San Francisco Youth Commission
Agenda
Monday, May 17th, 2021
5:00pm-8:00pm

Public Comment Call-in:
+1-415-655-0001
United States, San Francisco (toll)
Access Code: 187 148 1408

There will be public comment on each item.

Jayden Tanaka, Valentina Alioto-Pier, Lillian Tang, Plyfaa Suwanamalik-Murphy, Calvin Quick, Gabrielle Listana, Adrianna Zhang, Gracie Veiga, Ariana Arana, Rome Jones, Erika Morris, Arsema Asfaw, Sarah Cheung, Sarah Ginsburg, Nora Hylton, Amara Santos, Stephen “Rocky” Versace

1. Call to Order and Roll Call for Attendance (Discussion and Possible Action)

2. Approval of Agenda (Action Item)

3. Approval of Minutes (Action Item)
   A. May 3rd, 2021
      (Document A)

4. Public Comment on Items not on Agenda (2 minutes per public comment)

5. Consent Calendar (Inform + Decision)

   All items hereunder constitute a Consent Calendar. There will be no separate discussion of these items unless a Commissioner so requests. In that event, the item will be removed from the Consent Calendar and considered as a separate item immediately following the vote on the rest of the items.

   A. BOS File No. 210459 [Supporting the Establishment of a Compassionate Alternative Response Team]
      Sponsors: Supervisors Haney, Preston, Ronen, Walton
      (Document B)

   B. [Second Reading] Resolution No. 2021-AL-11 [2550 Irving - Affordable Housing]
      Sponsors: Commissioners Suwanamalik-Murphy and Tanaka
      (Document C)

   C. [Second Reading] Resolution No. 2021-AL-13 [Seamless Transit Principles]
6. **Legislation Referred (All Items to Follow are Discussion and Possible Action)**

   A. [Inform + Decision] BOS File No. 210405 [Hearing - Food Insecurity and Hunger in San Francisco]
      Sponsors: Supervisors Ronen, Haney, Safai, Chan
      Presenter: Amy Bienart, D9 Legislative Staff
      (Document E)

7. **Presentations (All Items to Follow are Discussion and Possible Action)**

   A. [Inform + Possible Discussion] San Francisco Public Library (SFPL) Services
      Presenter: Cathy Cormier, Program Manager at The Mix, SFPL

   B. [Inform] John F. Kennedy Drive & Great Highway - Street Closures
      Presenter: David Long, San Francisco County Transportation Authority (SFCTA) Staff
      (Document F)

8. **Youth Commission Business (All Items to Follow are Discussion and Possible Action)**

   A. [Decision] [Second Reading] Resolution No. 2021-AL-12 [John F. Kennedy Drive & Great Highway Closures Resolution]
      Sponsor: Commissioners Tanaka and Quick
      Presenter: Commissioner Tanaka
      (Document G)

   B. [Decision] [Second Reading] Resolution No. 2021-AL-14 [Student Pedestrian Safety During School Reopening - Slow Streets]
      Sponsor: Commissioner Quick
      Presenter: Commissioner Quick
      (Document H)

9. **Committee Reports (Discussion Only)**

   A. Executive Committee
      a. LAO
      b. Comms
      c. General Committee Updates
   B. Civic Engagement
   C. Housing and Land Use
   D. Transformative Justice
   E. OCOF

10. **Staff Report (Discussion Only)**

11. **Announcements (This Includes Community Events)**

12. **Adjournment**
Any materials distributed to the members of the Youth Commission within 72 hours of the meeting or after the agenda packet has been delivered to the members are available for inspection—along with minutes of previous Youth Commission meetings and all supplementary information—at the Youth Commission office during regular office hours (9am to 6pm, Monday—Friday). The Youth Commission office is at:

City Hall, Room 345
1 Dr. Carlton B. Goodlett Place
San Francisco, CA 94102
Phone: (415) 554-6446, Fax: (415) 554-6140
Email: youthcom@sfgov.org

KNOW YOUR RIGHTS UNDER THE SUNSHINE ORDINANCE (Chapter 67 of the San Francisco Administrative Code) Government’s duty is to serve the public, reaching its decisions in full view of the public. Commissions, boards, councils and other agencies of the City and County exist to conduct the people’s business. This ordinance assures that deliberations are conducted before the people and that City operations are open to the people’s review.

FOR MORE INFORMATION ON YOUR RIGHTS UNDER THE SUNSHINE ORDINANCE OR TO REPORT A VIOLATION OF THE ORDINANCE, CONTACT THE SUNSHINE ORDINANCE TASK FORCE, please contact:
Sunshine Ordinance Task Force
City Hall, Room 244
1 Dr. Carlton B. Goodlett Place
San Francisco, CA 94102-4689
Phone: (415) 554-7724, Fax: (415) 554-5784
Email: sotf@sfgov.org

Copies of the Sunshine Ordinance can be obtained from the Clerk of the Sunshine Ordinance Task Force, at the San Francisco Public Library, and on the City’s website at http://www.sfgov.org.

The nearest accessible BART station is Civic Center (Market/Hyde Streets). Accessible MUNI Metro lines are the F, J, K, L, M, N, T (exit at Civic Center for Van Ness Stations). MUNI bus lines also serving the area are the 5, 5R, 6, 7, 7R, 7X, 9, 9R, 19, 21, 47, and 49. For more information about MUNI accessible services, call (415) 701-4485.

The ringing and use of cell phones, pagers, and similar sound-producing electronic devices are prohibited at this meeting. The Chair may order the removal from the meeting room of any person responsible for the ringing or use of a cell phone, pager, or other similar sound-producing electronic device.
In order to assist the City’s efforts to accommodate persons with severe allergies, environmental illnesses, multiple chemical sensitivity, or related disabilities, attendees at public meetings are reminded that other attendees may be sensitive to various chemical-based products. Please help the City accommodate these individuals.

To obtain a disability-related modification or accommodation, including auxiliary aids or services to participate in the meeting, please contact Kiely Hosmon, Youth Commission Director [phone: 415-554-6464 email: Kiely.hosmon@sfgov.org] at least 48 hours before the meeting, except for Monday meetings, for which the deadline is 4:00 p.m. the previous Friday. Full Commission Meetings are held in Room 416 at City Hall, 1 Dr. Carlton B. Goodlett Place in San Francisco. City Hall is accessible to persons using wheelchairs and other assistive mobility devices. Ramps are available at the Grove, Van Ness and McAllister entrances.

LANGUAGE INTERPRETERS: Requests must be received at least 48 hours in advance of the meeting to help ensure availability. Contact Peggy Nevin at (415) 554-5184.

AVISO EN ESPAÑOL: La solicitud para un traductor debe recibirse antes de mediodía de el viernes anterior a la reunion. Llame a Derek Evans (415) 554-7702.

San Francisco Youth Commission Minutes ~ Draft
Monday, May 3rd, 2021
5:00pm-8:00pm

Public Comment Call-in:
+1-415-655-0001
United States, San Francisco (toll)
Access Code: 187 314 0268

There will be public comment on each item.

Jayden Tanaka, Valentina Alioto-Pier, Lillian Tang, Plyfaa Suwanamalik-Murphy, Calvin Quick, Gabrielle Listana, Adrianna Zhang, Gracie Veiga, Ariana Arana, Rome Jones, Erika Morris, Arsema Asfaw, Sarah Cheung, Sarah Ginsburg, Nora Hylton, Amara Santos, Stephen “Rocky” Versace

1. Call to Order and Roll Call for Attendance (Discussion and Possible Action)

Chair Santos calls the meeting to order at 5:03PM. Quorum is met.

Commissioner Hylton has notified her absence to staff.

No public comment. Commissioner Zhang motions to excuse Commissioner Hylton’s absence, seconded by Commissioner Veiga. The motion passes by roll call.

Roll Call Attendance:
Jayden Tanaka, present
Valentina Alioto-Pier, present
Lillian Tang, present
Plyfaa Suwanamalik-Murphy, present
Calvin Quick, present
Gabrielle Listana, present
Adrianna Zhang, present
Gracie Veiga, absent
Ariana Arana, present
Rome Jones, present
Erika Morris, present
Arsema Asfaw, present
Sarah Cheung, present
Sarah Ginsburg, present
Nora Hylton, absent
Amara Santos, present
Stephen “Rocky” Versace,
No public comment. Commissioner Zhang motions to excuse Commissioner Hylton’s absence, seconded by Commissioner Veiga. The motion passes by roll call.

Roll Call Vote:
Jayden Tanaka, aye
Valentina Alioto-Pier, aye
Lillian Tang, aye
Plyfaa Suwanamalik-Murphy, aye
Calvin Quick, aye
Gabrielle Listana, aye
Adrianna Zhang, aye
Gracie Veiga, aye
Ariana Arana, aye
Rome Jones, aye
Erika Morris, aye
Arsema Asfaw, aye
Sarah Cheung, aye
Sarah Ginsburg, aye
Nora Hylton, absent
Amara Santos, aye
Stephen “Rocky” Versace, aye

2. Approval of Agenda (Action Item)

There is no public comment. Commissioner Murphy motions to approve the agenda, seconded by Commissioner Tanaka. The motion passes by roll call.

Roll Call Vote:
Jayden Tanaka, aye
Valentina Alioto-Pier, aye
Lillian Tang, aye
Plyfaa Suwanamalik-Murphy, aye
Calvin Quick, aye
Gabrielle Listana, aye
Adrianna Zhang, aye
Gracie Veiga, aye

Amara Santos, aye
Stephen “Rocky” Versace, aye

3. Approval of Minutes (Action Item)

A. April 19th, 2021
(Document A)
There is no public comment. Commissioner motions to approve the agenda, seconded by Commissioner. The motion passes by roll call.

