection that the controller can be collocated with.

6. STATEMENT REGARDING SPECIAL REQUIREMENTS THAT LIMIT THE POSSIBLE LOCATIONS FOR THE SURFACE-MOUNTED FACILITY

Because of the purpose, function and special requirements of signal controllers, their placement is critical to public safety and is limited to the portion of sidewalk as close to the intersection as practical, such that the controller is curbside with a direct line of sight to as much of the intersection, signal indications and vehicle and pedestrian

SMF Submittal Package
For Lawton Street between 36th Avenue and Sunset Boulevard
(near the intersection of Lawton Street and Sunset Boulevard

traffic as possible. For such reasons, signal controller cabinets cannot be placed underground or on private property away from the roadway.

7. STATEMENT REGARDING CONFORMANCE TO PLACEMENT GUIDELINES

The suggested location for the proposed facility is in accordance with DPW's surface-mounted facility placement guidelines, Exhibit B of DPW Order No. 175,566.

8. STATEMENT REGARDING REMOVAL OF EXISTING SURFACE-MOUNTED FACILITY

The old controller cabinet and foundation will be removed after activation of the new controller.

IMPORTANT NOTICE CONCERNING YOUR RIGHTS

September 20, 2012

Dear San Francisco Resident:

The San Francisco Municipal Transportation Agency (SFMTA) has filed an application with the San Francisco Department of Public Works (DPW) for a permit to install a traffic signal controller cabinet at the northeast corner of **Lawton Street** and **Sunset Boulevard**. A photograph of the Surface Mounted Facility (SMF) and the specifications for the SMF are shown below.

SFMTA will be modifying the existing traffic signals at Lawton Street and Sunset Boulevard to relocate the existing signal controller cabinet at this intersection from the northwest corner to the northeast corner. The new cabinet will house the signal controller and other equipment that will control and monitor the proper functioning of the traffic signals. The old traffic controller cabinet will be removed after activation of the new cabinet. The proposed SMF location is the optimal location for the placement of the controller cabinet from a traffic safety standpoint. A direct line of sight from the cabinet to the intersection, signal indications and vehicle and pedestrian traffic is essential.

Objection to the installation of the SMF at any of the proposed locations must be submitted in writing via e-mail to smf@sfdpw.org, by mail to the **Department of Public Works, Bureau of Street-Use and Mapping, 875 Stevenson Street, Room 460, San Francisco, California 94103-0942** or by fax to **(415) 554-6161**. You have 20 days from the date of this notice to send written notice of your objection to DPW. DPW will not consider any objection unless it is made within this 20-day period.

If you submit an objection, DPW may convene a hearing to determine whether the permit for placement of the SMF should be issued. DPW will commence any such hearing within 40 days after the receipt of any objections. You will have the opportunity to express your concerns about the SMF at the hearing should you choose to attend.

Thank you,

Geraldine de Leon

STREET EXCAVATION REQUIREMENTS

1. The permittee shall call Underground Service Alert (U.S.A.), telephone number 1-800-227-2600, 48 hours prior to any excavation.
2. All work including sidewalk and pavement cutting and removal, lagging, excavation, backfill, and sidewalk and pavement restoration shall be done by a licensed paving contractor and in accordance with the requirements of the Standard Specifications of the Bureau of Engineering, Department of Public Works, July 1986 Edition and Department of Public Works Order Nos. 176,707, copy attached.
3. Sidewalk and pavement restoration shall include the replacement of traffic lane and crosswalk striping, parking stall markings, and curb painting that might have been obliterated during street excavation. The permittee shall perform their work under on the following options:
 - a. Have the City forces do the striping and painting work at the permittees expense. The permittee shall make a deposit with the Department of Parking & Traffic for this purpose in an amount estimated by the Municipal Transportation Agency (MTA) 7th Floor 1 South Van Ness Ave telephone 701-4500, and notify the MTA at least 48 hours in advance of the time the work is to be done.
 - b. Perform the work themselves following instructions available at the Department of Parking & Traffic.
4. The permittee shall submit a non-refundable fee to Bureau of Street-Use and Mapping to pay for City Inspection of the backfill and pavement restoration. At least 48 hours in advance, the permittee shall make arrangements with the Street Improvement Section Inspectors, 554-7149, for an inspection schedule.
5. The permittee shall file and maintain an excavation bond in the sum of \$25,000.00 with the Department of Public Works, to guarantee the maintenance of the pavement in the excavation area for a period of 3 years following the completion of the backfill and pavement restoration pursuant to Article 2.4.40 of the Public Works Code.
6. The permittee shall conduct construction operations in accordance with the requirements of Article 11 of the Traffic Code. The permittee shall contact the MTA 7th Floor 1 South Van Ness Ave telephone 701-4500, for specific restrictions before starting work.
7. The permittee shall obtain the required permits, if any, from regulating agencies of the State of California.
8. The permittee shall verify the locations of any City or public service utility company facilities that may be affected by the work authorized by this permit and shall assume all responsibility for any damage to such facilities. The permittee shall make satisfactory arrangements and payments for any necessary temporary relocation of City or public utility company facilities.
9. The permittee shall pay the required fee for sewer installation permit at the Plumbing Inspection Division, Department of Building Inspection, 1660 Mission Street and arrange for inspection of this work, telephone 558-6054.
10. Concrete form work, planting of trees and pouring of sidewalk and/or curb shall not be performed prior to obtaining a permit from Bureau of Urban Forestry (BUF), telephone: 554-6700.
11. Per DPW Order 178,806, the recycling of Cobble Stones and Granit Curb shall follow as:
 - a. Cobblestones shall be clean of dirt prior to transporting. Extreme care shall be taken during the transporting the cobblestones to minimize damage before delivery to City. The cobblestones shall be neatly and securely placed on pallets so they can be moved about safely after the delivery, The Minimum size of cobblestone shall be 4 inches square (16 square inches). The cobblestones shall be delivered, including off loading, to the lower lot at the Cesar Chavez Street Yard located at 2323 Cesar Chavez Street or at alternative location directed by the Department within the City of San Francisco. Contact the Department forty-eight hours (48 hours) prior to delivery. The Department can be reached at (415) 641-2627.
 - b. Granite Curb shall be neatly and securely placed on pallets so they can be moved about safely after delivery. The Contractor shall exercise care in transporting the granite curb to minimize damage. The length limit of recyclable granite curbs shall be no less than four feet. The granite curb shall be delivered, including off loading, to the back lot at the Griffith Pump Station located at 1105 Thomas Street or at an alternative location directed by the Department within the City of San Francisco. Contact Bureau of Street and Sewer Repair (BSSR) at least forty-eight hours (48 hours) prior to delivery. BSSR can be reached at (415) 695-2087.
12. In consideration of this Permit being issued for the work described in the application, Permittee on its behalf and that of any successor or assign, and on behalf of any lessee, promises and agrees to perform all the terms of this Permit and to comply with all applicable laws, ordinances and regulations.
13. Permittee agrees on its behalf and that of any successor or assign to hold harmless, defend, and indemnify the City and County of San Francisco, including, without limitation, each of its commissions, departments, officers, agents and employees (hereinafter collectively referred to as the "City") from and against any and all losses, liabilities, expenses, claims, demands, injuries, damages, fines, penalties, costs or judgments including, without limitation, attorneys' fees and costs (collectively, "claims") of any kind allegedly arising directly or indirectly from (i) any act by, omission by, or negligence of, Permittee or its subcontractors, or the officers, agents, or employees of either, while engaged in the performance of the work authorized by this Permit, or while in or about the property subject to this Permit for any reason connected in any way whatsoever with the performance of the work authorized by this Permit, or allegedly resulting directly or indirectly from the maintenance or installation of any equipment, facilities or structures authorized under this Permit, (ii) any accident or injury to any contractor or subcontractor, or any officer, agent, or employee of either of them, while engaged in the performance of the work authorized by this Permit, or while in or about the property, for any reason connected with the performance of the work authorized by this Permit, or arising from liens or claims for services rendered or labor or materials furnished in or for the performance of the work authorized by this Permit, (iii) injuries or damages to real or personal property, good will, and persons in, upon or in any way allegedly connected with the work authorized by this Permit from any cause or claims arising at any time, and (iv) any release or discharge, or threatened release or discharge, of any hazardous material caused or allowed by Permittee in, under, on or about the property subject to this Permit or into the environment. As used herein, "hazardous material" means any substance, waste or material which, because of its quantity, concentration of physical or chemical characteristics is deemed by any federal, state, or local governmental authority to pose a present or potential hazard to human health or safety or to the environment.
14. Permittee must hold harmless, indemnify and defend the City regardless of the alleged negligence of the City or any other party, except only for claims resulting directly from the sole negligence or willful misconduct of the City. Permittee specifically acknowledges and agrees that it has an immediate and independent obligation to defend the City from any claim which actually or potentially falls within this indemnity provision, even if the allegations are or may be groundless, false or fraudulent, which obligation arises at the time such claim is tendered to Permittee by the City and continues at all times thereafter. Permittee agrees that the indemnification obligations assumed under this Permit shall survive expiration of the Permit or completion of work.
15. Permittee shall obtain and maintain through the terms of this Permit general liability, automobile liability or workers' compensation insurance as the City deems necessary to protect the City against claims for damages for personal injury, accidental death and property damage allegedly arising from any work done under this Permit. Such insurance shall in no way limit Permittee's indemnity hereunder. Certificates of insurance, in form and with insurers satisfactory to the City, evidencing all coverages above shall be furnished to the City before commencing any operations under this Permit, with complete copies of policies furnished promptly upon City request.
16. The permittee and any permitted successor or assign recognize and understand that this permit may create a possessory interest.
17. Separate permit is required for excavation of side sewers. Installation authorized only by Class "A" or "C-42" Licensed Contractor or "C-12" with "C-36" Licensed Contractor. Authorization requires the filing of a \$25,000 excavation bond to cover the cost of City inspection. Having obtained authorization to excavate in the roadway. The contractor shall obtain the proper permits and arrange for an inspection, for the section of pipe from the trap to the property, with the Plumbing Inspection Division at 1660 Mission Street, telephone 558-6054.

