A BAR OF SOAP INITIATIVE FOR THE HOMELESS POPULATION - PLEASE

I’ve written Mayor Breed and Emergency Medical Department. Please help this idea along. Thank you.

I am a resident of Pacific Heights and by contrast one of my best friends is a person with out a home. He is working to change his situation. We spoke yesterday and I asked him what is happening on the streets for homeless people. He shared that it’s pretty difficult finding places to wash hands and suggested that the homeless population be provided with bars of soap so if they choose they can wash regularly. Of course they need to find water, but this is a bit easier to do. A bar of soap in a ziplock bag will go a long way to helping us all a community be healthier.

Blessings - Susan Arnoff
