STATUS OF WOMEN**

**Show Your Support for Cities for CEDAW:
Sign-up as an Ally, Today!**

Today, I too commit to joining the campaign and initiating a process in my city to integrate women's human rights standards into law. I pledge to advocate on behalf of local CEDAW implementation before my city officials, using the tools provided by Cities for CEDAW. I will also inform my local governing body of the following (3) requirements for a successful CEDAW implementation:

1. **Gender Analysis:** The ordinance must designate a specified number of gender analyses of city departments and commissions or boards to occur each year to ensure that a gender lens is incorporated in all aspects of city policy, with a focus on the unique needs of women;
2. **Oversight Body:** An oversight body is necessary to ensure that appropriate and timely actions are taken to perform gender analyses and advance the goals of CEDAW; and
3. **Funding:** An allocation of \$0.10 - 0.25 per woman in the jurisdiction is required to assist with the oversight body's efforts.

I am proud to be a partner in the Cities for CEDAW initiative. To help spread the word, I will also join the Cities for CEDAW Facebook group and share my efforts with my advocate networks.