MEMORANDUM

DATE: March 5, 2012
TO: Derek Adams, Infrastructure Development & Acquisition Task Force
FROM: Jim Fain, PE, Carlile • Macy
SUBJECT: Surface Mounted Facility Permit

The following is the application for a surface mounted facility permit for the reduced pressure backflow preventer at the northern entry of Hunters View, at the northwest corner of Middle Point and West Point on Middle Point Station 59+50. The RPPBP will be constructed as shown on the attached exhibit and closure per the attached All-Spec cutsheet. Note there will be no sidewalk at this location of the unit as the sidewalk ends 10' to the south and the sidewalk cannot be extended due to the rocky condition on the west side of Middle Point to Evans Avenue. See pictures attached; the PG&E caution sign is placed in the approximate location of the proposed RPPBP.

BACKFLOW PREVENTER ENCLOSURE - "Febco-master series" (front door - opening)

MILD STEEL

PART NO.	A	B	C	SIZE	WT.
BFE-44M	44"	44"	45"	4"	172
BFE-48M	48"	48"	49"	6"	189
BFE-51M	51"	51"	56"	8"	206
BFE-62M	62"	57"	56"	10"	228

- 1 1/2" X 1 1/2" X 3/16" mild steel angle
- 1 1/2" #9 flattened expanded metal
- 3/16" door frame, mild steel
- Steel hinge, stainless steel hinge pins
- Safeguard padlock shield
- Pry resistant 1" flanged door
- Mild steel bolt down plates with 9/16" center hole, welded to frame on the inside corners of the enclosure.
- Limited warranty - 5 years
- Finishes for both stainless & mild steel
- Powder coating - "optional" on stainless steel
- Powder coating - "standard" on mild steel
- Painting - optional

BOLT DOWN DETAIL

ALL-SPEC-BACKFLOW PREVENTER ENCLOSURE - "Febco-master series" (front door - opening)

MasterSeries® 880V

Reduced Pressure Zone Assemblies

Size: 2 1/2" - 10" (65mm - 250mm)

The FEBCO MasterSeries® 880V Reduced Pressure Zone Assemblies are designed for use in health hazard applications. Standard orientation is inlet flow vertical up, outlet flow vertical down. Vertical orientation is inlet and outlet flow vertical up.

Pressure – Temperature

Temperature Range: 32°F to 140°F (0°C to 60°C)
 Max. Working Pressure: 175psi (12.1 bar)
 Hydrostatic Test Press: 350psi (24.1 bar)

Materials

Main Valve Body: Ductile iron Grade 65-45-12
 Coating: Fusion epoxy coated internal and external
 AWWA C550
 Shutoff Valves: NRS and OS&Y resilient wedge gate valves AWWA C509
 Trim: Bronze
 Elastomer Discs: EPDM
 Springs: Stainless steel

Approvals – Standards

- ANSI/AWWA (C511)
- Approved by the Foundation for Cross-Connection Control and Hydraulic Research at the University of Southern California.

* Less gate not FM approved. Less gate not UL Classified unless installed with UL Listed gate valves.

Models

Valve Setter with MJ x MJ, MJ x FL, or FL x FL ends
 UL/FM OS&Y RW Gate Valves
 Relief Valve Air Gap Drain Funnel
 Wye Strainer
 End Connections: Flanged ANSI B16.1
 Class 125

IMPORTANT: INQUIRE WITH GOVERNING AUTHORITIES FOR LOCAL INSTALLATION REQUIREMENTS

Weights do not include risers or optional valve setter.

Note: Dimensions shown are nominal. Allowances must be made for normal manufacturing tolerances.

Refer to Specification Sheet ES-F-611 for details on valve setter.

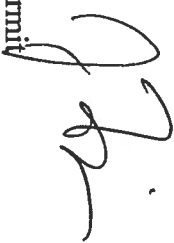

MEMORANDUM

Date: July 25, 2012

To: San Francisco DPW

From: Jim Fain, PE, Carlile • Macy

Subject: Surface Mounted Facility Permit

The following memo is intended as verification for the following:

1. Attempts to locate facility on private property
2. Attempts to locate it underground
3. Verification of special requirements for location
4. Verification of placement guidelines

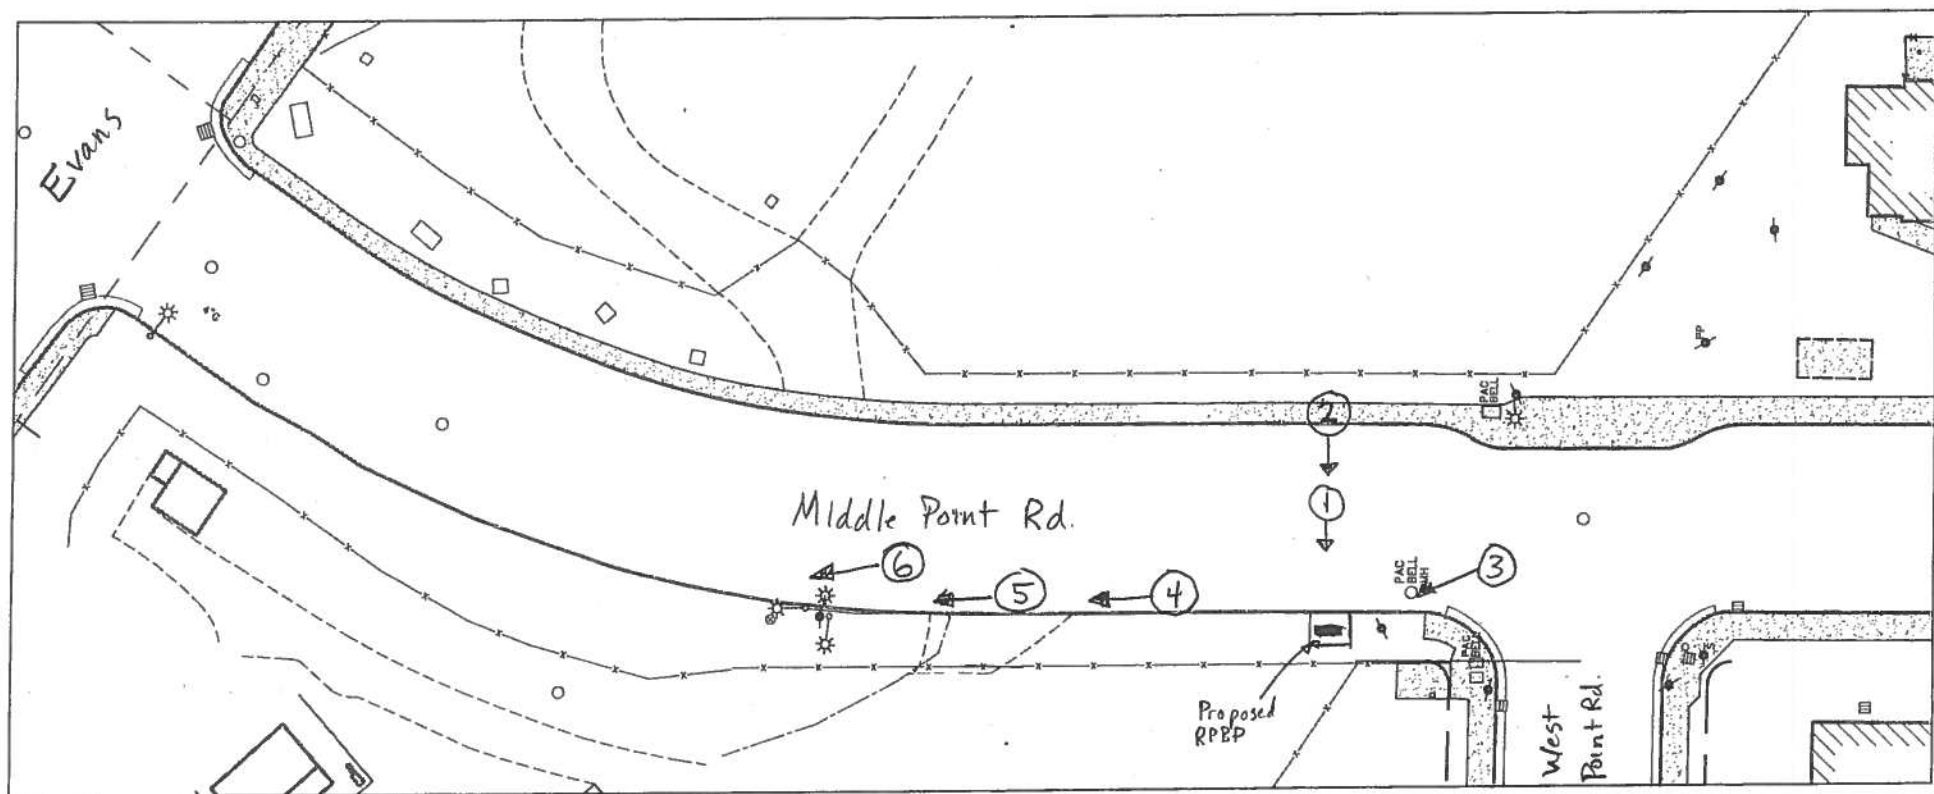

The proposed facility is a reduced pressure backflow preventer (RPPCP), which will be a San Francisco Water Department maintained facility. The facility will serve as a tie-in to the reclaimed water system being located on a 150' stretch of Middle Point. Therefore, the facility must be located on Middle Point. The proposed location for the RPPCP currently has no sidewalk on the west side of Middle Point Road due to the steep, rocky hillside adjacent to the street, and precludes any future extension of the sidewalk. Therefore, there are no conflicts related to accessibility and other uses. See the attached pictures.

1. The SFWD requires the facility to be adjacent to the street for accessibility and the adjacent landowner, PG&E, will not allow its location on their property. Therefore, it will be required to be located in the right-of-way.
2. Per SFWD, the facility cannot be placed underground, per Ron Yee of SFWD, (415) 990-3919.
3. Special requirement can be confirmed with Ron Yee of SFWD, (415) 990-3919.
4. The facility meets the requirements of the placement guidelines. See the detailed exhibit showing its location, dimensions, and setbacks.

