Recycling and Disposal for SF City Departments
(Re-issue DB 08-188)

The Department of the Environment City & County of SF Recourse Conservation Ordinance (Chapter 21A, Part 1 of the SF Administrative Code) requires all City departments to divert as much waste as possible. Therefore, members shall attempt to dispose of refuse and recyclable material in the appropriate manner (i.e. organic material into compost bin, paper/glass/plastic into recycling bin, etc.) when applicable. Members shall also refrain from disposing of organic materials on city streets and sidewalks (i.e. gum, sunflower seeds, etc.).

WILLIAM SCOTT
Chief of Police
