To Members of the Commission:

I am a resident of the Haight in San Francisco, and I was the victim of a stop-and-frisk and robbery by a fake Federal Agent in December 2018 (Incident 180966267). This was fully adjudicated in Superior Court resulting in a conviction.

I read the SF Examiner account of Mr. Tad Crane with concern because my experience substantiates Mr. Crane's account and state of mind that he was being accosted by a fake federal agent. This is an existing criminal MO on the streets of San Francisco - something a Federal Agent should know. Failure to adjudicate and hold the FBI to account puts San Francisco residents at risk to the MO of impersonating federal agents. Moreover, the Commission needs to send to the public a clear understanding that the Rohrabacher-Farr Amendment precludes the type of enforcement action experienced by Mr. Crane.

In my view, Tad Crane was assaulted by a thug with a gun holding a pet-peeve engaging in vigilantism, violating Mr. Crane's right to due process under the Constitution of California.

Thomas Busse