OFFICIAL NOTICE—DO NOT REMOVE DPW ORDER 175,566

IMPORTANT NOTICE CONCERNING YOUR RIGHTS

Date: September 10, 2012

Dear San Francisco Resident:

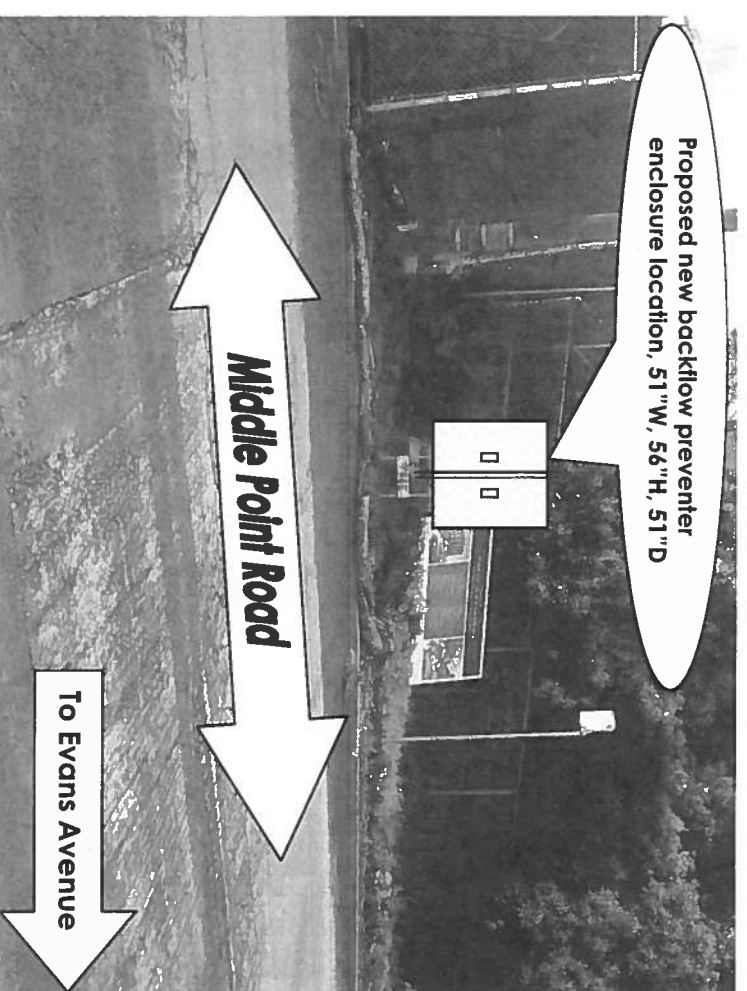

John Stewart Company on behalf of Hunters View Phase 1 is filing an application with the San Francisco Department of Public Works (DPW) for a permit to install a reduced pressure backflow preventer and enclosure on the west side of Middle Point Road north of the West Point Road intersection. A photograph of the Surface Mounted Facilities (SMF) in the proposed location and the specifications for the SMF are shown below.

The enclosure will help provide water to the reclaimed water system in Middle Point Road for future reused water within Hunters View Redevelopment.

Objection to the installation of the SMF at the proposed location must be submitted in writing via e-mail to smf@sfdpw.org, by mail to the **Department of Public Works, Bureau of Street-Use and Mapping, 875 Stevenson Street, Room 460, San Francisco, California 94103-0942** or by fax to **(415) 554-6161**. You have 20 days from the date of this notice to send written notice of your objection to DPW. DPW will not consider any objection unless it is made within this 20-day period.

If you submit an objection, DPW may convene a hearing to determine whether the permit for placement of the SMF should be issued. DPW will commence any such hearing within 40 days after the receipt of any objections. You will have the opportunity to express your concerns about the SMF at the hearing should you choose to attend.

The new cabinet is 51 inches wide, 56 inches tall and 51 inches deep.

Last date to file an objection: **September 30, 2012**

Block: Lot: Zip:

Pursuant to Article 2.4 of the Public Works Code in conjunction to DPW Order 178,940 permission, revocable at the will of the Director of Public Works, to excavate and restore the public right-of-way is granted to Permittee.

Bay Area Lightworks

Name: Bay Area Lightworks

Address: 1460 Yosemite Ave. San Francisco, CA 94124

Contact: Lindy Galimba

Phone: 415-822-2336

Conditions	Two (2) of the work locations included on this permit are under moratorium and these are: 1. intersection of Sunset Blvd. & Lawton St. (Moratorium ends on 4/18/2017); 2. Lawton St. between 36th Ave. to Sunset Blvd. (Moratorium ends on 4/18/2017). This permit is approved for sidewalk work only for these two locations. No work in the street for these locations will be allowed under this permit. Thus, approval for working in a moratorium street is not required. All street restoration shall be to the satisfaction of the City assigned inspector. (WARNING: Failure to comply with these conditions may render this permit void and may subject Bay Area Lightworks to a fine or citation for up to \$10,000.00 a day for excavating without a valid permit.)

STREET EXCAVATION REQUIREMENTS:

1. The permittee shall call Underground Service Alert (U.S.A.), telephone number 1-800-227-2600, 48 hours prior to any excavation.
2. All work including sidewalk and pavement cutting and removal, lagging, excavation, backfill, and sidewalk and pavement restoration shall be done by a licensed paving contractor and in accordance with the requirements of the Standard Specifications of the Bureau of Engineering, Department of Public Works, July 1986 Edition and Department of Public Works Order Nos. 176,707, copy attached.
3.
 - a. DPW Order 181,305, dated 6/17/13, Reinforced Concrete Bus pads, shall be constructed in accordance with SFPDW Standard Plan, File No. 96,607 and SFPDW Standard Specification Section 210 except that the concrete bus pad shall have a minimum compressive strength of 5,000 psi. Concrete bus pads shall be constructed at a minimum thickness of 10 to 12 inches and shall be approximately 10-foot wide.
 - b. DPW Order 181,306 dated 9/26/13, Reinforced concrete sidewalk, shall be constructed in accordance with the SFPDW Standard Plan File No. 96,608 and SFPDW Standard Specification Section 204 with #3 steel reinforced bars at mid-depth of the concrete sidewalk slab.
4. Sidewalk and pavement restoration shall include the replacement of traffic lane and crosswalk striping, parking stall markings, and curb painting that might have been obliterated during street excavation. The permittee shall perform their work under on the following options:
 - a. Have the City forces do the striping and painting work at the permittee's expense. The permittee shall make a deposit with the Department of Parking & Traffic for this purpose in an amount estimated by the Municipal Transportation Agency (MTA) 7th Floor 1 South Van Ness Ave telephone 701-4500, and notify the MTA at least 48 hours in advance of the time the work is to be done.
 - b. Perform the work themselves following instructions available at the Department of Parking & Traffic.
5. The permittee shall submit a non-refundable fee to Bureau of Street-Use and Mapping to pay for City Inspection of the backfill and pavement restoration. At least 48 hours in advance, the permittee shall make arrangements with the Street Improvement Section Inspectors, 554-7149, for an inspection schedule.
6. The permittee shall file and maintain an excavation bond in the sum of \$25,000.00 with the Department of Public Works, to guarantee the maintenance of the pavement in the excavation area for a period of 3 years following the completion of the backfill and pavement restoration pursuant to Article 2.4.40 of the Public Works Code.
7. The permittee shall conduct construction operations in accordance with the requirements of Article 11 of the Traffic Code. The permittee shall contact the MTA 7th Floor 1 South Van Ness Ave telephone 701-4500, for specific restrictions before starting work.
8. The permittee shall obtain the required permits, if any, from regulating agencies of the State of California.
9. The permittee shall verify the locations of any City or public service utility company facilities that may be affected by the work authorized by this permit and shall assume all responsibility for any damage to such facilities. The permittee shall make satisfactory arrangements and payments for any necessary temporary relocation of City or public utility company facilities.
10. The permittee shall pay the required fee for sewer installation permit at the Plumbing Inspection Division, Department of Building Inspection, 1660 Mission Street and arrange for inspection of this work, telephone 558-6054.
11. Concrete form work, planting of trees and pouring of sidewalk and/or curb shall not be performed prior to obtaining a permit from Bureau of Urban Forestry (BUF), telephone: 554-6700.
12. Per DPW Order 178,806, the recycling of Cobble Stones and Granit Curb shall follow as:
 - a. Cobblestones shall be clean of dirt prior to transporting. Extreme care shall be taken during the transporting the cobblestones to minimize damage before delivery to City. The cobblestones shall be neatly and securely placed on pallets so they can be moved about safely after the delivery. The Minimum size of cobblestone shall be 4 inches square (16 square inches). The cobblestones shall be delivered, including off loading, to the lower lot at the Cesar Chavez Street Yard located at 2323 Cesar Chavez Street or at alternative location directed by the Department within the City of San Francisco. Contact the Department forty-eight hours (48 hours) prior to delivery. The Department can be reached at (415) 641-2627.
 - b. Granite Curb shall be neatly and securely placed on pallets so they can be moved about safely after delivery. The Contractor shall exercise care in transporting the granite curb to minimize damage. The length limit of recyclable granite curbs shall be no less than four feet. The granite curb shall be delivered, including off loading, to the back lot at the Griffith Pump Station located at 1105 Thomas Street or at an alternative location directed by the Department within the City of San Francisco. Contact Bureau of Street and Sewer Repair (BSSR) at least forty-eight hours (48 hours) prior to delivery. BSSR can be reached at (415) 695-2087.
13. In consideration of this Permit being issued for the work described in the application, Permittee on its behalf and that of any successor or assign, and on behalf of any lessee, promises and agrees to perform all the terms of this Permit and to comply with all applicable laws, ordinances and regulations.
14. Permittee agrees on its behalf and that of any successor or assign to hold harmless, defend, and indemnify the City and County of San Francisco, including, without limitation, each of its commissions, departments, officers, agents and employees (hereinafter collectively referred to as the "City") from and against any and all losses, liabilities, expenses, claims, demands, injuries, damages, fines, penalties, costs or judgments including, without limitation, attorneys' fees and costs (collectively, "claims") of any kind allegedly arising directly or indirectly from (i) any act by, omission by, or negligence of, Permittee or its subcontractors, or the officers, agents, or employees of either, while engaged in the performance of the work authorized by this Permit, or while in or about the property subject to this Permit for any reason connected in any way whatsoever with the performance of the work authorized by this Permit, or allegedly resulting directly or indirectly from the maintenance or installation of any equipment, facilities or structures authorized under this Permit, (ii) any accident or injury to any contractor or subcontractor, or any officer, agent, or employee of either of them, while engaged in the performance of the work authorized by this Permit, or while in or about the property, for any reason connected with the performance of the work authorized by this Permit, or arising from liens or claims for services rendered or labor or materials furnished in or for the performance of the work authorized by this Permit, (iii) injuries or damages to real or personal property, good will, and persons in, upon or in any way allegedly connected with the work authorized by this Permit from any cause or claims arising at any time, and (iv) any release or discharge, or threatened release or discharge, of any hazardous material caused or allowed by Permittee in, under, on or about the property subject to this Permit or into the environment. As used herein, "hazardous material" means any substance, waste or material which, because of its quantity, concentration of physical or chemical characteristics is deemed by any federal, state, or local governmental authority to pose a present or potential hazard to human health or safety or to the environment.
15. Permittee must hold harmless, indemnify and defend the City regardless of the alleged negligence of the City or any other party, except only for claims resulting directly from the sole negligence or willful misconduct of the City. Permittee specifically acknowledges and agrees that it has an immediate and independent obligation to defend the City from any claim which actually or potentially falls within this indemnity provision, even if the allegations are or may be groundless, false or fraudulent, which obligation arises at the time such claim is tendered to Permittee by the City and continues at all times thereafter. Permittee agrees that the indemnification obligations assumed under this Permit shall survive expiration of the Permit or completion of work.
16. Permittee shall obtain and maintain through the terms of this Permit general liability, automobile liability or workers' compensation insurance as the City deems necessary to protect the City against claims for damages for personal injury, accidental death and property damage allegedly arising from any work done under this Permit. Such insurance shall in no way limit Permittee's indemnity hereunder. Certificates of insurance, in form and with insurers satisfactory to the City, evidencing all coverages above shall be furnished to the City before commencing any operations under this Permit, with complete copies of policies furnished promptly upon City request.
17. The permittee and any permitted successor or assign recognize and understand that this permit may create a possessory interest.