**Roll Call Vote:**
Jayden Tanaka, aye  
Valentina Alioto-Pier, aye  
Lillian Tang, aye  
Plyfaa Suwanamalik-Murphy, aye  
Calvin Quick, aye  
Gabrielle Listana, aye  
Adrianna Zhang, aye  
Gracie Veiga, aye  
Ariana Arana, aye  
Rome Jones, aye  
Erika Morris, aye  
Arsema Asfaw,  
Sarah Cheung, aye  
Sarah Ginsburg, aye  
Nora Hylton, absent  
Amara Santos, aye  
Stephen “Rocky” Versace,  

Commissioner Versace was present during this item, but was kicked off the meeting due to internet connectivity issues. Commissioner Asfaw was tardy and arrived at 5:14pm but missed the vote.

4. **Public Comment on Items not on Agenda (2 minutes per public comment)**

   No public comment.

5. **Legislation Referred (All Items to Follow are Discussion and Possible Action)**

   A. [Inform + Decision] BOS File No. 210380 [Youth Programs for Summer 2021]  
      Sponsors: Supervisors Chan, Ronen, and Melgar  
      Presenter: Frances Hsieh, D1 Legislative Staff  
      (Document B)

      Cementing policy directions for youth programs. talks about intentions to expand to students and covering funding legislation and a focus for in person programs not virtual and to the degree possible by health orders. It grants city departments for waiving necessary - DCYF has a robust waiver process but rec and park doesn’t always and gives a blanket opportunity for most access for all.

      call for accountability - do serve the most at risk populations. The report would go to bos and ryse working groups calling for demographic information and how many were served and trends they might see from regular programming and types of data we are requesting and ryse efforts to build our community school.
Supervisor Chan has not made it a secret that this can be a pilot for a permanent program for free summer programming for regular school year education and part of what we are looking for from cost to find that and build that into future revenue measures we look at and how we fund this as a priority. straight forward legislation and any questions or comments from the commission.

Commissioner Santos:
- needs of young people in the city right now and impact of covid 19 and one thing that we would - touched on page line page 1 -2 early on in section - on specific communities, black and brown young people disproportionately impacted, - how did covid 19 impacted all young people

Commissioner Quick:
- Can you speak to the working group connecting with the summer initiative and vise versa?

Frances - the working was just appointed so still yet to start the group. but want to expand on the community schools model to serve the most at risk youth and make sure the education system is really serving those communities.

Commissioner quick - one thing that came up that ive been working on recently, in terms of data collection around schools and students it's important to look at the geo demographics parts. It's very difficult to find consistent data through the schools district about mute patterns. Information is vague. How easy is it to access programming, so I'm wondering if this is able to be collected in this data collection piece?

Frances - transportation is a big issue to recover from the pandemic, access to transit. This is a big piece on how our families and youth recover. what lines are coming back, and far flung neighborhoods are in areas that are the hilliest and difficult to get around able bodied or not. Everybody likes to presume that youth are able bodied, but that’s something we need to work on together to figure out the transit future.

Commissioner Santos - do you happen to know any programming or services to support TAY or folks transitioning out of SFUSD?

Frances - nothing in this legislation, i know separately, that supervisor mar has a companion piece for highschool youth for work opportunities, about tay population for employment and a perfect match it could be for the summer programs that rec and park has problems hiring and staffing for all the summer programs. but not sure how that conversation went and happy to follow up on how they’ve been tapping into that population.

Commissioner Santos: social aspect and employment prospects are just as important for youth and tay to feel physically safe and communally safe with other young people.

Any public comment? No public comment.

No internal discussion.
Commissioner Zhang motions to support Youth Programs for 2021, seconded by Commissioner Listana. The motion passes by roll call.

**Roll Call Vote:**
Jayden Tanaka, aye

**B. [Inform + Decision] BOS File No. 210454 [Administrative Code- Free Muni Pilot Program]**
Sponsors: Supervisors Preston, Haney, Walton, Ronen, and Chan
Presenter: Preston Kilgore, D5 Legislative Staff
(Document C)

Free muni pilot to start June 21st 2021. 3 month pilot of fare free muni pilot.
What we know: traffic on the rise. Free muni pilot is long overdue and its time to do it. SF would be joining Boston, etc. to testing the waters of fare free transit.

Free muni save riders money, reduce traffic congestion. Our goal is that public transit is widely used,

Can pilot this due to revenues and then can decide later for long-term public funding. Launching a pilot,

Questions:

Commissioner Versace - I definitely support this. I’m wondering if there is a defined thing that would tell us what would you need to see for this to become permanent?

Preston - for us, the pilot will hopefully make the case its something worth funding. Whatever funding, I think the funding needs to look at both service and fairs.

Commissioner Veiga- in general do you have a breakdown or overview of where revenues are going?
Preston - fair revenue will go into the larger _ and then its at the discretionary of.. we can’t tell mta how to spend their money. We know that the fares are very low so we can pilot it.

Commissioner Quick - think we should try this out, in support. Some peripheral questions about moving forward. First, fare enforcement is currently problematic and targets specific communities. Right now, fare enforcement officers are around, supposed to be educational, they are also in charge of doing wellness checks given COVID restrictions. Will there still be protocols for transit riders to practice social distancing?

Preston - the pandemic has allowed us to pilot programs. like closed streets, slow streets, and fare enforcement. SFMTA transitioned fare enforcement inspectors to wellness officers. it's front of mind for us - it’s in this conversation working with labor allies that these positions are important but transitioning them to partner more generally. bart has piloted/similar program of community ambassadors to educate riders, when you center black and brown community, protecting riders currently on and protecting the jobs doing this and as we’ve seen in the pandemic

Commissioner Quick - what is that number based on? current fare revenue or what they’re projecting?

Preston - 9.3 billion is a projection from July to September 30th.

Commissioner Quick - do you happen to know the timeline and what’s the plan for the data?

Preston - The mta will report to the board, on the 15th of every month. We shared those concerns and are partnering with ta to see what our report would look like. also expanding it to the data, looking at the stories and how that's impacting people. Collecting data and expanding the data outside of mta as well.

Commissioner Santos - when you say data collection, what does the program have to collect data for impact for sf residents, young people and intentionality?

Preston: First is a poor stop, looking at individual lines, for increased usages, and where people are getting on and off, and where folks are not buying monthly passes and how we capture those people, and nontypical riders. if someone's not getting a monthly pass - they might not want to pay that fare, and working with ta to track where people are going to influence shopping local, jumping on for an 8 block and getting a lift and most importantly, recent increases on specific lines and where people are getting on - as we step forward in the recovery for lines to restore

Commissioner Santos - transportation for working class folks - one point i would encourage to look on data for young people getting to school faster, 2019 often times, slips that would punish/not support folks being late
- Who would benefit from the free muni ? having a focus for public students of color, transitional aged youth. I’d like to see that language and focus

Preston - former school counselor, aware of the tough transition into adulthood. Definitely important to think about as we think long term about this program. Absolutely agree and also
agree on how Free Muni will positively impact marginalized communities. When you're low income, every dollar counts. I wrote these down and will share with the Supervisor.

Commissioner Santos - with the current state of hate against marginalized groups, how would Free Muni for All allow for more safety and not fear if fare evading? Important to see how riders of color and women/feminine appearing people are faring on public transportation and to have data and/or discussions on riders' experiences.

Public Comment - Hayden, D1, likes idea but has serious concerns about it. Rides bus every day and MUNI only offering 70% of service and many pass ups. Happened today to Hayden and passed multiple stops with 50-100 people who got passed up. Minimal increases and is concerned that more people will ride with more pass ups. Where else could this money go to? More transit lanes for more reliability. More reliable transportation should come before free transit. Targeting resources, this is very general, so that low income communities of color and youth can really be the main ones who benefit vs. everyone. Why make it free for those for city college students or those who have the life line. Hard to collect data right now during this time.

Recommendations:
- to look at how we can continue to reimagine the current fare inspector roles, as more of a wellness check-in and transit operator support roles - rather than fare enforcement during this pilot
- MTA & Controller & Transit Authority - come up with a more comprehensive report upon the end of the pilot
- After the pilot, include other ways to collect the data. Specifically, Black and students of colors, and including families as well.
- considering or implementing ways to either survey
- Hate crimes continue to impact AAPI communities with ongoing police brutality against Black communities, more specific language on who will benefit on free muni for all (low income, TAY, low income youth)

Commissioner Quick, seconded by Commissioner Arana, motions to support the legislation with the above recommendations. A roll call vote was taken. Motion passes with 15 ayes.

Roll Call Vote:
Jayden Tanaka, aye
Valentina Alioto-Pier, no
Lillian Tang, aye
Plyfaa Suwanamalik-Murphy, aye
Calvin Quick, aye
Gabrielle Listana, aye
Adrianna Zhang, aye
Gracie Veiga, aye
Ariana Arana, aye
Rome Jones, aye
Erika Morris, aye
Arsema Asfaw, aye
Sarah Cheung, aye
Sarah Ginsburg, aye
Nora Hylton, absent
Amara Santos, aye
6. **Presentations (All Items to Follow are Discussion and Possible Action)**

   A. [Inform + Discuss] Navigation Center for Transitional Aged Youth - Lower Polk St.  
      Presenter: Joi Jackson-Morgan, Executive Director, 3rd Street Youth Center & Clinic

3rd St. Youth Clinic is one of the providers of the TAY Navigation Center. At Post & Hyde. 700 Hyde is official address.

