Open Source Voting System Technical Advisory Committee

BYLAWS

(Adopted by the Elections Commission on April 19, 2017)

Section 1. Name

There is hereby established an Open Source Voting System Technical Advisory Committee (“TAC”).

Section 2. Duties and Responsibilities

The TAC shall provide technical guidance, ideas, and support to the Elections Commission (“Commission”) on ways to improve and help ensure the success of the City and County of San Francisco's open source voting system project.

To carry out its duties and responsibilities, the TAC is encouraged to consult with experts in the community.

The TAC shall provide the Commission with at least three written reports per year (at least one in every four-month period), but preferably one written report every two months. The reports shall describe the TAC's activities, respond to any questions posed by the Commission, provide any recommendations, advice, and feedback, and include any other information and/or documents the TAC deems relevant to the performance of its duties. Advice can be in areas including but not limited to requirements-gathering, design, architecture, development, documentation, security, testing, certification, manufacturing, deployment, and system maintenance. Other topics for advice include strategies for procurement; project management; and managing interaction with the public around the open source software code (e.g. dealing with feedback, bug reports, and contributions).

The first report shall be due three months after the TAC is fully constituted.

At least one TAC member other than the Chair shall attend each Commission meeting and be available during the relevant agenda items to respond to questions posed by Commissioners. All TAC members are encouraged to attend Commission meetings.

The same Commissioner may serve multiple terms, and there is no limit to the number of terms a Commissioner may serve.

The remaining four TAC members shall be selected by the Commission to serve terms of one calendar year, which begin from the date of selection. The same TAC member may serve multiple terms, and there is no limit to the number of terms a TAC member may serve.

Each of these four TAC members shall have a minimum of two years of professional experience in at least one of the following categories, with at least two satisfying the first category:

Greater preference should be given to applicants with more years of relevant experience, including computer security and elections experience.

The tenure of a member of the TAC, including the Chair, shall terminate no later than 90 days after the expiration of the member's term, unless the member is re-appointed. A member may not hold-over for more than 90 days after the expiration of his or her term.

The TAC shall elect a Vice-Chair.

Section 4. Application Process

The Commission shall use an application that is substantially the same as the one attached hereto, which is hereby incorporated into these bylaws.

Members of the TAC who wish to re-apply for an additional term need not submit a new application, but rather, may inform the Commission or its designee in writing that they wish to re-apply.

TAC applications shall be public records, but shall be subject to any exemptions provided by law, including the Sunshine Ordinance, as it may be amended from time to time.

An affirmative vote by three members shall be required for approval of any question brought before the TAC.
