Planning  
Information:  
**415.558.6377**

A partially Revised Environmental Impact Report (Revised EIR) for the 2004 and 2009 Housing Element was circulated on December 18, 2013 for a 60-day public review period. The Revised EIR was limited to the EIR alternatives analysis section and conforming portions of the executive summary.

Attached for your review, please find a copy of the Responses to Comments document for the Revised EIR. **This document will be before the Planning Commission for Final EIR certification on April 24, 2014.**

Public comment was received on the Draft EIR from December 18, 2013 to February 18, 2014, and at a Planning Commission hearing on January 23, 2014. All written comments received during the comment period, and all oral comments made at the Revised EIR hearing, were responded to in this Responses to Comments document. Interested parties may submit written comments regarding the Responses to Comments document, or on the Planning Commission's decision to certify the EIR, to 1650 Mission Street or by email at [Commissions.Secretary@sfgov.org](mailto:Commissions.Secretary@sfgov.org). Written and oral comment may also be provided at the April 24<sup>th</sup> certification hearing. However, because the public comment period on the Draft EIR is closed, comments received after February 18, 2014 will not be responded to in writing.

Please note that if you receive this Responses to Comments document in addition to the Revised EIR, prior Draft EIR, and prior Responses to Comment document published on March 9, 2010, you technically have the Final EIR. These documents are all available for review on the Planning Department website at <http://tinyurl.com/sfceqadocs>. If you have any questions concerning this document or the environmental review process, please contact Steven Smith at 415-558-6373.

Thank you for your interest in this project and your consideration of this matter.