This is SF’s first TAY Navigation - first larger scale center that has beds onsite. This is really trying to help youth get to next stages in life.

“Come POST up at the youth HYDE out”.

This is a project that is an innovative opportunity to look at all aspects of what youth need experiencing homelessness; education, opportunities, and employment along with behavioral health services on site. Serves youth 18-27.

Partners - The Success Centers, D3 Community, HSH, Youth Homelessness Response System. Works like a dorm/res hall and so there are different services available and you could work on “your campus”. Youth can have the opportunity to work and prepare for their future on site (food, janitorial, cpr certification, interns, etc.)

TAY Nav Resident Wanye Harris - been there 4 months and prior was homeless for over a year. Has gotten him back to school and has a job now. They have weights if you don’t work, the staff are cool, clients are nice.

Space has 75 beds, everything is new, but only operates 43 beds due to COVID. Larkin only had 40 beds so this increase is huge. Already have youth who are exiting out because they have found housing and/or employment elsewhere. Recently started a Garden club. Hopefully, create a rooftop garden for mind, body, spirit. Hope is they could take a plant with them once they find housing.

Often get donations from many people and organizations. Divvy them up between clients. Food service has been helpful with a lot of their donations.

Understanding Youth Homelessness - 1,145 Youth Experiencing Homelessness:
   • 82% unsheltered
   • 46% identify as LGBTQ+
   • 75% are youth of color

SF Homeless Youth Response System - would love to be a part of this circle with the City in partnership with the response system and non profits.

This Center is Black led. First one ever to be Black led by born and raised SFers!

Launched in Spring 2019  
   • 6 Agency Partnership with 5 Youth Access Points (coordinated entry) and 1 mobile outreach team (about 98% come from HOT and not coordinated entry)
Goals:
• Proportional representation by race, ethnicity, sexual orientation, and gender identity
• Continue to prioritize clients for limited HSH-funding based on vulnerability, barriers to housing, and chronicity of homelessness

Overview
❖ 43 beds (COVID)--We are at capacity!!!!
❖ 75 total occupancy
❖ 24/7 access
❖ 3 meals and snacks
❖ Clinic
❖ Outdoor space
❖ Workforce development
❖ Art groups
❖ Therapy
❖ Harm reduction therapy + kits

Most youth are in the 18-24 age range. 66.67% identify as male, 26.67% identify as female, 4.44% identify as Trans Female

Two main racial groups are African American and white, but seeing in last month is Latinx, and 1 Asian client.

15.56% identify as disabled (varying physical, developmental)

Over a quarter have chronic health conditions and the client is HIV+.

Mental health is almost 50/50. Substance abuse (with harm reduction model) so they can come in not sober and/or using and they focus on their safety.

Chronic homelessness (3 months or more)- a little under half have been homeless for a long time. A majority of youth are living in space that weren’t supposed to be lived in (streets or park).

Majority of youth had been homeless more than a year.

Needs
❖ BEHAVIORAL HEALTH SERVICES (7 days a week)
❖ More clinic days
❖ Programming
❖ Art
❖ Wellness and recreational spaces
❖ Office spaces
❖ Incentives

Advocating for the second half of the space. No break out spaces or recreation or wellness rooms.
Timeline - working on adding more programs and services. In fall - hope to expand to full capacity of 75 beds.

Contacts ❖ Executive Director: Joi Jackson-Morgan, joi@3rdstyouth.org ❖ Case Manager Supervisor: Lakietha Sanford, lakietha@3rdstyouth.org ❖ Elisabet Medina, HSH Program Manager, elisabet.medina@sfgov.org

Commissioner Santos- thank you and your work is so important.

Questions:
Commissioner Asfaw - thank you for coming out, it means a lot to connect with us as we want to support our communities the best way we can.

1) how does entering the Nav center work? Do they just show up or go through a process and if there are any ways you want that process to improve or the YC can improve the process?

Joi - 2 ways to enter first - coordinated entry (6 access points) where they are assessed at the access point with housing referral status and can be offered housing second if they are on the streets and seen by Homeless Outreach Team (HOT) they can be referred that way. They can’t just walk in they have to be referred in.

Would love to have more space as a way to improve. It’s 3 floors but the bottom floor was supposed to be retail but now it sits empty. The space is really tiny right now so just advocating for the second floor which is 5000 square feet. But the bottom floor is 10000 square feet. If YC could come up with something on the bottom level that could benefit youth on the top.

2) Any other specific issues or areas of funding that you want the YC to focus on? We do have a Housing committee and this would be an issue to intersect with her TJ committee re: youth incineration. Can write resolutions and advocate to BOS.

Joi - grappling with need for behavioral health services around the clock. City has a formula to use for the Nav center and something she has been fighting for is behavioral health and is non-negotiable and is working with folks who have experienced a lot in a short amount of time. It’s not enough to have someone there 1-2 times a week. So some coordination between city departments and HSH around behavioral health services. HSH did not provide any providers and they have no budget to hire and they would need that push from us as well as at least the second half of the second floor. Due to legislation it was zoned as retail so have to stick with but the 2nd floor is up for grabs.

3) You mentioned job training and development, do you all have specific strategies to support undocumented youth?

Joi - We don't require youth to be documented. We’re happy to have helped some undocumented youth get jobs.

4) I liked how you focus on hope and letting youth know this isn't the end all be all. I know you said you're transitioning folks out - i think it’d be cool if youth could transfer out of the NAV and come back and be mentors to other youth. A suggestion.

Joi - Thank you. I think that has been part of our plan. We have youth who are now employed at the NAV center.
Commissioner Quick - thank you for presenting. I’d like to go back down, what was the original intent for the other half of the second floor? What are your ideas for what could be developed there? I think we can work with the Supes to promote some expansion.

Joi - first idea was for goodwill to be training/retail. The second half of the 2nd floor was going to be for a vendor, 5000 sq ft. sits empty right now. We look out at vacant space every day. In terms of what we see, we need break out groups. We need to be able to separate youth, for medical reasons or conflict reasons. There’s no wellness room, we don’t have a space for them to be, or privacy or cool down space. The second floor is to have more space for staff and youth. People have gone into the small rooms just to have some space.

Commissioner quick - i’m on the housing and land use committee and happy to see how we can get the city on board with this

Joi - we’re happy to provide a short tour. Even pushing to ask the city what their plan is for the first floor would be great because it’s just sitting there.

Commissioner santos - what are ways we as a commission can support this work, what are other ways we can support you as other young people in social activism?

Joi - I don’t know if we have a special meeting or having some of the young people go to a hlu meeting, just to hear their stories. 1. just our youth to learn about yc 2. and also having this as an agenda item and keeping us accountable. This is the start of our collaboration, holding us accountable, but also hearing what our young people are experiencing. Please I hope you all hold us accountable for our youth. Also, any donations- we’re always looking for hygiene kits. Even as youth transition out, we would love to give them home gifts to give them (cleaning supplies).

Commissioner Santos - I’d love to connect offline to get to know other young people. Just as you want accountability, we want it too.

Commissioner Santos - I’d like to ask Wanye, young person, what do you need? What are you missing?

Wanye - I have been hearing like weights, gym, or recreational activities to keep youth engaged. Like video games.

Santos - do you feel comfortable sharing your experience? or anything you think would be important for us to know about?

Wanye shared how he got into the Nav Center - I got kicked out of my parents house, stayed with friends, and then couldn't stay with them anymore. I entered the NAV center to an access point. I’m in school now and have a job. They’ve helped me get my SSD, CA ID, and other paperwork. I’m also a part of Rising Up.

Joi - He was assessed for housing through the Rising Up network.

Commissioner Santos - thank you for sharing. I’m happy that you were able to get the resources to get yourself situated.
Commissioner Quick - what is the typical wait time for housing? Is that a reliable system? Do you have thoughts about that as well?

Joi - Right now COVID is complicating the coordinated entry list. Most important right now is SIP youth, they are HSH priority. COVID now wait time is 1 year + (pre covid was 3 months). Shortly we anticipate folks on this list will start to move quickly once we close down the SIP Hotels. Bc of COVID there are now time caps on youth’s stay. Depending on Housing status, there are other youth who have been on the list for months. It’s frustrating for youth to have to be checking-in. We are hoping youth can move faster. We are grateful we have staff onsite who can do these assessments. They can get housing referred status or problem solving dollars.

Commissioner Quick - what is the process for being assessed as Housing Referral Status?

Joi - the number or benchmark that someone reaches is: how long has someone been homeless? What is the severity? In the systems accountability assessment, it is not strengths based. Youth have expressed it is re-traumatizing. Right now it’s based on the traumatizing experiences and services they need.

Commissioner Quick - going back to the housing referral list - there is one big list? that as units open up the city goes through and then go on a wait list? How site specific are the waitlist?

Joi - have over 180 ppl on the list trying to be housed. Going back to see if they're still homeless. in terms of phs, also w the sros thats an issue with youth as well. So it varies, to your point, on the types of services that are offered, but usually get 2-3 options or choices. Typically people get presented with at least two options to choose from. I hope that answers your question.

Commissioner Santos - Is there anything from your shared experience that you do not want on our notes?

Wayne - No, I don’t mind.

Commissioner Santos - great, just wanted to check-in with you.

We can also share these notes with you. They’ll be up within 48 hrs

Commissioner Santos - thank you for everything. this won't be the last time we’ll be talking

Joi - yes, thank you.

B.  [Inform + Decision] Empowerment Collective
    Presenter: Diego Bustamante, Youth Organizer

Empowerment Collective - group of high schoolers across state advocating for state bills that address youth issues across the state.

