	BUDGET FORM 1A: Summary of Major Changes								
	FY 2022-23 and FY 2023-24								
	Department of Elections								
Major Changes	Department Response to Major Changes								
1. SUMMARY. What major changes is the department proposing? Include a description of changes intended to improve core service delivery. Clearly describe each change and the department's proposal to fund each change without increased General Fund support (i.e. reprioritization of existing funds, grants, or other new revenues). Include detail related to position changes in the Expenditure Changes section below.	Partly in response to changes in state election law and partly in response to the number of scheduled elections, the Department is proposing changes in both its FY 2022-23 and FY 2023-24 budget proposals. More specifically, these current budget proposals detail smaller changes to both fixed operating costs and variable expenses for the November 8, 2022, Consolidated General Election, which will take place in FY 2022-23, and more significant changes to costs for the November 7, 2023, Municipal Election and the March 5, 2024, Consolidated Presidential Primary Election, which will both take place in FY 2023-24 – larger changes in the second FY are largely commensurate with the fact that this FY includes two elections.  The main factor leading to increases in the current budget proposals is implementation of the provisions of Assembly Bill (AB) 37, which requires the Department to mail ballots and open the Accessible Vote-by-Mail system to all of the City's 500,000 voters and to maintain an extensive drop box infrastructure throughout each 29-day voting period. In addition to necessitating the purchase of many materials, complying with AB 37 will require the Department to invest in procuring, installing, and publicizing the availability of the City's expanded vote-by-mail ballot drop box program. Alongside AB 37 related changes, these budget proposals also contain a number of proposed changes related to the need to encourage more people to serve as poll workers, provide security at SFUSD facilities serving as polling places, procure certain new equipment, and expand outreach strategies.								
2. TARGET. How did the department meet its General Fund cost neutral target?	The Department is unable to meet the General Fund cost neutral target in these budget proposals because the Department must conduct three elections scheduled in the next two fiscal years while complying with all applicable local, state, and federal law and has no control over the length or complexity of the ballot and the Voter Information Pamphlet for each such election, which drive many costs contemplated in the budget proposals. Nevertheless, the Department continues to maintain fiscal responsibility and to identify new efficiencies wherever prudent. Examples include reducing the costs associated with staff hiring and onboarding through remote strategies, developing voter self-help tools to automate many election messages, and assigning Department staff to perform some services that were previously contracted out, such as translation of voter materials and post-census reprecincting.								
3. EXPENDITURE CHANGES. What major spending changes is the department proposing? Please provide information especially for any grant changes, major contract changes, personnel changes, or other changes that affect core services and functions. Highlight any changes related to major changes/initiatives as noted in the Summary section and provide details in Form 3A.	Although the Department's base budget only contemplates expenditures for a single election, in FY 2023-24, the Department will conduct two elections and will consequently incur higher production costs (e.g., outreach materials, official ballot and Voter Information Pamphlet printing, assembly, and mailing), as well as higher lease costs (e.g., polling place, garage and vehicle rental) and higher internal and external human resources costs (e.g., vendor and staff translation and proofing of official election materials, staff training of poll workers, poll worker stipends, interdepartmental services such as Sheriff ballot security services, ballot processing, and post-election canvass work).  While most of the proposed increases in these budget proposals reflect the need to conduct two elections in FY 2023-24 rather than only one in FY 2022-23, they also reflect the following logistical needs: 1) to encourage poll worker service by increasing stipends to \$235-295, depending on bilingual ability and assignment, 2) to increase security at polling places hosted on San Francisco Unified School District (SFUSD) property, as required by SFUSD, 3) to expand voter outreach programs related to particular upcoming election topics, and 4) to purchase a floor sweeper and two servers to replace the Department's aging equipment.								
4. REVENUE. What revenue changes did the department submit? Please differentiate between General Fund and non-General Fund. This should match an Audit Trail, as shown in Form 2A Revenue Report, as well as, the Expenditure Report in Form 3A.	These proposals reflect revenues the Department expects to receive from candidate filing fees and paid ballot argument fees, as well as revenue recoveries from scheduled District and Agency elections.								
<b>5. LEGISLATION.</b> Is the department seeking to submit any legislation with the budget? Does the department's budget assume any revenues/expenditures that require a legislative change?	The Department is not seeking to submit any legislation with the budget.								
<b>6. PROP J.</b> Identify existing Prop J Analyses that will continue, and if the department's budget proposes any NEW contracting out of work previously done by City workers.	The Department has received approval to contract out the assembly and mailing of its vote-by-mail ballot packets every year since FY 2007-08 and now seeks approval to contract out the same services in FY 2022-23. The Department is not proposing any new contracts for work previously done by City workers.								
7. TRANSFER OF FUNCTION. Is the department requesting any Transfer of Functions of positions between departments? If so, please explain.	The Department is not requesting any Transfer of Functions of positions between departments.								
8. INTERIM EXCEPTIONS. Is the department requesting any interim exceptions (new positions that are 1.0 FTE rather than 0.79 in BY and .78 in BY +1)? If so, for what reason are is the request being made?	The Department is not requesting any Interim Exceptions.								
<b>9. BUDGET EQUITY.</b> How has the department advanced racial equity through its services to the community? Please provide a high level summary in this form and all details in Form 1D.	Over the last year, the Department continued to deliver high-quality election services to the public at large while providing supplemental services to advance racial equity and accessibility and encourage all eligible City voters to participate in elections. These supplemental services include outreach to vulnerable and hard to reach communities, with a focus on residents on parole who are newly eligible to register to vote and those who are unhoused or housing insecure; equitable distribution of ballot drop boxes; and the provision of expanded language services wherever possible. Additionally, the Department continues to work towards the internal racial equity and inclusive work culture goals described in its 2020-23 Racial Equity Plan (REAP).

This substitution will result in approximately \$6,500 increase in permanent salaries.

The increase in temporary salaries in FY 2023-24 results from hiring seasonal personnel for two elections vs. one election in FY 2022-23.

The increase also reflects additional expenses the Department will incur in poll worker stipends as a result of having to conduct two elections in FY 2023-24 versus one election in FY 2022-23.
