### #HowICare Campaign

Most Californians who live and work in the state are eligible for **paid family leave benefits** to help them care for and bond with a new baby or adopted child, or to care for a sick family member. But most of us are unaware of this program. The result is that many people are forced to make hard choices between caring for loved ones and trying to make ends meet.

You can help make a change! Learn more about this valuable program at [www.paidfamilyleave.org](http://www.paidfamilyleave.org). Then share this message and URL with five of your friends, family members or colleagues via email, or on social media using

#HowICare.

It's a simple act, but you can make a difference by spreading the word.