In its original form the Collective was a coalition for AB 46 (Youth Empowerment Act) and wants to know if SFYC can join EC in its new iteration for state bill advocacy. AB 46 and other slate of bills are now part of EC. Coalition composed of organizations and network of youth across the state as well as collegiate students. We are hoping sf youth can provide support for our platform and help outreach other youth to get involved with empowerment collective. Very wide range of
topics, but all that impact youth within all backgrounds across the state. Our asks: if you are up for it, appoint one of the members of the SFYC to be a member of our steering committee to build a stronger student base. We’ve also partnered with several of our members for a press conference, hope to do town halls and SFYC could by association help with that. The steering committee is basically at the top of the EC helping trying to career everything for the future. We had to reintroduce this to the commission to formally approve it, we have GenUp, BSA, etc. We have lots of partnerships already and have helped promote the agenda we’ve set up.

How we are organizing: organizing at the local level. Divided in seven regions (1. north cal.), we have regional directors to create these regions.

Asks:
- Sending YCer to be a member of steering committee
- It’s free, it means you support youth in policy making
- Choose what campaigns/bills to sign onto

Commissioner Santos reminded her colleagues that state wide leg is not necessarily the focus of the SFYC.

Commissioner Zhang - can you go more into detail about .. does that mean the yc would support every bill that the ec brings up?

Diego - Not obligatory of supporting every bill. You’d be listed as a member for the specific bill or campaign you’re interested in. Using the name and connections of students to advocate on behalf of those bills. I’m sorry, not sure if I answered your question.

Commissioner Zhang - Send letters of support and have the yc sign them?

Diego - That’s one way the yc would be involved, as well as the town halls you wouldn’t be obligated to publicize any of the campaigns you’re not interested in.

Commissioner Quick - Thank you diego for coming to present. You mentioned you’d be doing some town halls over the summer. Can you go into more detail about what those are about, who are you working with, and outreach for youth? I’m just interested to hear from a youth engagement perspective.

Diego - We just came up with some plans to host town halls. We’d be using our network and publicizing these events. These town halls would entail policy leads as well as bills, giving more info about campaigns and bills. We would be giving training and how to talk to legislators, and voice it out. Starting to plan town halls at the beginning of the week then later in the week talk to the legislators directly.

Commissioner Quick - Thank you, that’s my only question for now.

Commissioner Santos - I have a couple questions. When they meet is it through zoom or in person?

Diego - We’ve conducted everything online.
Commissioner Santos - my concern is, for example, undocu folks traveling. I’m very familiar with how the bay area views ICE, but don’t know how LA would. So wondering their comfortability for undocumented community. How would it be for undocu youth and other

diego - we talked about bussing, in our plans we’ve anticipated the current workflow will continue into the summer which means online. When talking to legislators it’ll also be online. I think this helps with accessibility for folks.

santos - is this compensated in any way economically?

diego - currently don’t have grants to provide stipends. it’s something we’re working on but can’t make concrete statements about that.

santos - hope there is an opportunity for undocumented youth people to get stipends. How do you all go about selecting the bills? There were a lot of child wealth bills. I’d like to hear more about that immigration bills.

Diego - I’m more in the organizing part of it but not in policy. I know Jason is helping with state of bills. As a member you’d be able to propose, removing a bill and coming to a consensus about what it should be. This has been as a result of Jason’s work. AB 367 was a cast bill and that was. so as our steering committee you’d be able to on immigration bills.

Commissioner Santos - glad to hear there’s flexibility about racial bills being applied and stuff.

Commissioner Asfaw - thank you. I was just wondering what the makeup of the empowerment collective looks like from a diversity standpoint? specific stats or a graph about a make up of it? what does the make up of the collective look like? How are you centering marginalized voice? how are you making it as inclusive and as representative of California?

Diego - I can tell you our eadering ship team- I am hispanic, director is mixed, media directors are both Asian Americans, we have a pretty diverse leadership team. do have to look into making it more diverse in certain regions. working with our partners to help make them more diverse. I’ll definitely relay info, this is something we need to do more- gather data on our diversity.

Public comment? no public comment.

Discussion:

Commissioner Asfaw - what is the difference between and supporting this? couldn’t we just review this leg ourselves and approve it ad hoc committee?

Commissioner Quick - from what I understand, the empowerment collective, if we would support the ec we would be a person from their steering committee who would support bills that we decide to support. I would recommend if we were to support the ec we would support we would limit our name being out there from the i think in terms of the difference i currently submit our letter on bills to the committees that are needed to. so that wouldn’t change, but we;d collectively support the crossover bills. Those bills would be AB71, SB234. I’m probably missing a couple but these are some of the bill.s
Commissioner asfaw - so we have to be careful of what we support?

Commissioner santos - i think we want to be specific about the ones we’ve priorly supported.

Commissioner Asfaw: my main concern is that we have to be sper selective of what we support, it’d be time consuming to look through the bills, and have to assign someone on the steering committee. The capacity is a lot.

Commissioner Santos - a lot of the commissioners don’t plan to reapply. we would be doing something/ voting for commissioners for the next year. then being very selective about the bills. have to be semicautious. When we had our time, i know to an extent, if it were to pass how would it affect the bay area? we can’t necessarily speak about the lived experiences of other districts, so even with that I'd be cautious and that's already in the same city. so to have that amplified in a state level, that would be uncomfortable for me.

Commissioner Quick - technical thing about the term overlap. The state legislative sessions, the main time commitment, would happen prior to the end of this term. And then the next year’s YC could reevaluate if they’d like to be a part of it.

Diego - right now this committee doesn't plan to go beyond the legislative session. We will end in the summer.

Commissioner Zhang - about capacity…actually never mind.

Commissioner Zhang will be supporting until the end of this term.

Motions:

Commissioner Quick, seconded by Commissioner Zhang, motions to support the EC one legislative cycle, support them specifically on the bills that the YC has already taken a stance on.

7. **Youth Commission Business (All Items to Follow are Discussion and Possible Action)**

A. [Inform + First Reading] Resolution No. 2021-AL-11 [2550 Irving - Affordable Housing]
   Sponsors: Commissioners Suwanamalik-Murphy and Tanaka
   Presenter: Commissioner Suwanamalik-Murphy
   (Document D)

   Commissioner Suwanamalik-Murphy read the resolution into the record.

   There was no public comment.

   Feedback:
   - Commissioner Santos: Thank you for presenting this to us. I remember talking about the common social misconception of affordable housing in wealthier neighborhoods. In terms of feedback, I hear a lot of youth focus - one piece of feedback is a statistic of who is being impacted by gentrification, who can't afford state housing, statistics around racial identities, as well as data how marginalized communities are impacted, like LGBTQ+ folks
   - Commissioner Quick: I echo what commissioner santos said about the importance of this resolution and combating the misconceptions of affordable housing in exclusionary neighborhoods. I am very in favor of this resolution.

B. [Inform + First Reading] Resolution No. 2021-AL-12 [John F. Kennedy Drive & Great Highway Closures Resolution]
   Sponsor: Commissioners Tanaka and Quick
   Presenter: Commissioner Tanaka
   (Document E)

   Commissioner Tanaka read the resolution into the record.

   Public comment:
   - Hayden Miller supports this resolution and supports it. Page 3 line 6-8 talks about separate between bikes and pedestrian and beauty of the space already separates both parties. Putting up a physical barrier would take away from it.

   Feedback:
   - Commissioner Santos: I know you prefaced this with the presentation at the last FYC meeting, I wasn there, and I know some Commissioners raised concerns
   - Tanaka: last meeting we heard from the SF Bicycle Coalition who is advocating for the closure of JFK.
   - Commissioner Quick: Yes, this resolution is a bit redundant, but we’d like to formalize the YC’s position on this. We will be hearing from city agencies at our next meeting who will be able to speak to the concerns raised by Supervisor Walton and Commissioner Asfaw.

C. [Inform + First Reading] Resolution No. 2021-AL-13 [Seamless Transit Principles]
   Sponsor: Housing and Land Use Committee
   Presenter: Commissioner Quick
   (Document F)
Commissioner Quick read the resolution into the record.

Public Comment:

Ethan, urges you to support even though he doesn't live in the city but travels in the city frequently. Would have to pay three fares because of where he lives. We need a regional approach that doesn't benefit individual areas. Please support seamless transit principles.

Adina - Advocacy Director at community organization. Principles are key part of building change and youth groups/students have signed onto these principles because so many youth depend on transit. Listed many of the supporters.

Hayden Miller - about time to have a unified system. one example how it'll benefit youth-going up to Davis, had to take muni, had to pay the muni fare, pay bart fare, and pay another fare, (paid 4 fares) and the time took 4 hours. also other inconsistencies- was charged from. there’s so many little things that's so frustrating to use transit. a lot of youth are forced to use transit and ther’s also a lot of barriers to only using transit.

Fred Kahan - lives in Oakland, depends on public transportation. it's a headache to manage all these systems. If you look at highways, they are systems that can get you from one place to another. we need to give the most flexibility. There needs to implement these principles, it'll be a lot easier, as an urban region we should have urban systems so please support this.

Feedback:
- Commissioner Santos - thank you for this resolution. Public transportation specifically focused on equitable access and general accessibility is under discussed in local government and at large

D. [Inform + First Reading] Resolution No. 2021-AL-14 [Student Pedestrian Safety During School Reopening - Slow Streets]
Sponsor: Commissioner Quick
Presenter: Commissioner Quick
(Document G)

Commissioner Quick read the resolution into record.

Public Comment:
Hayden - the real barrier is that a lot of kids and parents don’t feel safe. it also helps us reach transit first. its also good to reduce carbon emissions from cars hopefully. i’m really glad the yc is noticing this and taking action. not ok for people to come along and force us to sit through these public hearings… it’s really frustrating the principles did that and glad the yc is taking action.