Special Conditions

13EXC-0286

Conditions

====>NOTES: Per the Public Works Excavation Code:

- 1). ' T ' trench shall be the standard restoration practice for all trenches greater than 18 inches in width. The restoration of the concrete base and pavement will be equal to 1 ft. as measured from the edge of the trench;
- 2). the minimum pavement restoration requirements (mill and fill) for trenches exceeding 25% of the length of the block shall include the restoration of all affected lanes for the entire length of the block. For streets that are not delineated by painted lanes and the width of the excavation is less than thirteen (13) feet, the pavement restoration requirements (mill and fill) shall be for the entire length of the block thirteen (13) feet in width;
- 3). for excavation in the intersection, the restoration shall be to pave all affected quadrants either with the 13 foot rule for streets without delineated traffic lanes unless it is on a Muni route and for streets with multiple delineated traffic lanes in one direction, the restoration shall be limited to the affected lane(s).

====>Per DPW sign specifications, all projects impacting the length of one (1) block face or more will require the installation of a project information sign, for the duration of the project. The project information sign should be located at either end of the project facing oncoming vehicular traffic. For larger projects that exceed five (5) blocks, the project information sign should be placed at five (5) block intervals in both directions. The signage is intended to keep the public informed of the intent of the project, project schedule, contact information and allow for updates as needed.

====>If concrete street, gutter or parking strip is excavated, Bay Area Lightworks shall remove and replace the entire concrete section from construction joint to construction joint. (No new construction joint will be allowed).

====>When drilling/excavating in the sidewalk area, entire sidewalk flag(s) must be replaced to adjacent score lines.

====>Placement or installation of any utility facilities within the curb return area is prohibited per DPW Order No. 175,387.

====>The Department of Public Works approves this permit pursuant to the following special conditions, which the Department of Public Works incorporates into the permit and makes a part thereof.

SPECIAL PERMIT CONDITIONS:

1. Bay Area Lightworks shall coordinate all work with any other construction projects and events known or unforeseen such as to minimize the impact of construction project on the general public and/or event(s).
2. Bay Area Lightworks shall comply with Code Section 2.4.50(a), post and maintain notice(s) at the site of the excavation 72 hours prior to start of construction.
3. Bay Area Lightworks shall comply with Code Section 2.4.55(b)(i), such that each excavation will be backfilled and compacted within 120 hours from the time the construction related to the excavation is completed, and immediately place and maintain temporary pavement (cutback) over the excavation(s).
4. Bay Area Lightworks' work shall be in accordance to all traffic regulations per S.F. Traffic Code (The Blue Book) or with any DPT approved traffic routing plan or DPT special traffic permit.
5. Bay Area Lightworks shall provide safe access for all pedestrians at all times. Special attention must be paid to provide ingress and egress to businesses and driveways.
6. Bay Area Lightworks shall coordinate all work with MUNI so as to avoid disruption to MUNI services. Please call Carlos Carrillo of Muni at #567-8745 to coordinate the schedule of work.
7. Bay Area Lightworks shall discuss and coordinate with Muni with regards to relocating bus stops if necessary for pedestrian safety. Please call Carlos Carrillo of Muni at #567-8745 for coordination.
8. Bay Area Lightworks shall hire SF police officers (when necessary) to control traffic so as to minimize the impact of the construction on the general public.
9. Bay Area Lightworks shall cooperate and participate in all public outreach and information including community meetings.
10. Bay Area Lightworks shall replace any existing traffic stripings and markings that are removed or damaged by the work activity with temporary stripings and markings after the restoration of the pavement as specified on the revised Section 6.2 'Pavement Markings' of DPT's 'Blue Book'. Also, Bay Area Lightworks shall pay to DPT the cost of replacing the permanent pavement markings. For any questions, please call Conrad Magat of DPT at (415) 701-4680.
11. Bay Area Lightworks shall restore all trenches per the Excavation Code and shall be to the satisfaction of the assigned city inspector.
12. Bay Area Lightworks shall construct curb ramps per DPW Standard Curb Ramp Drawing Nos. CR-1 and CR-3, Revision 3 and Drawing Nos. CR-2, CR-4 thru CR-6, Revision 0 on any curb return/angular corner where excavation occurs. All curb ramp installation shall comply with ADA requirements.
13. Bay Area Lightworks shall remove all temporary pavement markings including USA marking on both the sidewalk and street at the conclusion of the excavation.
14. Bay Area Lightworks shall submit compaction test results done by a certified material testing laboratory as required by the excavation code prior to pavement restoration. [NOTE: Per Article 2.4 of the Public Works Code, the required compaction test shall be one (1) set of three (3) compaction tests per one (1) regular city block, or as specified by the DPW assigned inspector. Copies of the compaction test results shall be provided to the assigned DPW inspector.]

Failure to comply with the above requirements may render this permit void and may subject Bay Area Lightworks to a fine or citation.

MEMORANDUM

TO: Rene Lopez
Bureau of Street Use and Mapping
875 Stevenson Street, Room 460

FROM: 
Geraldine de Leon
Assistant Engineer

DATE: September 20, 2012

SUBJECT: Surface-Mounted Facility Submittal Package for Signal Controller Cabinet Installation at **Pacheco Street** between **36th Avenue** and **Sunset Boulevard** (near the intersection of Pacheco Street and Sunset Boulevard)
(DPW Contract No. 1984J – Sunset Boulevard Pedestrian Countdown Signals Project)

Please find enclosed our submittal package for the proposed installation of a surface-mounted facility (signal controller cabinet) at **Pacheco Street** between **36th Avenue** and **Sunset Boulevard** (near the intersection of Pacheco Street and Sunset Boulevard). This intersection is included as part of Sunset Boulevard Pedestrian Countdown Signals Project and the construction is proposed to begin around January 2013.

Revisions have been made to the application package per your comments.

The required public notices will be posted after we receive your written approval regarding the proposed SMF location.

If you have any questions, I can be reached at 701-4675.

Attachments:

- Pre-Site Visit Checklist (Exhibit A of DPW Order No. 175,566)
- Copy of SFMTA's Five Year Plan
- Cabinet and Foundation Specifications
- Detailed Drawing of Proposed Controller Location
- Photographs of Proposed Controller Location
- Copy of Proposed Public Notice
- Copy of Curb Ramp Design Drawing

PLEASE START THE 20-DAY NOTIFICATION.

VERIFICATION STATEMENTS OF PRE-SITE VISIT CHECKLIST (EXHIBIT A)

1. STATEMENT REGARDING 5-YEAR PLAN

See attached copy of SFMTA's Five Year Plan.

2. STATEMENT REGARDING CABINET SIZE

Attached are the specifications for the traffic signal controller cabinet and foundation.

3. STATEMENT REGARDING ATTEMPTS TO PLACE SURFACE-MOUNTED FACILITY ON PRIVATE PROPERTY

Because of the purpose, function and special requirements of signal controllers, their placement is critical to public safety and is limited to the portion of sidewalk as close to the intersection as practical, such that the controller is curbside with a direct line of sight to as much of the intersection, signal indications and vehicle and pedestrian traffic as possible. For such reasons, signal controller cabinets cannot be placed on private property away from the roadway and they must be fully accessible at all times.

4. STATEMENT REGARDING ATTEMPTS TO PLACE SURFACE-MOUNTED FACILITY UNDERGROUND

Because of the purpose, function and special requirements of signal controllers, their placement is critical to public safety and is limited to the portion of sidewalk as close to the intersection as practical, such that the controller is curbside with a direct line of sight to as much of the intersection, signal indications and vehicle and pedestrian traffic as possible. For such reasons, signal controller cabinets cannot be placed underground where a direct line of sight is not available.

5. STATEMENT REGARDING ATTEMPTS TO COLLOCATE THE SURFACE-MOUNTED FACILITY

There are no other surface-mounted facilities at this intersection that the controller can be collocated with.

