Hello All,

We'll be using the bi-weekly to discuss any high-level updates or issues concerning your department. This would be an opportunity to share information or raise topics that might need further clarification. Since there will be a large number of directors on the call, we will not be able to discuss matters that are very specific to your department. Please continue to discuss those issues with your supervisor.

We would also want to share any awards and updates on your department. Any new software, procedure, etc you recently discovered and that it's useful to share the information on.

If you have any items that you would like included on the agenda, please have them send to me by Mon prior at 5:00p.

We look forward to checking-in.

In person audio always sounds better and in this case it would be great to include some of the sound of the dogs! I could also snap some photos while I'm there.

Show Time As Busy

Hello All,

We'll be using the bi-weekly to discuss any high-level updates or issues concerning your department. This would be an opportunity to share information or raise topics that might need further clarification. Since there will be a large number of directors on the call, we will not be able to discuss matters that are very specific to your department. Please continue to discuss those issues with your supervisor.

We would also want to share any awards and updates on your department. Any new software, procedure, etc you recently discovered and that it's useful to share the information on.

If you have any items that you would like included on the agenda, please have them send to me by Mon prior at 5:00p.

We look forward to checking-in.

Subject RESCHEDULED 7/29: CAO's Bi-Weekly Dept Update Meeting
Location Teams
Show Time As Busy
Hello All,

Just for today, the bi-weekly meeting is rescheduled to 1-2pm. Please disregard the 12pm meeting on today's calendar.

Thank you,

Angela

Hello All,

We'll be using the bi-weekly to discuss any high-level updates or issues concerning your department. This would be an opportunity to share information or raise topics that might need further clarification. Since there will be a large number of directors on the call, we will not be able to discuss matters that are very specific to your department. Please continue to discuss those issues with your supervisor.

We would also want to share any awards and updates on your

department. Any new software, procedure, etc you recently discovered and that it's useful to share the information on.

If you have any items that you would like included on the agenda, please have them send to me by Mon prior at 5:00p.

We look forward to checking-in.

Show Time As Tentative

Hello All,

Thank you for completing our survey about hybrid work! Please join City Administrator Carmen Chu to review our survey results together. We are offering two identical sessions (7/27 and 8/1) to share the survey results. Please accept whichever session is more convenient for you.

Your participation is very important to us. The survey results already helped inform our planning for hybrid operations in the current year.

Thank you again.

Hello All,

We'll be using the bi-weekly to discuss any high-level updates or issues concerning your department. This would be an opportunity to share information or raise topics that might need further clarification. Since there will be a large number of directors on the call, we will not be able to discuss matters that are very specific to your department. Please continue to discuss those issues with your supervisor.

We would also want to share any awards and updates on your department. Any new software, procedure, etc you recently discovered and that it's useful to share the information on.

If you have any items that you would like included on the agenda, please have them send to me by Mon prior at 5:00p.

We look forward to checking-in.

Intake and Holding Periods: Everything you ever wanted to know!

Speakers: Bruce Wagman, Attorney and Cindi Delany, DVM

When it comes to daily shelter activities that happen on a regular basis, the most common questions, and greatest confusion, revolve around intake (if, when, who) of animals, and the applicable holding periods once intake occurs. This webinar will lay out the basics for intake and holding periods under California law, explain the interactions of these issues with other laws, and explore some of the gray areas and public policy behind it all.