8. Committee Reports (Discussion Only)
   A. Executive Committee
      a. LAO
i. 2 weeks ago Bos introduced a resolution and passed it last week the AB40 the yc is also supporting. can contact commissioner quick for more info about it

ii. budget update from, giving a mid cycle budget update

iii. one seat appointed by the bos that is currently vacant on the police commission.

iv. last week there were a few things introduced - pre muni pilot fund, a resolution introduced by sup. Walton, on CART.

v. a couple hearing about

vi. reminder that there’s one month until the mayor’s budget comes out

b. Comms

   i. Conducting outreach for YC apps
   
   ii. Focused on YC info sessions for perspective apps

      1. Next one is Wednesday 5/5 would love to have you attend, reach out to Comms if you can make it

   iii. Podcast - submitted grant

c. General Committee Updates

   i. None

B. Civic Engagement

   a. Continued discussion re: Vote16 poll on different poll options and costs
   
   b. League of Women Voters offered to help us administer our poll

C. Housing and Land Use

   a. Had presentation on seamless transit principles from Bay Area board member and voted to support it
   
   b. Discussed two resolutions
   
   c. Reviewed Grand Challenge updates

[Youth Commission Response to Referral of BOS File No. 210459 - Supporting the Establishment of a Compassionate Alternative Response Team]

Motion approving support for Board of Supervisors File No. 210459, a resolution supporting the establishment of a Compassionate Alternative Response Team.

WHEREAS, On April, 19, 2021, the Youth Commission received a community presentation on the Compassionate Alternative Response Team ("CART") proposal to provide a community-led and trauma-informed non-police response to homelessness; and

WHEREAS, At the same meeting, the Youth Commission adopted a motion to support the CART framework and proposal; and

WHEREAS, The Board of Supervisors has referred BOS File No. 210459, a resolution supporting the establishment of a Compassionate Alternative Response Team, to the Youth Commission for comment and recommendation; now, therefore, be it

MOVED, That the Youth Commission supports BOS File No. 210459, in line with the Youth Commission’s prior motion of support for the CART framework and proposal.
MEMORANDUM

TO: Kiely Hosmon, Director
   Youth Commission

FROM: Angela Calvillo, Clerk of the Board

DATE: May 13, 2021

SUBJECT: REFERRAL FROM BOARD OF SUPERVISORS

The Board of Supervisors has received the following proposed legislation which is being referred to the Youth Commission as per Charter, Section 4.124 for comment and recommendation. The Commission may provide any response it deems appropriate within 12 days from the date of this referral.

File No. 210459

Resolution supporting the establishment of a 24 hours a day / seven days a week Compassionate Alternative Response Team (CART) in the City and County of San Francisco for a safer and more effective response to homelessness.

Please return this cover sheet with the Commission’s response to Victor Young, Assistant Clerk, Rules Committee.

Resolution supporting the establishment of a 24 hours a day / seven days a week Compassionate Alternative Response Team (CART) in the City and County of San Francisco for a safer and more effective response to homelessness.

WHEREAS, The roots of our local homelessness crisis can be traced, in part, to federal divestment from the funding of affordable housing, and local municipalities have been left to manage the crisis without the tax base of the federal government; and

WHEREAS, In many municipalities, including San Francisco, local police departments have acted by default as the front line response to homelessness; and

WHEREAS, Instead of creating and facilitating viable exits from homelessness, a police based response creates a costly revolving door, circulating individuals experiencing homelessness from corner to corner and in and out of the criminal justice system; and

WHEREAS, The United States Interagency Council on Homelessness (USIAC) issued a report in August of 2015 outlining best practices for addressing homelessness entitled “Ending Homelessness for People Living in Encampments: Advancing the Dialogue,” which includes guidelines on how to address homelessness and puts forward that linking unhoused people to an appropriate level of housing is the only lasting solution; and

WHEREAS, The 2019 San Francisco Homeless Count and Survey found 8,035 unhoused individuals with 5,180 unsheltered and 2,855 accessing some form of shelter; and

WHEREAS, The number of individuals experiencing homelessness in San Francisco far exceeds the number of available temporary shelter beds and transitional or permanent housing; and

Supervisors Haney; Preston, Ronen, Walton
BOARD OF SUPERVISORS
WHEREAS, The City and County of San Francisco received more than $44 million in federal McKinney-Vento funding for projects addressing homelessness last year, and the Department of Housing and Urban Development (HUD) has created funding incentives for communities to ensure that persons experiencing homelessness are not deemed criminals because of their use of public space for survival; and

WHEREAS, The Ninth Circuit Court of Appeals rejected an en banc petition by the City of Boise in Martin v. Boise (formerly Bell v. Boise), upholding its September 2018 ruling that homeless persons may not be punished for sleeping outside on public property in the absence of adequate alternatives; and

WHEREAS, The number of police officers devoted to responding to homelessness has increased from 24 in 2017 to over 80 in 2019, and on average, the San Francisco Police Department (SFPD) responds to 179 homelessness-related incidents daily, or 1,253 per week; and

WHEREAS, According to San Francisco’s Department of Emergency Management (DEM) data, SFPD was dispatched to 65,333 homelessness-related calls in 2019; and

WHEREAS, When calls are made to the city expressing concern for unhoused people, SFPD remains the primary agency dispatched in response; and

WHEREAS, A report issued by the Budget and Legislative Analyst’s Office (BLA) in May 2016 found that police officers dispatched to incidents related to quality of life laws produced limited results given the increase in homelessness on the streets; the BLA subsequently recommended that the Board of Supervisors should implement a new strategy to address these issues that shifts response to quality of life incidents away from the Police Department to other City agencies including the Department of Homelessness and Supportive Housing; and
WHEREAS, Currently, San Franciscans are advised to call the Police Non-Emergency line for homelessness-related concerns such as encampments blocking the sidewalk or to contact 311 for concerns about social distancing compliance in encampments; and

WHEREAS, In recent years San Francisco has relied more heavily on 311 to address homeless encampments, which has led to a sharp increase in encampments being “removed” or moved rather than the unhoused being supported with placements or services; and

WHEREAS, Alternative models such as Crisis Assistance Helping Out on the Streets or “CAHOOTS,” a mobile crisis intervention response and support team located in Eugene, Oregon in which health workers, instead of police, act as first responders, already provide a framework for an alternative to police response to homelessness; and

WHEREAS, In January 2020, the San Francisco Police Commission adopted a Resolution urging the creation of a stakeholder group that would make recommendations to the Board of Supervisors, Mayor’s Office, and appropriate commissions on how to transform our response to homelessness from one led by law enforcement into one led by trained health and human services workers based on exploring alternatives to a police response that exist in the United States and other countries; and

WHEREAS, The Police Commission further urged that the stakeholder group would identify funding sources, appropriate dispatch protocol, necessary system changes and appropriate service model to move from a police response to a more effective health and human services response to homelessness; and

WHEREAS, San Francisco is already exploring alternatives to police response to psychiatric crisis in public spaces by establishing the Street Crisis Response Team (SCRT); the program provides rapid, trauma-informed response to calls for service for people experiencing psychiatric crisis in public spaces in order to reduce law enforcement encounters and unnecessary emergency room use; the program has already successfully diverted more
than 79 calls for service from SFPD during its pilot period and demonstrated that utilizing a
service-based interdisciplinary team in response to street crisis is a powerful and effective
model; and

WHEREAS, The city’s newly created SCRT by design and plan does not respond to
dispatch radio codes 910 (check on well being), 915 (homeless encampment), 916
(suspicious person in a vehicle), 917 (suspicious person), 919 (sit/lie ordinance violations),
and 920 (aggressive panhandling) leaving no current alternative other than a police response;
and

WHEREAS, The Compassionate Alternative Response Team (CART) proposal
provides a framework for CART to respond to C-Priority Calls involving unhoused people in
the City, on the street, or in temporary shelters including dispatch radio codes 800 (mentally
disturbed person) that SCRT does not have capacity to respond to, 801 (person attempting
suicide), 910 (check on well being), 915 (homeless encampment), 916 (suspicious person in a
vehicle), 917 (suspicious person), 919 (sit/Lie ordinance violations), and 920 (aggressive
panhandling) 24 hours a day 7 days a week; and

WHEREAS, The CART model is made up of two components, the first being CART
Dispatch Response, which provides a specialized police-alternative to calls involving
unhoused people in crisis; CART Dispatch Response also establishes a new hotline for CART
and create a CART specific dispatch code; and

WHEREAS, The second component of CART, the Street Response, would serve,
engage, and problem solve with housed San Franciscans and businesses around
homelessness; and

WHEREAS, CART, being informed by a recent survey of homeless in San Francisco,
would hire Crisis Response Staff as well as Community Engagement Staff distinguishable
from law enforcement with backgrounds and lived experiences with homelessness, poverty,
crisis response, and the provision of services, and would seek to hire response staff that
match the racial and LGBTQ demographics of the unhoused clients being served; and

WHEREAS, CART would be funded and staffed 24 hours a day / 7 days a week; and

WHEREAS, The two-prong scope of the CART program will divert a significant number
of homelessness-related calls away from SFPD, while building capacity within San
Francisco’s neighborhoods to de-escalate and compassionately resolve homelessness-
related conflicts, thereby reducing the total number of homelessness-related calls made to
dispatch, reducing police interactions with those experiencing homelessness, and improving
outcomes for those on the streets; and

WHEREAS, The CART response focuses on the well-being of the unhoused, an
approach that is foundational to the CAHOOTS model, and will affirm the civil rights of those
experiencing homelessness, as well as problem-solve issues faced by the housed and by
businesses; and

WHEREAS, It is recommended that CART be funded by a diversion of funds from
various carceral system budgets, which could be achieved by cost-savings associated with
implementing a non-police response; the BLA estimates that the City currently spends $18.5
million on police responses to homelessness, the CART model would replace these services
at an estimated cost of $6.8 million, which would provide the city with a projected $11 million
cost savings; now, therefore, be it

RESOLVED, That the Board of Supervisors concurs with the Police Commission’s
recommendation that the City must transform our response to street homelessness from one
led by law enforcement into one led by trained health and human services workers; and, be it

FURTHER RESOLVED, That the Board of Supervisors supports the framework of the
Compassionate Alternative Response Team that dramatically expands the City’s capacity to
respond to street homelessness through revising dispatch response; and, be it
FURTHER RESOLVED, That the Board of Supervisors urges the Mayor to include additional funding for homeless outreach.