6. STATEMENT REGARDING SPECIAL REQUIREMENTS THAT LIMIT THE POSSIBLE LOCATIONS FOR THE SURFACE-MOUNTED FACILITY

Because of the purpose, function and special requirements of signal controllers, their placement is critical to public safety and is limited to the portion of sidewalk as close to the intersection as practical, such that the controller is curbside with a direct line of sight to as much of the intersection, signal indications and vehicle and pedestrian

traffic as possible. For such reasons, signal controller cabinets cannot be placed underground or on private property away from the roadway.

7. STATEMENT REGARDING CONFORMANCE TO PLACEMENT GUIDELINES

The suggested location for the proposed facility is in accordance with DPW's surface-mounted facility placement guidelines, Exhibit B of DPW Order No. 175,566.

8. STATEMENT REGARDING REMOVAL OF EXISTING SURFACE-MOUNTED FACILITY

The old controller cabinet and foundation will be removed after activation of the new controller.

IMPORTANT NOTICE CONCERNING YOUR RIGHTS

September 20, 2012

Dear San Francisco Resident:

The San Francisco Municipal Transportation Agency (SFMTA) has filed an application with the San Francisco Department of Public Works (DPW) for a permit to install a traffic signal controller cabinet at the southeast corner of **Pacheco Street** and **Sunset Boulevard**. A photograph of the Surface Mounted Facility (SMF) and the specifications for the SMF are shown below.

SFMTA will be modifying the existing traffic signals at Pacheco Street and Sunset Boulevard to relocate the existing signal controller cabinet at this intersection from the northeast corner to the southeast corner. The new cabinet will house the signal controller and other equipment that will control and monitor the proper functioning of the traffic signals. The old traffic controller cabinet will be removed after activation of the new cabinet. The proposed SMF location is the optimal location for the placement of the controller cabinet from a traffic safety standpoint. A direct line of sight from the cabinet to the intersection, signal indications and vehicle and pedestrian traffic is essential.

Objection to the installation of the SMF at any of the proposed locations must be submitted in writing via e-mail to smf@sfdpw.org, by mail to the **Department of Public Works, Bureau of Street-Use and Mapping, 875 Stevenson Street, Room 460, San Francisco, California 94103-0942** or by fax to **(415) 554-6161**. You have 20 days from the date of this notice to send written notice of your objection to DPW. DPW will not consider any objection unless it is made within this 20-day period.

If you submit an objection, DPW may convene a hearing to determine whether the permit for placement of the SMF should be issued. DPW will commence any such hearing within 40 days after the receipt of any objections. You will have the opportunity to express your concerns about the SMF at the hearing should you choose to attend.

Thank you,

Geraldine de Leon

Pursuant to Article 2.4 of the Public Works Code in conjunction to DPW Order 178,940 permission, revocable at the will of the Director of Public Works, to excavate and restore the public right-of-way is granted to Permittee.

Bay Area Lightworks

Name: Bay Area Lightworks

Address: 1460 Yosemite Ave. San Francisco, CA 94124

Contact: Lindy Galimba

Phone: 415-822-2336

Conditions	Two (2) of the work locations included on this permit are under moratorium and these are: 1. intersection of Sunset Blvd. & Lawton St. (Moratorium ends on 4/18/2017); 2. Lawton St. between 36th Ave. to Sunset Blvd. (Moratorium ends on 4/18/2017). This permit is approved for sidewalk work only for these two locations. No work in the street for these locations will be allowed under this permit. Thus, approval for working in a moratorium street is not required. All street restoration shall be to the satisfaction of the City assigned inspector. (WARNING: Failure to comply with these conditions may render this permit void and may subject Bay Area Lightworks to a fine or citation for up to \$10,000.00 a day for excavating without a valid permit.)

STREET EXCAVATION REQUIREMENTS:

1. The permittee shall call Underground Service Alert (U.S.A.), telephone number 1-800-227-2600, 48 hours prior to any excavation.
2. All work including sidewalk and pavement cutting and removal, lagging, excavation, backfill, and sidewalk and pavement restoration shall be done by a licensed paving contractor and in accordance with the requirements of the Standard Specifications of the Bureau of Engineering, Department of Public Works, July 1986 Edition and Department of Public Works Order Nos. 176,707, copy attached.
3.
 - a. DPW Order 181,305, dated 6/17/13, Reinforced Concrete Bus pads, shall be constructed in accordance with SFPDW Standard Plan, File No. 96,607 and SFPDW Standard Specification Section 210 except that the concrete bus pad shall have a minimum compressive strength of 5,000 psi. Concrete bus pads shall be constructed at a minimum thickness of 10 to 12 inches and shall be approximately 10-foot wide.
 - b. DPW Order 181,306 dated 9/26/13, Reinforced concrete sidewalk, shall be constructed in accordance with the SFPDW Standard Plan File No. 96,608 and SFPDW Standard Specification Section 204 with #3 steel reinforced bars at mid-depth of the concrete sidewalk slab.
4. Sidewalk and pavement restoration shall include the replacement of traffic lane and crosswalk striping, parking stall markings, and curb painting that might have been obliterated during street excavation. The permittee shall perform their work under on the following options:
 - a. Have the City forces do the striping and painting work at the permittee's expense. The permittee shall make a deposit with the Department of Parking & Traffic for this purpose in an amount estimated by the Municipal Transportation Agency (MTA) 7th Floor 1 South Van Ness Ave telephone 701-4500, and notify the MTA at least 48 hours in advance of the time the work is to be done.
 - b. Perform the work themselves following instructions available at the Department of Parking & Traffic.
5. The permittee shall submit a non-refundable fee to Bureau of Street-Use and Mapping to pay for City Inspection of the backfill and pavement restoration. At least 48 hours in advance, the permittee shall make arrangements with the Street Improvement Section Inspectors, 554-7149, for an inspection schedule.
6. The permittee shall file and maintain an excavation bond in the sum of \$25,000.00 with the Department of Public Works, to guarantee the maintenance of the pavement in the excavation area for a period of 3 years following the completion of the backfill and pavement restoration pursuant to Article 2.4.40 of the Public Works Code.
7. The permittee shall conduct construction operations in accordance with the requirements of Article 11 of the Traffic Code. The permittee shall contact the MTA 7th Floor 1 South Van Ness Ave telephone 701-4500, for specific restrictions before starting work.
8. The permittee shall obtain the required permits, if any, from regulating agencies of the State of California.
9. The permittee shall verify the locations of any City or public service utility company facilities that may be affected by the work authorized by this permit and shall assume all responsibility for any damage to such facilities. The permittee shall make satisfactory arrangements and payments for any necessary temporary relocation of City or public utility company facilities.
10. The permittee shall pay the required fee for sewer installation permit at the Plumbing Inspection Division, Department of Building Inspection, 1660 Mission Street and arrange for inspection of this work, telephone 558-6054.
11. Concrete form work, planting of trees and pouring of sidewalk and/or curb shall not be performed prior to obtaining a permit from Bureau of Urban Forestry (BUF), telephone: 554-6700.
12. Per DPW Order 178,806, the recycling of Cobble Stones and Granit Curb shall follow as:
 - a. Cobblestones shall be clean of dirt prior to transporting. Extreme care shall be taken during the transporting the cobblestones to minimize damage before delivery to City. The cobblestones shall be neatly and securely placed on pallets so they can be moved about safely after the delivery. The Minimum size of cobblestone shall be 4 inches square (16 square inches). The cobblestones shall be delivered, including off loading, to the lower lot at the Cesar Chavez Street Yard located at 2323 Cesar Chavez Street or at alternative location directed by the Department within the City of San Francisco. Contact the Department forty-eight hours (48 hours) prior to delivery. The Department can be reached at (415) 641-2627.
 - b. Granite Curb shall be neatly and securely placed on pallets so they can be moved about safely after delivery. The Contractor shall exercise care in transporting the granite curb to minimize damage. The length limit of recyclable granite curbs shall be no less than four feet. The granite curb shall be delivered, including off loading, to the back lot at the Griffith Pump Station located at 1105 Thomas Street or at an alternative location directed by the Department within the City of San Francisco. Contact Bureau of Street and Sewer Repair (BSSR) at least forty-eight hours (48 hours) prior to delivery. BSSR can be reached at (415) 695-2087.
13. In consideration of this Permit being issued for the work described in the application, Permittee on its behalf and that of any successor or assign, and on behalf of any lessee, promises and agrees to perform all the terms of this Permit and to comply with all applicable laws, ordinances and regulations.
14. Permittee agrees on its behalf and that of any successor or assign to hold harmless, defend, and indemnify the City and County of San Francisco, including, without limitation, each of its commissions, departments, officers, agents and employees (hereinafter collectively referred to as the "City") from and against any and all losses, liabilities, expenses, claims, demands, injuries, damages, fines, penalties, costs or judgments including, without limitation, attorneys' fees and costs (collectively, "claims") of any kind allegedly arising directly or indirectly from (i) any act by, omission by, or negligence of, Permittee or its subcontractors, or the officers, agents, or employees of either, while engaged in the performance of the work authorized by this Permit, or while in or about the property subject to this Permit for any reason connected in any way whatsoever with the performance of the work authorized by this Permit, or allegedly resulting directly or indirectly from the maintenance or installation of any equipment, facilities or structures authorized under this Permit, (ii) any accident or injury to any contractor or subcontractor, or any officer, agent, or employee of either of them, while engaged in the performance of the work authorized by this Permit, or while in or about the property, for any reason connected with the performance of the work authorized by this Permit, or arising from liens or claims for services rendered or labor or materials furnished in or for the performance of the work authorized by this Permit, (iii) injuries or damages to real or personal property, good will, and persons in, upon or in any way allegedly connected with the work authorized by this Permit from any cause or claims arising at any time, and (iv) any release or discharge, or threatened release or discharge, of any hazardous material caused or allowed by Permittee in, under, on or about the property subject to this Permit or into the environment. As used herein, "hazardous material" means any substance, waste or material which, because of its quantity, concentration of physical or chemical characteristics is deemed by any federal, state, or local governmental authority to pose a present or potential hazard to human health or safety or to the environment.
15. Permittee must hold harmless, indemnify and defend the City regardless of the alleged negligence of the City or any other party, except only for claims resulting directly from the sole negligence or willful misconduct of the City. Permittee specifically acknowledges and agrees that it has an immediate and independent obligation to defend the City from any claim which actually or potentially falls within this indemnity provision, even if the allegations are or may be groundless, false or fraudulent, which obligation arises at the time such claim is tendered to Permittee by the City and continues at all times thereafter. Permittee agrees that the indemnification obligations assumed under this Permit shall survive expiration of the Permit or completion of work.
16. Permittee shall obtain and maintain through the terms of this Permit general liability, automobile liability or workers' compensation insurance as the City deems necessary to protect the City against claims for damages for personal injury, accidental death and property damage allegedly arising from any work done under this Permit. Such insurance shall in no way limit Permittee's indemnity hereunder. Certificates of insurance, in form and with insurers satisfactory to the City, evidencing all coverages above shall be furnished to the City before commencing any operations under this Permit, with complete copies of policies furnished promptly upon City request.
17. The permittee and any permitted successor or assign recognize and understand that this permit may create a possessory interest.

