San Francisco Police Commissioners Police Commissioners,

Please see the attached signatures and comments from members of your community who are calling on you to uphold police accountability in light of news that Police Chief Scott is pulling out of the MOU.

Dear SF Police Commission Police Commission SF,

I am writing to urge you to intervene and stop the San Francisco Police Department from investigating themselves. We must not return to the failed practices of the past which allowed police officers to investigate themselves and evade justice.

This agreement has been held up as a national model. Since its implementation police shootings have gone down and police accountability has gone up. For decades our communities have demanded our leaders hold police accountable when they abuse their power. Now, we once again call on our leaders to prevent the erosion of meaningful progress. We have come too far to turn back now.

Sincerely,  
Frances Taylor  
San Francisco, CA 94110

Dear SF Police Commission Police Commission SF,

As a 17-year resident of San Francisco, I am writing to urge you to intervene and stop the San Francisco Police Department from investigating themselves. I just recently had my first child, and I would like him to grow up in a city where everyone, including to police, are held accountable.

We must not return to the failed practices of the past which allowed police officers to investigate themselves and evade justice. I just recently had my first child, and I would like him to grow up in a city where everyone, including to police, are held accountable.

This agreement has been held up as a national model. Since its implementation police shootings have gone down and police accountability has gone up. For decades our communities have demanded our leaders hold police accountable when they abuse their power. Now, we once again call on our leaders to prevent the erosion of meaningful progress. We have come too far to turn back now.

I have been at many parades and protests in San Francisco. It's important to the whole area that police know they cannot get away with murder. At one protest a police officer began talking to me about people choosing to be murdered by the police, it was a terrifying avoidance of responsibility and a sign the SF police do not need more freedom to decide what happens after someone is murdered by a police officer.

Sincerely,  
Rachel Cloud

Dear SF Police Commission Police Commission SF,

I am writing to urge you to intervene and stop the San Francisco Police Department from investigating themselves. We must not return to the failed practices of the past which allowed police officers to investigate themselves and evade justice.

In 2019, I was beaten and almost killed by SFPD. Despite reporting to the police commission and city council, nothing came of it. They are regularly intimidated and know that the police are out of line. We must make sure that police accountability is a priority.

This agreement has been held up as a national model. Since its implementation police shootings have gone down and police accountability has gone up. For decades our communities have demanded our leaders hold police accountable when they abuse their power. Now, we once again call on our leaders to prevent the erosion of meaningful progress. Dear SF Police Commission Police Commission SF,

I am writing to demand you intervene and stop the San Francisco Police Department from investigating themselves. We must not return to the failed practices of the past which allowed police officers to investigate themselves and evade justice.

"I have heard the complaints against me, so I investigated myself and have found myself innocent of all wrongdoing." Does this statement sound as ridiculous to you as it does to me? Because this is exactly what allowing a police department, or any agency, to investigate and police itself with no external oversight is. And this is especially dangerous with the police department, whose officers hold the power of life and death over people, who have positions of extreme power over vulnerable people. If a police officer harms someone, where are they to go? To the police who just harmed them?? This is an objectively terrible model and idea.

This agreement has been held up as a national model. Since its implementation police shootings have gone down and police accountability has gone up. For decades our communities have demanded our leaders hold police accountable when they abuse their power. Now, we once again call on our leaders to prevent the erosion of meaningful progress.