WHEREAS, In January 2020, the San Francisco Police Commission adopted a resolution urging the creation of a stakeholder group that would make recommendations to the Board of Supervisors, Mayor’s Office, and appropriate commissions on how to transform our response to homelessness from one led by law enforcement into one led by trained health and human services workers based on exploring alternatives to a police response that exist in the United States and other countries; and

WHEREAS, The Police Commission further urged that the stakeholder group would identify funding sources, appropriate dispatch protocol, necessary system changes and appropriate service model to move from a police response to a more effective health and human services response to homelessness; and

WHEREAS, San Francisco is already exploring alternatives to police response to psychiatric crisis in public spaces by establishing the Street Crisis Response Team (SCRT); the program provides rapid, trauma-informed response to calls for service for people experiencing psychiatric crisis in public spaces in order to reduce law enforcement encounters and unnecessary emergency room use; the program has already successfully diverted more than 79 calls for service from SFPD during its pilot period and demonstrated that utilizing a service-based interdisciplinary team in response to street crisis is a powerful and effective model; and

WHEREAS, The city’s newly created SCRT by design and plan does not respond to dispatch radio codes 910 (check on a well being), 915 (homeless encampment), 916 (suspicious person in a vehicle), 917 (suspicious person), 919 (sit/lie ordinance violations).
and 920 (aggressive panhandling) leaving no current alternative other than a police response; and

WHEREAS, The Compassionate Alternative Response Team (CART) proposal provides a framework for CART to respond to C-Priority Calls involving unhoused people in the City, on the street, or in temporary shelters, including dispatch radio codes 800 (mentally disturbed person) that SCRT does not have capacity to respond to, 801 (person attempting suicide), 910 (check on well being), 915 (homeless encampment), 916 (suspicious person in a vehicle), 917 (suspicious person), 919 (sit/Lie ordinance violations), and 920 (aggressive panhandling) with a 24 hours a day/7 days a week response; and

WHEREAS, The CART model is made up of two components, the first being CART Dispatch Response, which provides a specialized police-alternative to calls involving unhoused people in crisis; CART Dispatch Response also establishes a new hotline for CART and create a CART specific dispatch code; and

WHEREAS, The second component of CART, the Street Response, would serve, engage, and problem solve with housed San Franciscans and businesses around homelessness; and

WHEREAS, CART, being informed by a recent survey of homeless in San Francisco, would hire Crisis Response Staff as well as Community Engagement Staff distinguishable from law enforcement with backgrounds and lived experiences with homelessness, poverty, crisis response, and the provision of services, and would seek to hire response staff that match the racial and LGBTQ demographics of the unhoused clients being served; and
WHEREAS, CART would be funded and staffed 24 hours a day / 7 days a week; and

WHEREAS, The two-prong scope of the CART program will divert a significant number of homelessness-related calls away from SFPD, while building capacity within San Francisco’s neighborhoods to de-escalate and compassionately resolve homelessness-related conflicts, thereby reducing the total number of homelessness-related calls made to dispatch, reducing police interactions with those experiencing homelessness, and improving outcomes for those on the streets; and

WHEREAS, The CART response focuses on the well-being of the unhoused, an approach that is foundational to the CAHOOTS model, and will affirm the civil rights of those experiencing homelessness, as well as problem-solve issues faced by the housed and by businesses; and

WHEREAS, It is recommended that CART be funded by a diversion of funds from various carceral system budgets, which could be achieved by cost-savings associated with implementing a non-police response; the BLA estimates that the City currently spends $18.5 million on police responses to homelessness, the CART model would replace these services at an estimated cost of $6.8 million, which would provide the city with a projected $11 million cost savings; now, therefore, be it
RESOLVED, That the Board of Supervisors concurs with the Police Commission’s recommendation that the City must transform our response to street homelessness from one led by law enforcement into one led by trained health and human services workers; and, be it

FURTHER RESOLVED, That the Board of Supervisors supports the framework of the Compassionate Alternative Response Team that dramatically expands the City’s capacity to respond to street homelessness through revising dispatch response; and, be it

FURTHER RESOLVED, That the Board of Supervisors urges the Mayor to include additional funding for homeless outreach.
Resolution urging the Board of Supervisors to accelerate the proposed affordable housing development on 2550 Irving and reserve units for low-income transitional age youth as well as youth and their families.

WHEREAS, The development proposed for 2550 Irving St. would provide family-friendly housing for households earning between $27,000 and $102,000; and

WHEREAS, The proposed development is intended to provide family-friendly housing for San Francisco’s essential workers in the following fields: healthcare, childcare, education, non-profit services, construction, and retail; and

WHEREAS, The development would provide 90-100 units for youth and their families with the construction start date of 2023; and

WHEREAS, The proposed development includes a seven-story building that includes up to 100 studios, and 1-, 2-, and 3-bedroom apartments; and

WHEREAS, The Sunset has the third-highest number of children in San Francisco’s eleven districts, and 2550 Irving’s proximity to high performing schools makes it a prime location for affordable family housing; and

WHEREAS, Many of the apartments will be reserved for households who live in the Sunset or have been displaced from housing in San Francisco, expanding access and opportunities for families and children; and

WHEREAS, Youth and their families will have increased accessibility to public transportation, public libraries, museums, and Golden Gate Park, due to the proposed development’s proximity to these services; and
WHEREAS, Post COVID-19, the proposed development will help address the increased need for affordable housing for low and middle-income essential workers, youth, and their families; and

WHEREAS, The proposed development is the first step toward affordable housing throughout the City and resolving the housing crisis; and

WHEREAS, With a reduced financial burden, youth will have more time to focus on their interests, academics, and extracurriculars; and

WHEREAS, With the proposed development, youth will have housing security, thus creating an environment that encourages physical and intellectual development; and

WHEREAS, The proposed development alleviates any concerns youth and their family may have towards housing instability, thus improving their mental and physical health; and

WHEREAS, The development’s affordable units of housing encourage positive financial outcomes and increase the safety of youth; and

WHEREAS, A study from Rebecca Diamond and Timothy McQuade of Stanford Business School analyzing the affordable housing built under the Low Income Housing Tax Credit (LIHTC) program shows that in low- and high- income neighborhoods, the implementation of affordable housing does not lead to a decrease in public safety, and even increases public safety in low-income neighborhoods; now, therefore, be it

RESOLVED, That the Youth Commission urges the Board of Supervisors to confront the crisis of housing insecurity for working, low to middle-class families, and the homeless population of transitional age youth; and, be it

FURTHER RESOLVED, That the Youth Commission urges the Board of Supervisors to minimize or eliminate the number of parking spaces on-site in order to maximize more units of housing and to fulfill San Francisco’s goal of becoming carbon neutral and reducing greenhouse gas emissions; and, be it
FURTHER RESOLVED, That due to the urgent need for affordable and supportive housing, the Youth Commission urges the Board of Supervisors to expedite the proposed development with the construction start date of 2022; and, be it

FURTHER RESOLVED, That the Youth Commission urges the Board of Supervisors to reserve affordable housing units specifically for transitional age youth within the proposed development at 2550 Irving; and, be it

FURTHER RESOLVED, That the Youth Commission urges the Board of Supervisors to reserve permanents units of housing for youth who are homeless or have been homeless and work with agencies such as Larkin, 3rd Street Youth Clinic, and LYRIC to connect youth to these units of housing; and, be it

FURTHER RESOLVED, That the Youth Commission recognizes the misinformation being spread around the proposed development and urges the Board of Supervisors to engage in community education, discussion, and work with community-based organizations to address the negative stigma that often follows conversations about the implementation of affordable housing; and, be it

FURTHER RESOLVED, That the Youth Commission urges the Board of Supervisors to address the lack of supportive and affordable housing in the Sunset, western neighborhoods, and throughout the City, and partner with organizations to spur more developments similar to that on 2550 Irving.
Resolution supporting the Seamless Transit Principles, as described, and urging various decision-makers, including the Board of Supervisors, San Francisco Municipal Transportation Agency, San Francisco County Transportation Authority, and others, to adopt and implement the aforementioned Seamless Transit Principles.