Special Conditions

13EXC-0286

Conditions

====>NOTES: Per the Public Works Excavation Code:

- 1). ' T ' trench shall be the standard restoration practice for all trenches greater than 18 inches in width. The restoration of the concrete base and pavement will be equal to 1 ft. as measured from the edge of the trench;
- 2). the minimum pavement restoration requirements (mill and fill) for trenches exceeding 25% of the length of the block shall include the restoration of all affected lanes for the entire length of the block. For streets that are not delineated by painted lanes and the width of the excavation is less than thirteen (13) feet, the pavement restoration requirements (mill and fill) shall be for the entire length of the block thirteen (13) feet in width;
- 3). for excavation in the intersection, the restoration shall be to pave all affected quadrants either with the 13 foot rule for streets without delineated traffic lanes unless it is on a Muni route and for streets with multiple delineated traffic lanes in one direction, the restoration shall be limited to the affected lane(s).

====>Per DPW sign specifications, all projects impacting the length of one (1) block face or more will require the installation of a project information sign, for the duration of the project. The project information sign should be located at either end of the project facing oncoming vehicular traffic. For larger projects that exceed five (5) blocks, the project information sign should be placed at five (5) block intervals in both directions. The signage is intended to keep the public informed of the intent of the project, project schedule, contact information and allow for updates as needed.

====>If concrete street, gutter or parking strip is excavated, Bay Area Lightworks shall remove and replace the entire concrete section from construction joint to construction joint. (No new construction joint will be allowed).

====>When drilling/excavating in the sidewalk area, entire sidewalk flag(s) must be replaced to adjacent score lines.

====>Placement or installation of any utility facilities within the curb return area is prohibited per DPW Order No. 175,387.

====>The Department of Public Works approves this permit pursuant to the following special conditions, which the Department of Public Works incorporates into the permit and makes a part thereof.

SPECIAL PERMIT CONDITIONS:

1. Bay Area Lightworks shall coordinate all work with any other construction projects and events known or unforeseen such as to minimize the impact of construction project on the general public and/or event(s).
2. Bay Area Lightworks shall comply with Code Section 2.4.50(a), post and maintain notice(s) at the site of the excavation 72 hours prior to start of construction.
3. Bay Area Lightworks shall comply with Code Section 2.4.55(b)(i), such that each excavation will be backfilled and compacted within 120 hours from the time the construction related to the excavation is completed, and immediately place and maintain temporary pavement (cutback) over the excavation(s).
4. Bay Area Lightworks' work shall be in accordance to all traffic regulations per S.F. Traffic Code (The Blue Book) or with any DPT approved traffic routing plan or DPT special traffic permit.
5. Bay Area Lightworks shall provide safe access for all pedestrians at all times. Special attention must be paid to provide ingress and egress to businesses and driveways.
6. Bay Area Lightworks shall coordinate all work with MUNI so as to avoid disruption to MUNI services. Please call Carlos Carrillo of Muni at #567-8745 to coordinate the schedule of work.
7. Bay Area Lightworks shall discuss and coordinate with Muni with regards to relocating bus stops if necessary for pedestrian safety. Please call Carlos Carrillo of Muni at #567-8745 for coordination.
8. Bay Area Lightworks shall hire SF police officers (when necessary) to control traffic so as to minimize the impact of the construction on the general public.
9. Bay Area Lightworks shall cooperate and participate in all public outreach and information including community meetings.
10. Bay Area Lightworks shall replace any existing traffic stripings and markings that are removed or damaged by the work activity with temporary stripings and markings after the restoration of the pavement as specified on the revised Section 6.2 'Pavement Markings' of DPT's 'Blue Book'. Also, Bay Area Lightworks shall pay to DPT the cost of replacing the permanent pavement markings. For any questions, please call Conrad Magat of DPT at (415) 701-4680.
11. Bay Area Lightworks shall restore all trenches per the Excavation Code and shall be to the satisfaction of the assigned city inspector.
12. Bay Area Lightworks shall construct curb ramps per DPW Standard Curb Ramp Drawing Nos. CR-1 and CR-3, Revision 3 and Drawing Nos. CR-2, CR-4 thru CR-6, Revision 0 on any curb return/angular corner where excavation occurs. All curb ramp installation shall comply with ADA requirements.
13. Bay Area Lightworks shall remove all temporary pavement markings including USA marking on both the sidewalk and street at the conclusion of the excavation.
14. Bay Area Lightworks shall submit compaction test results done by a certified material testing laboratory as required by the excavation code prior to pavement restoration. [NOTE: Per Article 2.4 of the Public Works Code, the required compaction test shall be one (1) set of three (3) compaction tests per one (1) regular city block, or as specified by the DPW assigned inspector. Copies of the compaction test results shall be provided to the assigned DPW inspector.]

Failure to comply with the above requirements may render this permit void and may subject Bay Area Lightworks to a fine or citation.

MEMORANDUM

TO: Rene Lopez
Bureau of Street Use and Mapping
875 Stevenson Street, Room 460

FROM: *Geraldine de Leon*
Geraldine de Leon
Assistant Engineer

DATE: September 20, 2012

SUBJECT: Surface-Mounted Facility Submittal Package for Signal Controller Cabinet Installation at **Rivera Street** between **36th Avenue** and **Sunset Boulevard** (near the intersection of Rivera Street and Sunset Boulevard)
(DPW Contract No. 1984J – Sunset Boulevard Pedestrian Countdown Signals Project)

Please find enclosed our submittal package for the proposed installation of a surface-mounted facility (signal controller cabinet) at **Rivera Street** between **36th Avenue** and **Sunset Boulevard** (near the intersection of Rivera Street and Sunset Boulevard). This intersection is included as part of Sunset Boulevard Pedestrian Countdown Signals Project and the construction is proposed to begin around January 2013.

Revisions have been made to the application package per your comments.

The required public notices will be posted after we receive your written approval regarding the proposed SMF location.

If you have any questions, I can be reached at 701-4675.

PLEASE START THE 20-DAY NOTIFICATION.

VERIFICATION STATEMENTS OF PRE-SITE VISIT CHECKLIST (EXHIBIT A)

1. STATEMENT REGARDING 5-YEAR PLAN

See attached copy of SFMTA's Five Year Plan.

2. STATEMENT REGARDING CABINET SIZE

Attached are the specifications for the traffic signal controller cabinet and foundation.

3. STATEMENT REGARDING ATTEMPTS TO PLACE SURFACE-MOUNTED FACILITY ON PRIVATE PROPERTY

Because of the purpose, function and special requirements of signal controllers, their placement is critical to public safety and is limited to the portion of sidewalk as close to the intersection as practical, such that the controller is curbside with a direct line of sight to as much of the intersection, signal indications and vehicle and pedestrian traffic as possible. For such reasons, signal controller cabinets cannot be placed on private property away from the roadway and they must be fully accessible at all times.

4. STATEMENT REGARDING ATTEMPTS TO PLACE SURFACE-MOUNTED FACILITY UNDERGROUND

Because of the purpose, function and special requirements of signal controllers, their placement is critical to public safety and is limited to the portion of sidewalk as close to the intersection as practical, such that the controller is curbside with a direct line of sight to as much of the intersection, signal indications and vehicle and pedestrian traffic as possible. For such reasons, signal controller cabinets cannot be placed underground where a direct line of sight is not available.

5. STATEMENT REGARDING ATTEMPTS TO COLLOCATE THE SURFACE-MOUNTED FACILITY

There are no other surface-mounted facilities at this intersection that the controller can be collocated with.

6. STATEMENT REGARDING SPECIAL REQUIREMENTS THAT LIMIT THE POSSIBLE LOCATIONS FOR THE SURFACE-MOUNTED FACILITY

Because of the purpose, function and special requirements of signal controllers, their placement is critical to public safety and is limited to the portion of sidewalk as close to the intersection as practical, such that the controller is curbside with a direct line of sight to as much of the intersection, signal indications and vehicle and pedestrian

SMF Submittal Package
For Rivera Street between 36th Avenue and Sunset Boulevard
(near the intersection of Rivera Street and Sunset Boulevard
September 20, 2012

traffic as possible. For such reasons, signal controller cabinets cannot be placed underground or on private property away from the roadway.

7. STATEMENT REGARDING CONFORMANCE TO PLACEMENT GUIDELINES

The suggested location for the proposed facility is in accordance with DPW's surface-mounted facility placement guidelines, Exhibit B of DPW Order No. 175,566.

8. STATEMENT REGARDING REMOVAL OF EXISTING SURFACE-MOUNTED FACILITY

The old controller cabinet and foundation will be removed after activation of the new controller.

IMPORTANT NOTICE CONCERNING YOUR RIGHTS

September 20, 2012

Dear San Francisco Resident:

The San Francisco Municipal Transportation Agency (SFMTA) has filed an application with the San Francisco Department of Public Works (DPW) for a permit to install a traffic signal controller cabinet at the southeast corner of **Rivera Street** and **Sunset Boulevard**. A photograph of the Surface Mounted Facility (SMF) and the specifications for the SMF are shown below.

