**Subject:** In Support of Commissioner Hamasaki's Freedom of Speech

Members of the San Francisco Police Commission,

I first want to thank you all for your continued work providing oversight and reform to the San Francisco Police Department and your continued work as volunteers serving the people of San Francisco.

I am reaching out today in support of Commissioner Hamasaki's freedom of speech and his continued work on the San Francisco police commission. Commissioner Hamasaki has been a detail-oriented, data-informed, and reliable voice on the police commission and his work is pivotal to our efforts in reimagining public safety. I know you have worked with him for years, and know that he is a reliable and level-headed individual.

There are a very large, and very loud group of people who take social media way too seriously and have been making attempts to fire me and other people they disagree with for well over a year. This group of individuals spends 12-14 hours a day on twitter harassing people and disparaging them (no joke, someone did some research). They actively [helped spread misinformation about me](#) and have flooded my work with false accusations and ethics complaints (all of which have been thrown out).

I bet your inboxes are flooded with complaints, and I ask you to dismiss them just like you dismiss dozens of anonymous twitter accounts. This is next level Karen-ing and a clear attempt at trying to silence their political opponents. I hope you see right through it and continue to support Commissioner Hamasaki against these online trolls.

Much appreciation to all of you, and please let me know if you have any questions.

All the best,