WHEREAS, The San Francisco Bay Area, despite being an exceptional place to live, faces an uncertain future due to several interrelated crises—decreasing housing affordability, increasing congestion, rising pollution, widening inequality, and the recent COVID-19 public health crisis—all of which are exacerbated by an inadequate and poorly-performing public transportation system; and

WHEREAS, Despite billions of dollars of investments in new transportation infrastructure over the past five decades, public transit in the Bay Area has failed to attract large numbers of new riders, and has never been used by more than 12% of the population for commute trips since 1970; by contrast automobiles have always been used for over 75% of commute trips; and

WHEREAS, The quality of and usage of public transit in the Bay Area has declined in recent years, with transit trips per capita declining by 10%, average bus speeds declining by 9%, and transit commute times increasing by 11% between 2001 and 2016; and

WHEREAS, The California Air Resources Board reported in 2018 that no California regions, including the Bay Area, are on track to meet their greenhouse gas reduction targets, with increasing Vehicle Miles Travelled (VMT) and declines in transit ridership cited as a primary factors; and
WHEREAS, Using public transit in the Bay Area is inconvenient and costly for many types of trips, requiring riders to: use multiple transit systems operated independently with little coordination; pay multiple separate fares; experience unpredictable transfers; and navigate different wayfinding systems and brand identities; and

WHEREAS, Low-income people, many of whom have experienced displacement and have long commutes requiring multiple transit services, are among the most adversely affected the Bay Area’s poorly integrated public transportation system, experiencing a significant financial burden from needing to pay multiple separate transit fares or being forced into costly vehicle ownership; and

WHEREAS, According to 2013 data from the UC Berkeley Center for Cities and Schools, 25% of San Francisco Unified School District students rely on public transportation to get to and from school; and

WHEREAS, Many youth rely on both Bay Area Rapid Transit (“BART”) and San Francisco Municipal Transportation Agency (“SFMTA”) -run transit services to get to and from school and for other purposes, requiring them to pay two fares; and

WHEREAS, Additionally, some youth who live in San Francisco attend schools outside of San Francisco, and vice versa, requiring even more transfers; and

WHEREAS, Different transit agencies have different discount programs for youth, which can pose an additional administrative challenge for youth who rely on public transit; and

WHEREAS, Regions with high-ridership public transportation systems are characterized by highly integrated networks of quality local and regional transit services that make traveling without a private automobile convenient and easy for all types of trips, featuring aligned routes and schedules, coordinated transfers, high quality transit hubs, common branding and customer information, and other common regional customer experience standards; and
WHEREAS, Regions that have successfully integrated and simplified transit fares have experienced many broad social benefits, including a shift in travel from private cars to public transit, an increase in overall public transit usage, and expanded mobility options and cost savings for riders; and

WHEREAS, A well-functioning and coordinated transit system plays a critical role in supporting public health and safety during an emergency, with 31% of Bay Area essential workers relying off public transit to get to work, and in supporting an economic recovery; and

WHEREAS, During and in the aftermath of major disruptions to our transit system, close coordination among agencies facilitates prioritization of the most critical needs, efficient deployment of resources, and clear communication to customers; now, therefore, be it

RESOLVED, That the Youth Commission, upon the recommendation of its Housing and Land Use Committee, supports the Seamless Transit Principles outlined as follows:

1) Run all Bay Area transit as one easy-to-use system;
2) Put riders first;
3) Make public transit equitable and accessible to all;
4) Align transit prices and passes to be simple, fair, and affordable;
5) Connect effortlessly with other sustainable transportation;
6) Plan communities and transportation together; and
7) Prioritize reforms to create a seamless network; and, be it

FURTHER RESOLVED, That Youth Commission urges the San Francisco Board of Supervisors, SFMTA, San Francisco County Transportation Authority, BART Board, and all other transit agencies operating within the limits of the City and County of San Francisco, as well as the Metropolitan Transportation Commission, to adopt and implement the Seamless Transit Principles as outlined above; and, be it
FURTHER RESOLVED, That the Youth Commission directs Youth Commission staff to forward this resolution to the City and County of San Francisco’s state legislative delegation.
MEMORANDUM

TO: Kiely Hosmon, Director, Youth Commission
FROM: Linda Wong, Assistant Clerk
Budget and Appropriations Committee

DATE: May 3, 2021

SUBJECT: HEARING MATTER INTRODUCED

The Board of Supervisors’ Budget and Appropriations Committee has received the following hearing request, introduced by Supervisor Hillary Ronen on April 13, 2021. This item is being referred to the Youth Commission for comment and recommendation.

File No. 210405
Hearing to discuss food insecurity and hunger in San Francisco; to present priorities and recommendations, unmet need, programs currently in place, organization and coordination between programs, gaps and barriers, lessons learned from COVID response, and opportunities for leveraging public and private funds and in-kind resources; requesting the Food Security Task Force to report; and requesting the San Francisco Unified School District, Department of Children, Youth and Their Families, Office of Early Care and Education, First 5, Human Services Agency, Department of Homelessness and Supportive Housing, and Department of Aging and Adult Services to be available for questions.

Please return this cover sheet with the Commission’s response by email to: Linda.Wong@sfgov.org.

RESPONSE FROM YOUTH COMMISSION

Date: __________________________

___ No Comment

___ Recommendation Attached

Chairperson, Youth Commission
Introduction Form
By a Member of the Board of Supervisors or Mayor

I hereby submit the following item for introduction (select only one):

☐ 1. For reference to Committee. (An Ordinance, Resolution, Motion or Charter Amendment).
☐ 2. Request for next printed agenda Without Reference to Committee.
☒ 3. Request for hearing on a subject matter at Committee.
☐ 4. Request for letter beginning :'Supervisor inquiries"
☐ 5. City Attorney Request.
☐ 6. Call File No. from Committee.
☐ 7. Budget Analyst request (attached written motion).
☐ 10. Topic submitted for Mayoral Appearance before the BOS on

Please check the appropriate boxes. The proposed legislation should be forwarded to the following:

☐ Small Business Commission ☐ Youth Commission ☐ Ethics Commission

☐ Planning Commission ☐ Building Inspection Commission

Note: For the Imperative Agenda (a resolution not on the printed agenda), use the Imperative Form.

Subject:
Hearing on food insecurity and hunger in San Francisco

The text is listed:
Hearing on food insecurity and hunger in San Francisco. Requesting Food Security Task Force to present annual report, priorities, and recommendations; and SF Unified School District; Department of Children, Youth & Their Families; Office of Early Care & Education; First 5; Human Services Agency; Department of Homelessness & Supportive Housing; and Department of Aging & Adult Services to report on unmet need among constituents they serve, programs currently in place, organization and coordination between programs, gaps and barriers, lessons learned from COVID response, and opportunities for leveraging public and private funds and in-kind resources.

Signature of Sponsoring Supervisor: /s/ Hillary Ronen

For Clerk's Use Only
Goals of the Working Group

● Advance conversation and build consensus among major stakeholders about shared values and needs.

● Identify ways to improve travel to, from, and within Golden Gate Park.
Background

April 2020
Mayor Breed designates JFK Drive car-free on weekdays

Fall 2020
District 1 Commissioner Fewer requests a working group to assess park access needs

Now
Findings of the working group

Next Steps
Rec/Park and SFMTA process builds on working group findings to evaluate alternatives for JFK Drive and improve park access
SFMTA transit lines serving Golden Gate Park
JFK Drive has:

18% of the total parking East of Transverse Dr.

27% of the total accessible parking East of Transverse Dr.
Collisions in Golden Gate Park, East of Transverse Drive (Excluding Highway 1)
Between 2014 and 2019 there were 30 collisions along JFK drive, East of Transverse.

Total Collisions: 91
Total Victims: 0 killed, 104 injured
Pedestrian Collisions: 20 (21.9%)
Bicycle Collisions: 40 (43.9%)

27 collisions occurred at the intersection of MLK and Highway 1 (not shown). Safety challenges at this intersection may warrant a separate analysis.

Source: Statewide Integrated Traffic Records System (SWITRS), 2019 data is provisional
Working Group Membership

17 active members representing:

- Short distance park visitors and adjacent neighborhoods
- Long distance park visitors
- Citywide park interests
- Park institutions
- Merchants
- Pedestrians
- Bicyclists
- People with disabilities
- Seniors
- Families with children
### Working group Process

#### Final Products

Identified values, needs, and the Action Framework. The Recreation and Park Department and the SFMTA will build on these findings as they conduct additional public outreach, implement access improvements, and evaluate alternatives for John F. Kennedy Drive.
Findings – Needs

- Access for key groups, including youth, seniors, people with disabilities, communities of color, and park volunteers
- Clear wayfinding signage for pedestrians, bicycles, and vehicles
- Improved signage for the park shuttle
- Safe access from adjacent neighborhoods
- Safe and efficient transit
- Access for children
- Improved parking management
- Enable regional tourism
- Provide clear communications
- Clarify decision making process
Findings – Action Framework

**Highlights**

- 42 Identified actions
- Short Term and Long Term Actions
- Primarily identifies actions that are the responsibility of Rec/Park and the SFMTA, however coordination with other partners such as the de Young and Cal Academy will be necessary

**Action Categories**

- Communication and Timeline/Process
- Westside Operation Analysis
- Access for People with Mobility Challenges
- Loading and Circulation
- Wayfinding/Signage/Safe and Comfortable Navigation
- In-Park Mobility Services
- Street Parking
- Parking Garage
- Transit and Regional Access
- Surrounding Streets
Findings – Action Framework

Highlights
● 42 Identified actions
● Short Term and Long Term Actions
● Primarily identifies actions that are the responsibility of Rec/Park and the SFMTA, however coordination with other partners such as the de Young and Cal Academy will be necessary

Action Categories
● Communication and Timeline/Process
● Westside Operation Analysis
● **Access for People with Mobility Challenges**
● Loading and Circulation
● Wayfinding/Signage/Safe and Comfortable Navigation
● In-Park Mobility Services
● Street Parking
● Parking Garage
● **Transit and Regional Access**
● Surrounding Streets
## Example 1: Access for people with mobility challenges

### Short-Term Actions

RPD – Install new ADA “blue zone” parking on park streets, especially close to the Dahlia Garden and Conservatory of Flowers

RPD – Repurpose part or all of the tour bus parking lot behind the bandshell on the Music Concourse

### Long-Term Actions

RPD – Pursue equitable ADA parking solutions in the garage

RPD – Assess pavement conditions and pursue path and pavement improvements in-park where necessary
Example 2: Transit and Regional Access

**Short-Term Actions**

**SFMTA** – Continue to expand transit service as part of the SFMTA COVID recovery plan, including return of the N-Judah line and improvements along the 44-O'Shaughnessy bus route.