SFMTA will be modifying the existing traffic signals at Rivera Street and Sunset Boulevard to relocate the existing signal controller cabinet at this intersection from the northeast corner to the southeast corner. The new cabinet will house the signal controller and other equipment that will control and monitor the proper functioning of the traffic signals. The old traffic controller cabinet will be removed after activation of the new cabinet. The proposed SMF location is the optimal location for the placement of the controller cabinet from a traffic safety standpoint. A direct line of sight from the cabinet to the intersection, signal indications and vehicle and pedestrian traffic is essential.

Objection to the installation of the SMF at any of the proposed locations must be submitted in writing via e-mail to smf@sfdpw.org, by mail to the **Department of Public Works, Bureau of Street-Use and Mapping, 875 Stevenson Street, Room 460, San Francisco, California 94103-0942** or by fax to **(415) 554-6161**. You have 20 days from the date of this notice to send written notice of your objection to DPW. DPW will not consider any objection unless it is made within this 20-day period.

If you submit an objection, DPW may convene a hearing to determine whether the permit for placement of the SMF should be issued. DPW will commence any such hearing within 40 days after the receipt of any objections. You will have the opportunity to express your concerns about the SMF at the hearing should you choose to attend.

Thank you,

Geraldine de Leon

Phone: 415-822-2336

Conditions	Two (2) of the work locations included on this permit are under moratorium and these are: 1. intersection of Sunset Blvd. & Lawton St. (Moratorium ends on 4/18/2017); 2. Lawton St. between 36th Ave. to Sunset Blvd. (Moratorium ends on 4/18/2017). This permit is approved for sidewalk work only for these two locations. No work in the street for these locations will be allowed under this permit. Thus, approval for working in a moratorium street is not required. All street restoration shall be to the satisfaction of the City assigned inspector. (WARNING: Failure to comply with these conditions may render this permit void and may subject Bay Area Lightworks to a fine or citation for up to \$10,000.00 a day for excavating without a valid permit.)
EmergencyConfirmationNumber	
24 Hour / 7 Day Contact:	Jim Lau 415-806-8166
Service Address/Project:	Sunset Blvd. Pedestrian Countdown Signals (Contract No. 1984J)
Start Date	02/11/2013
Permit expires on:	5/17/2013
Purpose	Curb Ramp
Purpose	Electric
Purpose	Traffic Signal
Excavation Reason	Place Conduit
Excavation Reason Description	Install new curb ramps and electrical conduit for the pedestrian countdown signals and relocate/install traffic signal controller cabinets
Method:	Open Cut: Sawcut
TrackingNumber1	
TrackingNumber2	
Project Size	10160
Inspection	

The undersigned Permittee hereby agrees to comply with all requirements and conditions noted on this permit

Approved Date : 02/07/2013

STREET EXCAVATION REQUIREMENTS:

1. The permittee shall call Underground Service Alert (U.S.A.), telephone number 1-800-227-2600, 48 hours prior to any excavation.
2. All work including sidewalk and pavement cutting and removal, lagging, excavation, backfill, and sidewalk and pavement restoration shall be done by a licensed paving contractor and in accordance with the requirements of the Standard Specifications of the Bureau of Engineering, Department of Public Works, July 1986 Edition and Department of Public Works Order Nos. 176,707, copy attached.
3.
 - a. DPW Order 181,305, dated 6/17/13, Reinforced Concrete Bus pads, shall be constructed in accordance with SFPDW Standard Plan, File No. 96,607 and SFPDW Standard Specification Section 210 except that the concrete bus pad shall have a minimum compressive strength of 5,000 psi. Concrete bus pads shall be constructed at a minimum thickness of 10 to 12 inches and shall be approximately 10-foot wide.
 - b. DPW Order 181,306 dated 9/26/13, Reinforced concrete sidewalk, shall be constructed in accordance with the SFPDW Standard Plan File No. 96,608 and SFPDW Standard Specification Section 204 with #3 steel reinforced bars at mid-depth of the concrete sidewalk slab.
4. Sidewalk and pavement restoration shall include the replacement of traffic lane and crosswalk striping, parking stall markings, and curb painting that might have been obliterated during street excavation. The permittee shall perform their work under on the following options:
 - a. Have the City forces do the striping and painting work at the permittee's expense. The permittee shall make a deposit with the Department of Parking & Traffic for this purpose in an amount estimated by the Municipal Transportation Agency (MTA) 7th Floor 1 South Van Ness Ave telephone 701-4500, and notify the MTA at least 48 hours in advance of the time the work is to be done.
 - b. Perform the work themselves following instructions available at the Department of Parking & Traffic.
5. The permittee shall submit a non-refundable fee to Bureau of Street-Use and Mapping to pay for City Inspection of the backfill and pavement restoration. At least 48 hours in advance, the permittee shall make arrangements with the Street Improvement Section Inspectors, 554-7149, for an inspection schedule.
6. The permittee shall file and maintain an excavation bond in the sum of \$25,000.00 with the Department of Public Works, to guarantee the maintenance of the pavement in the excavation area for a period of 3 years following the completion of the backfill and pavement restoration pursuant to Article 2.4.40 of the Public Works Code.
7. The permittee shall conduct construction operations in accordance with the requirements of Article 11 of the Traffic Code. The permittee shall contact the MTA 7th Floor 1 South Van Ness Ave telephone 701-4500, for specific restrictions before starting work.
8. The permittee shall obtain the required permits, if any, from regulating agencies of the State of California.
9. The permittee shall verify the locations of any City or public service utility company facilities that may be affected by the work authorized by this permit and shall assume all responsibility for any damage to such facilities. The permittee shall make satisfactory arrangements and payments for any necessary temporary relocation of City or public utility company facilities.
10. The permittee shall pay the required fee for sewer installation permit at the Plumbing Inspection Division, Department of Building Inspection, 1660 Mission Street and arrange for inspection of this work, telephone 558-6054.
11. Concrete form work, planting of trees and pouring of sidewalk and/or curb shall not be performed prior to obtaining a permit from Bureau of Urban Forestry (BUF), telephone: 554-6700.
12. Per DPW Order 178,806, the recycling of Cobble Stones and Granit Curb shall follow as:
 - a. Cobblestones shall be clean of dirt prior to transporting. Extreme care shall be taken during the transporting the cobblestones to minimize damage before delivery to City. The cobblestones shall be neatly and securely placed on pallets so they can be moved about safely after the delivery. The Minimum size of cobblestone shall be 4 inches square (16 square inches). The cobblestones shall be delivered, including off loading, to the lower lot at the Cesar Chavez Street Yard located at 2323 Cesar Chavez Street or at alternative location directed by the Department within the City of San Francisco. Contact the Department forty-eight hours (48 hours) prior to delivery. The Department can be reached at (415) 641-2627.
 - b. Granite Curb shall be neatly and securely placed on pallets so they can be moved about safely after delivery. The Contractor shall exercise care in transporting the granite curb to minimize damage. The length limit of recyclable granite curbs shall be no less than four feet. The granite curb shall be delivered, including off loading, to the back lot at the Griffith Pump Station located at 1105 Thomas Street or at an alternative location directed by the Department within the City of San Francisco. Contact Bureau of Street and Sewer Repair (BSSR) at least forty-eight hours (48 hours) prior to delivery. BSSR can be reached at (415) 695-2087.
13. In consideration of this Permit being issued for the work described in the application, Permittee on its behalf and that of any successor or assign, and on behalf of any lessee, promises and agrees to perform all the terms of this Permit and to comply with all applicable laws, ordinances and regulations.
14. Permittee agrees on its behalf and that of any successor or assign to hold harmless, defend, and indemnify the City and County of San Francisco, including, without limitation, each of its commissions, departments, officers, agents and employees (hereinafter collectively referred to as the "City") from and against any and all losses, liabilities, expenses, claims, demands, injuries, damages, fines, penalties, costs or judgments including, without limitation, attorneys' fees and costs (collectively, "claims") of any kind allegedly arising directly or indirectly from (i) any act by, omission by, or negligence of, Permittee or its subcontractors, or the officers, agents, or employees of either, while engaged in the performance of the work authorized by this Permit, or while in or about the property subject to this Permit for any reason connected in any way whatsoever with the performance of the work authorized by this Permit, or allegedly resulting directly or indirectly from the maintenance or installation of any equipment, facilities or structures authorized under this Permit, (ii) any accident or injury to any contractor or subcontractor, or any officer, agent, or employee of either of them, while engaged in the performance of the work authorized by this Permit, or while in or about the property, for any reason connected with the performance of the work authorized by this Permit, or arising from liens or claims for services rendered or labor or materials furnished in or for the performance of the work authorized by this Permit, (iii) injuries or damages to real or personal property, good will, and persons in, upon or in any way allegedly connected with the work authorized by this Permit from any cause or claims arising at any time, and (iv) any release or discharge, or threatened release or discharge, of any hazardous material caused or allowed by Permittee in, under, on or about the property subject to this Permit or into the environment. As used herein, "hazardous material" means any substance, waste or material which, because of its quantity, concentration of physical or chemical characteristics is deemed by any federal, state, or local governmental authority to pose a present or potential hazard to human health or safety or to the environment.
15. Permittee must hold harmless, indemnify and defend the City regardless of the alleged negligence of the City or any other party, except only for claims resulting directly from the sole negligence or willful misconduct of the City. Permittee specifically acknowledges and agrees that it has an immediate and independent obligation to defend the City from any claim which actually or potentially falls within this indemnity provision, even if the allegations are or may be groundless, false or fraudulent, which obligation arises at the time such claim is tendered to Permittee by the City and continues at all times thereafter. Permittee agrees that the indemnification obligations assumed under this Permit shall survive expiration of the Permit or completion of work.
16. Permittee shall obtain and maintain through the terms of this Permit general liability, automobile liability or workers' compensation insurance as the City deems necessary to protect the City against claims for damages for personal injury, accidental death and property damage allegedly arising from any work done under this Permit. Such insurance shall in no way limit Permittee's indemnity hereunder. Certificates of insurance, in form and with insurers satisfactory to the City, evidencing all coverages above shall be furnished to the City before commencing any operations under this Permit, with complete copies of policies furnished promptly upon City request.
17. The permittee and any permitted successor or assign recognize and understand that this permit may create a possessory interest.

