Mayor's Office on Disability

Information Bulletin MOD-02

Subject	Calculation Methods for Kitchen Storage in Mobility Units			
References	2019 California Building Code (CBC)2010 ADA Standards (ADAS)Fair Housing Act Design Manual (FHADM)			
Purpose	This bulletin provides guidance for calculating storage in Mobility Unit kitchens.			

For more information visit the Mayor's Office on Disability (MOD) website: sfgov.org/mod

CBC Code Section	Summary
11B-225.2	At least one of each type of storage provided to be accessible.
11B-305	Clear floor space.
11B-308	Reach ranges.
11B-804.5	50% of shelf space to comply with 11B-811.

Criteria for Kitchen Storage Calculations

- 1. Calculations and drawings must show 50% of shelving is accessible.
- 2. When drawer hardware is within the required reach range, the storage is accessible.
- 3. If the top of the front edge of a shelf is within the required reach range, the storage is
- 4. One removable shelf in wall cabinets is to be included in non-accessible storage calculations except for cabinets that are under 24" in height and are located above a range or refrigerator.
- 5. Mobility Units must have the same types of kitchen storage as comparable Adaptable Units
 - Open shelves in Mobility Units are not comparable to shelves with a door in

 Adaptable Units
 - Adaptable Units.

 If Adaptable Units have pantries then Mobility Units must also have pantries.
 - Drawer heights in Mobility Units are to be comparable to those in Adaptable Units.
- 6. Items Excluded from Calculation:
 - Bread boards.
 - · Refrigerators.
 - Oven storage drawers.
 - Filler strips.
 - Removable base cabinets.
 - Corner areas of wall and base cabinets.
- 7. Projecting face of appliance, cannot overlap with clear floor space.

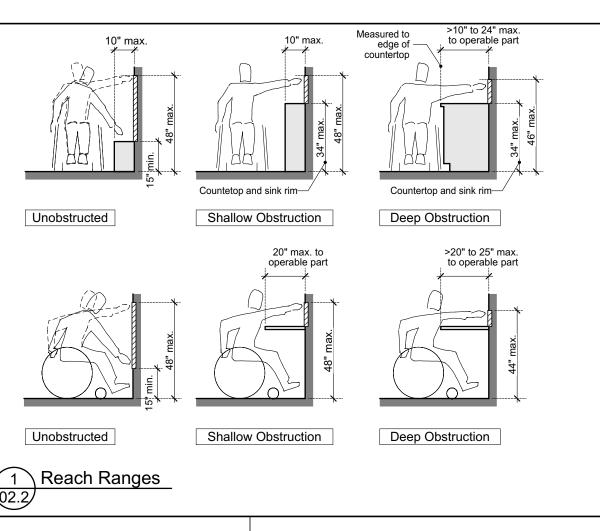

Residential Dwelling Unit Terminology

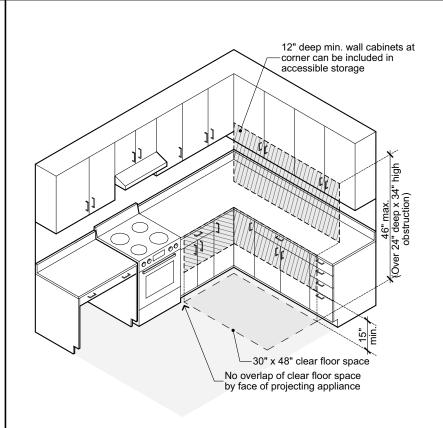

Mobility Unit: Residential dwelling unit per 11B-233.3.1.1 providing mobility features complying with Sections 11B-809.2 through 11B-809.4.

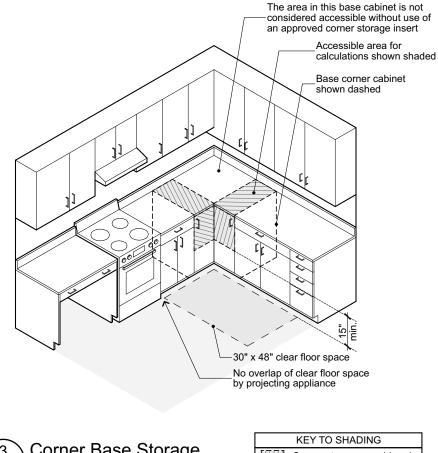

Adaptable Unit: Residential dwelling unit per 11B-233.3.1.2, providing adaptable accessibility features as required by Sections 11B-233.3.1.2.1 through 11B-233.3.1.2.6.

Communication Unit: Residential dwelling unit per 11B-233.3.1.3, providing communication features complying with Section 11B-809.5.

Not to Scale	Issue Date: 10/9/20	Information Bulletin:	MOD-02

Corner Storage Reach

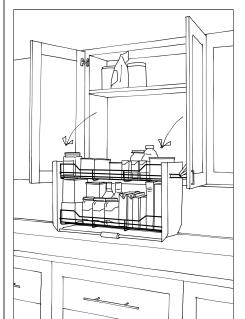

KEY TO SHADING = Accessible Storage from clear floor space position shown

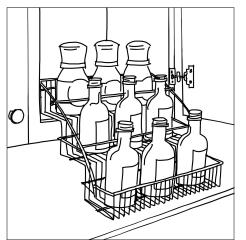

Corner Base Storage Corner storage considered accessible

Corner Storage Examples

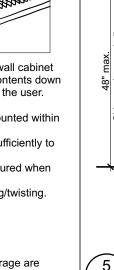

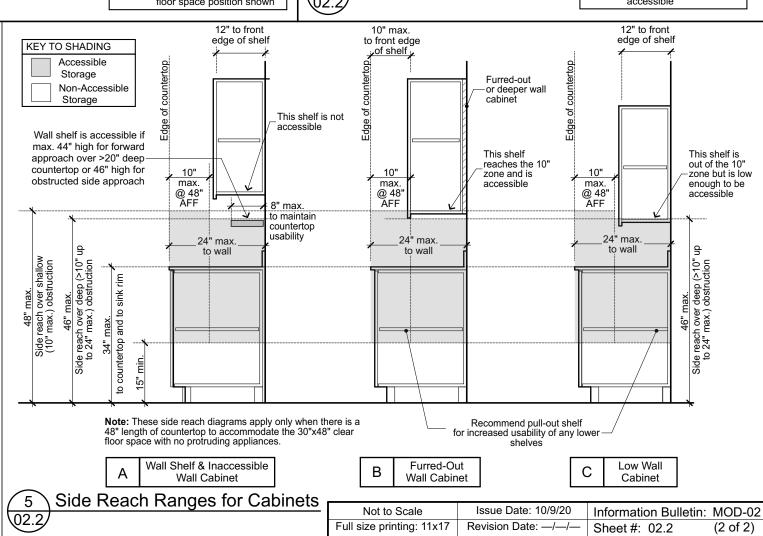

Products like these can make more wall cabinet storage accessible by bringing the contents down to a lower height and forward toward the user.

- Operating part / handle must be mounted within reach range.
- Confirm upper shelf lowers down sufficiently to be included in accessible storage.
- · Five pound operating force is measured when
- · Operation must not require grasping/twisting.

Wall Cabinet Storage Examples

Non-Standard Storage Examples

These images and other creative solutions for providing accessible storage are suggestions only - the project designer is responsible for demonstrating that any non-standard solution meets reach and other applicable code requirements.
