5. **Develop draft Market Octavia Community Improvements Program Recommendations for FY2015-2016; review draft IPIC recommendations** [discussion item]

Item heard, no action taken. CAC members reviewed draft IPIC recommendations and made the following comments:

**Transportation**
- Upper Market intersections are a high priority. Recommend funding for these intersections in FY2014-15 (rather than in FY2014 and FY 2016).
- Gough and Franklin intersections are also a high priority (includes reopening closed crosswalks). For both these intersections and the Upper Market intersections, improvements should happen as development in these areas occurs.
- Instead of the proposed MTA Pedestrian Enhancement Fund, funds should be split between Upper Market intersections and Franklin and Gough intersections for FY2015-2016. In later years, this money should be unprogrammed.
- Franklin/Market is a high priority intersection. Improvements to this intersection should be supported by Van Ness BRT mitigations as well as by impact fee funds.
- General support for the Page Street Bicycle Boulevard.

**Open Space**
- Recommend higher amounts for the Community Opportunities program, especially in FY2016 and beyond.
- General support for Brady Block park, especially if it’s in conjunction with new development.

**Greening**
- Instead of the proposed Greening Enhancement Fund, these funds and unprogrammed greening funds should go toward greening Church Street between Market and Duboce.
- General support for re-establishing Octavia Blvd right-of-way.