Special Conditions

13EXC-0286

Conditions

====>NOTES: Per the Public Works Excavation Code:

- 1). ' T ' trench shall be the standard restoration practice for all trenches greater than 18 inches in width. The restoration of the concrete base and pavement will be equal to 1 ft. as measured from the edge of the trench;
- 2). the minimum pavement restoration requirements (mill and fill) for trenches exceeding 25% of the length of the block shall include the restoration of all affected lanes for the entire length of the block. For streets that are not delineated by painted lanes and the width of the excavation is less than thirteen (13) feet, the pavement restoration requirements (mill and fill) shall be for the entire length of the block thirteen (13) feet in width;
- 3). for excavation in the intersection, the restoration shall be to pave all affected quadrants either with the 13 foot rule for streets without delineated traffic lanes unless it is on a Muni route and for streets with multiple delineated traffic lanes in one direction, the restoration shall be limited to the affected lane(s).

====>Per DPW sign specifications, all projects impacting the length of one (1) block face or more will require the installation of a project information sign, for the duration of the project. The project information sign should be located at either end of the project facing oncoming vehicular traffic. For larger projects that exceed five (5) blocks, the project information sign should be placed at five (5) block intervals in both directions. The signage is intended to keep the public informed of the intent of the project, project schedule, contact information and allow for updates as needed.

====>If concrete street, gutter or parking strip is excavated, Bay Area Lightworks shall remove and replace the entire concrete section from construction joint to construction joint. (No new construction joint will be allowed).

====>When drilling/excavating in the sidewalk area, entire sidewalk flag(s) must be replaced to adjacent score lines.

====>Placement or installation of any utility facilities within the curb return area is prohibited per DPW Order No. 175,387.

====>The Department of Public Works approves this permit pursuant to the following special conditions, which the Department of Public Works incorporates into the permit and makes a part thereof.

SPECIAL PERMIT CONDITIONS:

1. Bay Area Lightworks shall coordinate all work with any other construction projects and events known or unforeseen such as to minimize the impact of construction project on the general public and/or event(s).
2. Bay Area Lightworks shall comply with Code Section 2.4.50(a), post and maintain notice(s) at the site of the excavation 72 hours prior to start of construction.
3. Bay Area Lightworks shall comply with Code Section 2.4.55(b)(i), such that each excavation will be backfilled and compacted within 120 hours from the time the construction related to the excavation is completed, and immediately place and maintain temporary pavement (cutback) over the excavation(s).
4. Bay Area Lightworks' work shall be in accordance to all traffic regulations per S.F. Traffic Code (The Blue Book) or with any DPT approved traffic routing plan or DPT special traffic permit.
5. Bay Area Lightworks shall provide safe access for all pedestrians at all times. Special attention must be paid to provide ingress and egress to businesses and driveways.
6. Bay Area Lightworks shall coordinate all work with MUNI so as to avoid disruption to MUNI services. Please call Carlos Carrillo of Muni at #567-8745 to coordinate the schedule of work.
7. Bay Area Lightworks shall discuss and coordinate with Muni with regards to relocating bus stops if necessary for pedestrian safety. Please call Carlos Carrillo of Muni at #567-8745 for coordination.
8. Bay Area Lightworks shall hire SF police officers (when necessary) to control traffic so as to minimize the impact of the construction on the general public.
9. Bay Area Lightworks shall cooperate and participate in all public outreach and information including community meetings.
10. Bay Area Lightworks shall replace any existing traffic stripings and markings that are removed or damaged by the work activity with temporary stripings and markings after the restoration of the pavement as specified on the revised Section 6.2 'Pavement Markings' of DPT's 'Blue Book'. Also, Bay Area Lightworks shall pay to DPT the cost of replacing the permanent pavement markings. For any questions, please call Conrad Magat of DPT at (415) 701-4680.
11. Bay Area Lightworks shall restore all trenches per the Excavation Code and shall be to the satisfaction of the assigned city inspector.
12. Bay Area Lightworks shall construct curb ramps per DPW Standard Curb Ramp Drawing Nos. CR-1 and CR-3, Revision 3 and Drawing Nos. CR-2, CR-4 thru CR-6, Revision 0 on any curb return/angular corner where excavation occurs. All curb ramp installation shall comply with ADA requirements.
13. Bay Area Lightworks shall remove all temporary pavement markings including USA marking on both the sidewalk and street at the conclusion of the excavation.
14. Bay Area Lightworks shall submit compaction test results done by a certified material testing laboratory as required by the excavation code prior to pavement restoration. [NOTE: Per Article 2.4 of the Public Works Code, the required compaction test shall be one (1) set of three (3) compaction tests per one (1) regular city block, or as specified by the DPW assigned inspector. Copies of the compaction test results shall be provided to the assigned DPW inspector.]

Failure to comply with the above requirements may render this permit void and may subject Bay Area Lightworks to a fine or citation.

MEMORANDUM

TO: Rene Lopez
Bureau of Street Use and Mapping
875 Stevenson Street, Room 460

FROM: 
Geradine de Leon
Assistant Engineer

DATE: September 20, 2012

SUBJECT: Surface-Mounted Facility Submittal Package for Signal Controller Cabinet Installation at **Vicente Street** between **36th Avenue** and **Sunset Boulevard** (near the intersection of Sunset Boulevard and Vicente Street)
(DPW Contract No. 1984J – Sunset Boulevard Pedestrian Countdown Signals Project)

Please find enclosed our submittal package for the proposed installation of a surface-mounted facility (signal controller cabinet) at **Vicente Street** between **36th Avenue** and **Sunset Boulevard** (near the intersection of Sunset Boulevard and Vicente Street). This intersection is included as part of Sunset Boulevard Pedestrian Countdown Signals Project and the construction is proposed to begin around January 2013.

Revisions have been made to the application package per your comments.

The required public notices will be posted after we receive your written approval regarding the proposed SMF location.

If you have any questions, I can be reached at 701-4675.

PLEASE START THE 20-DAY NOTIFICATION.

VERIFICATION STATEMENTS OF PRE-SITE VISIT CHECKLIST (EXHIBIT A)

1. STATEMENT REGARDING 5-YEAR PLAN

See attached copy of SFMTA's Five Year Plan.

2. STATEMENT REGARDING CABINET SIZE

Attached are the specifications for the traffic signal controller cabinet and foundation.

3. STATEMENT REGARDING ATTEMPTS TO PLACE SURFACE-MOUNTED FACILITY ON PRIVATE PROPERTY

Because of the purpose, function and special requirements of signal controllers, their placement is critical to public safety and is limited to the portion of sidewalk as close to the intersection as practical, such that the controller is curbside with a direct line of sight to as much of the intersection, signal indications and vehicle and pedestrian traffic as possible. For such reasons, signal controller cabinets cannot be placed on private property away from the roadway and they must be fully accessible at all times.

4. STATEMENT REGARDING ATTEMPTS TO PLACE SURFACE-MOUNTED FACILITY UNDERGROUND

Because of the purpose, function and special requirements of signal controllers, their placement is critical to public safety and is limited to the portion of sidewalk as close to the intersection as practical, such that the controller is curbside with a direct line of sight to as much of the intersection, signal indications and vehicle and pedestrian traffic as possible. For such reasons, signal controller cabinets cannot be placed underground where a direct line of sight is not available.

5. STATEMENT REGARDING ATTEMPTS TO COLLOCATE THE SURFACE-MOUNTED FACILITY

There are no other surface-mounted facilities at this intersection that the controller can be collocated with.

6. STATEMENT REGARDING SPECIAL REQUIREMENTS THAT LIMIT THE POSSIBLE LOCATIONS FOR THE SURFACE-MOUNTED FACILITY

Because of the purpose, function and special requirements of signal controllers, their placement is critical to public safety and is limited to the portion of sidewalk as close to the intersection as practical, such that the controller is curbside with a direct line of sight to as much of the intersection, signal indications and vehicle and pedestrian

For Vicente Street between 36th Avenue and Sunset Boulevard
(near the intersection of Sunset Boulevard and Vicente Street
September 20, 2012

traffic as possible. For such reasons, signal controller cabinets cannot be placed underground or on private property away from the roadway.

7. STATEMENT REGARDING CONFORMANCE TO PLACEMENT
GUIDELINES

The suggested location for the proposed facility is in accordance with DPW's surface-mounted facility placement guidelines, Exhibit B of DPW Order No. 175,566.

8. STATEMENT REGARDING REMOVAL OF EXISTING SURFACE-MOUNTED
FACILITY

The old controller cabinet and foundation will be removed after activation of the new controller.

IMPORTANT NOTICE CONCERNING YOUR RIGHTS

September 20, 2012

Dear San Francisco Resident:

The San Francisco Municipal Transportation Agency (SFMTA) has filed an application with the San Francisco Department of Public Works (DPW) for a permit to install a traffic signal controller cabinet at the northeast corner of **Sunset Boulevard** and **Vicente Street**. A photograph of the Surface Mounted Facility (SMF) and the specifications for the SMF are shown below.

SFMTA will be modifying the existing traffic signals at Sunset Boulevard and Vicente Street to relocate the existing signal controller cabinet at this intersection from the southeast corner to the northeast corner. The new cabinet will house the signal controller and other equipment that will control and monitor the proper functioning of the traffic signals. The old traffic controller cabinet will be removed after activation of the new cabinet. The proposed SMF location is the optimal location for the placement of the controller cabinet from a traffic safety standpoint. A direct line of sight from the cabinet to the intersection, signal indications and vehicle and pedestrian traffic is essential.

Objection to the installation of the SMF at any of the proposed locations must be submitted in writing via e-mail to smf@sfdpw.org, by mail to the **Department of Public Works, Bureau of Street-Use and Mapping, 875 Stevenson Street, Room 460, San Francisco, California 94103-0942** or by fax to **(415) 554-6161**. You have 20 days from the date of this notice to send written notice of your objection to DPW. DPW will not consider any objection unless it is made within this 20-day period.

If you submit an objection, DPW may convene a hearing to determine whether the permit for placement of the SMF should be issued. DPW will commence any such hearing within 40 days after the receipt of any objections. You will have the opportunity to express your concerns about the SMF at the hearing should you choose to attend.

Thank you,

Geraldine de Leon
