Citizens of the Month

Traci Teraoka

Presidio Heights resident, Traci Teraoka opened her store, Poetica Art and Antiques nearly 8 years ago on Sacramento Street. In that time she has worked to create a business that helps connect her to fellow merchants and the community. It’s not unusual to see a spontaneous gathering of customers, neighbors, kids and dogs assemble outside of her shop doors. For Traci, this is the soul of her work ethic - building community and strengthening our ties to one another.

For nearly five years Traci served as co-chair of the Richmond Station Neighborhood Community Advisory Board while also steering the Sacramento Street Merchants Association.

In 2018 Traci was awarded District 2’s APA Heritage Month recognition and in 2008 she was a Jefferson Award recipient for her contributions to make San Francisco’s "Maitri" AIDS care facility less institutional and more home-like.

Huckleberry is Traci’s 7 year old shop dog, and is well known to all those that regularly visit Sacramento Street. He’s a mix of Shih-Tzu and poodle. Huckleberry is known for being friendly and welcoming to all people and many dogs that visit the shop. Many neighbors stop by just to say hello to Huckleberry.

Traci also has a 19 year-old son. He was born and raised in San Francisco and is now attending the University of Oregon.

Traci said she would like to encourage all to build relationships in your community, just as she has, as both a local shop owner and resident.

Ask.Fm is known for cyber bullying. The app encourages users to allow anonymous people to ask questions and get an answer. This has been linked to severe forms of cyber bullying.

Snap Chat - This app promises that you can take a photo or video and it will disappear, with the recent story feature content can stay up to 24 hours and allow your location to be shown.

A self proclaimed “addicting” video app. Users can chat with people all over the world. Users have been exposed to racial slurs, explicit content and more.

Calculator% - One of many secret apps used to hide photos, videos, files and browser history. It looks and acts like a calculator but a password will open the vault.

Whisper is an anonymous social network that allows users to share secrets with strangers. It also reveals the users location.

Encourages users to rate your profile and chat with strangers.

Yellow app is designed to let teens flirt with one another in a Tinder like setting.

The app description is “Together we can keep a secret”. Allows users to post anonymous rumors about others through audio, text and photos.

Wishbone allows users to compare kids against each other and rate them on a scale.

Hide It Pro (HIP) is disguised as a music manager but it is meant for hiding anything from photos to text.

Allows anyone to contact and direct message users. This app is popular because you can create a fake account and does not require age verification.
