To: Chris Jerdonek <chris.jerdonek@gmail.com>

Dear Commissioners -- Based on my observations and experience, San Francisco's Election Plans are fundamental to public understanding and assessment of whether an election is free, fair and functional and are exemplary for the purpose of election observation. Based on my research, not all jurisdictions have such plans which makes processes opaque and ripe for accusations of misconduct, negligence, malfeasance and/or fraud.

I offer a proposed resolution to be taken up at future meetings to call on Federal Legislation to require such plans in federal elections.

Sincerely,
Roger Donaldson, Commissioner.