**RPD** – Actively monitor garage occupancy levels to understand whether there are periods when garage space is unavailable to visitors arriving by vehicle.

**Long-Term Actions**

**SFMTA/SFCTA** – Prioritize developing equitable, accessible, and time-competitive non-auto transportation options for residents in the southeast and Chinatown.

**RPD/SFMTA** – Explore redesign of Golden Gate Park Shuttle Service

**RPD/SFMTA** – Explore system of “parking nodes” within the park paired with mobility services

**RPD/SFMTA** – Work with park museums to develop institutional Travel Demand Management Plans

**RPD/SFMTA** – Explore improvements to park transit stops such as lighting and shelters.

Any Questions?
sfcta.org/ggp-stakeholder
Resolution urging the San Francisco Municipal Transportation Agency, the San Francisco County Transportation Authority, and the Recreation and Parks Department to consider various parameters for an equitable plan to support the long-term closure of John F. Kennedy Drive and the Great Highway to cars.

WHEREAS, In April of 2020 and as a part of the City’s Slow Streets Initiative, stretches of road throughout San Francisco were closed off to cars to prioritize recreational activity for citizens during the emergency stay at home order due to COVID-19; and

WHEREAS, Closures as a part of the Slow Streets program were initially intended to be temporary, but have since been extended for certain stretches of road to maintain recreational and community spaces throughout and beyond the pandemic; and

WHEREAS, The Great Highway and John F. Kennedy ("JFK") Drive in Golden Gate Park, which can be considered significant thoroughfares in the City, were closed as a part of the Slow Streets program and have remained closed throughout the COVID-19 pandemic; and

WHEREAS, Both the Great Highway and JFK Drive have served as valuable community and recreational spaces for citizens amidst the pandemic; and

WHEREAS, Closing JFK Drive is a step toward increasing pedestrian and cyclist safety, especially on a thoroughfare like JFK Drive which is on the City's High Injury Network map; and

WHEREAS, Since the closure of JFK Drive to cars, Golden Gate Park has seen a 23% increase in people biking, walking and running along the closed section of JFK, with pedestrian visits up 42%; and
WHEREAS, 4,700 parking spaces remain available in the park representing 83% of the parking spaces in the park; and

WHEREAS, An initial survey conducted by the San Francisco County Transportation Authority (“SFCTA”), which had nearly 4,000 responses from throughout the City, showed that 53 percent of respondents citywide supported the permanent closure of the Great Highway and its conversion to a permanent promenade; and

WHEREAS, San Francisco youth benefit from the increased pedestrian safety provided by the closures of the Great Highway and JFK Drive to cars; and

WHEREAS, The addition of more car-free space in San Francisco aligns with the Child Friendly City initiative that the Board of Supervisors adopted in File No. 191158, which was supported by the Youth Commission in YC File No. 1920-RBM-04; and

WHEREAS, Relative to the closure of JFK Drive in Golden Gate Park there are however concerns regarding the accessibility of Golden Gate Park for people with disabilities and the elderly, which predate the temporary closure of JFK Drive to cars during the pandemic but have been brought to the fore during discussion around a permanent closure; and

WHEREAS, In the context of a history of excluding residents from the south-east quadrant of the City, particularly Black residents and other residents of color, from accessing Golden Gate Park, the closure of JFK Drive has the potential to exacerbate existing challenges in accessing Golden Gate Park if it is not coupled with an investment in robust alternatives to driving to Golden Gate Park for south-east residents, including more frequent headways and reliability on the 29-Sunset, 43-Masonic, and 44-O’Shaughnessy, which directly connect the park to south-east neighborhoods; and
WHEREAS, However, reopening JFK Drive to cars will not solve the systemic issues underlying the segregation of green space in San Francisco, and will reduce the ability of youth to use Golden Gate Park as a space for recreation and community-building; and

WHEREAS, In order to be successful, the closure of JFK Drive and the Great Highway to cars must lead to those roads becoming truly shared spaces for all San Franciscans; and

WHEREAS, Communities in parts of the City not adjacent to Golden Gate Park have raised concerns about a lack of clarity, transparency, and inclusion of all residents in the initial public outreach process; now, therefore, be it

RESOLVED, That the Youth Commission supports the permanent closure of JFK Drive and the Great Highway to cars, with the provision that the City conduct a robust community outreach effort with a focus on the equity and access to newly created open spaces for residents across the City, and on increasing the presence of youth voices in this process; and, be it

FURTHER RESOLVED, That the Youth Commission urges the San Francisco Municipal Transportation Agency (“SFMTA”) to ensure separated traffic for bicycles and pedestrian on JFK Drive and the Great Highway; and, be it

FURTHER RESOLVED, That the Youth Commission urges the SFMTA, Recreation & Parks Department (“RPD”), and other City departments to invest in making JFK Drive and the Great Highway into true community spaces for all San Franciscans, including benches, play areas, exercise facilities, and other community facilities; and, be it

FURTHER RESOLVED, That the Youth Commission urges the SFMTA and SFCTA to implement more robust transit options for those farther away from Golden Gate Park, more robust planning for disabled accessibility, and additional improvements to public transit; and, be it
FURTHER RESOLVED, That the Youth Commission urges the SFMTA and RPD to ensure that all disability spaces removed by the closure of JFK Drive are replaced in a comparable distribution throughout Golden Gate Park; and, be it

FURTHER RESOLVED, That the Youth Commission urges SFMTA and RPD to restore frequent increase shuttles to Golden Gate Park from all over the City, especially from the south-east; and, be it

FURTHER RESOLVED, That the Youth Commission urges the City to ensure an inclusive community engagement process regarding the closures of JFK Drive and the Great Highway to cars, and make sure that all voices are heard including those most affected, both positively and negatively, by the closures.
Resolution urging the San Francisco Municipal Transportation Agency to collaborate with the San Francisco Unified School District to maintain and expand San Francisco’s Slow Streets program near schools, provide additional safe options for students to commute to and from school when in-person learning resumes, and collect additional data on student commutes.

WHEREAS, In response to the Covid-19 pandemic, the City and County of San Francisco (the “City”) created the Slow Streets program through the San Francisco Municipal Transportation Agency (“SFMTA”); and

WHEREAS, According to the SFMTA, the purpose of the Slow Streets program “is to manage traffic speeds and create a safe network for essential walk and bike travel while transit service levels are reduced,” by limiting designated streets to through traffic; and

WHEREAS, On April 6, 2021, the SFUSD Board of Education voted unanimously to give all SFUSD students the option to return to in-person learning starting in the fall of 2021; and

WHEREAS, As of April 12, 2021, some students at the San Francisco Unified School District (“SFUSD”) have returned to in-person learning after over a year of distance learning, due to the pandemic; and

WHEREAS, According to 2013 data from the UC Berkeley Center for Cities and Schools, 25% of SFUSD students rely on public transportation to get to and from school, and 21% walk or ride a bike; and

WHEREAS, Student transit commuters tend to be from lower-income backgrounds, and students of color; and
WHEREAS, However, the SFMTA has neither clarified nor committed to a plan for
returning transit to 100% of pre-pandemic service levels, in part due to fiscal and logistical
challenges, and has failed to assure students that the SFMTA will be able to provide this
desperately needed service; and

WHEREAS, In the absence of fully restored transit service, which would render social
distancing difficult or impossible for students commuting to and from school on public transit,
the SFMTA has indicated that students may rely on the City’s network of 30 Slow Streets to
safely walk or bike to school if possible; and

WHEREAS, Slow streets have helped provide outdoor space for community members,
including and especially youth, to recreate and enjoy themselves during the pandemic while
not fully eliminating local vehicle access; and

WHEREAS, Placing Slow Streets near schools, as was intentionally done in the
Sunset, could help alleviate traffic dangers for students who walk, bike, or take public transit
to and from school caused by drop-off and pick-up lanes when schools return to in-person
learning; and

WHEREAS, Cities like Davis, CA have also prioritized dedicated bike lanes near and
leading to schools, in order to facilitate safe, low-cost, and sustainable commutes for students;
and

WHEREAS, Unfortunately, on April 8, 2021, principals at several Sunset district
SFUSD schools requested that Sunset district Slow Streets be removed in anticipation of
students’ return to in-person learning, which resulted in a temporary reopening of several
Slow Streets to through traffic prior to them being restored after process issues were raised; and
WHEREAS, School administrators have claimed that they need “as much road real estate as possible during intake and dismissal times,” completely disregarding the safety of those students who do not commute to school via car; and

WHEREAS, Maintaining a robust network of Slow Streets across the City and near schools is key to ensuring all students have options for safely commuting to school when in-person learning resumes; and

WHEREAS, Furthermore, it appears that youth and students were not consulted before the temporary closure of Slow Streets in the Sunset; and

WHEREAS, While presenting Slow Streets as a primary option for the majority of SFUSD students that do not commute to school by car to do so safely is itself problematic, especially for students who live far away from their school, removing this option would simply be a further burden on students’ and their families as they navigate the difficult and frequently fraught process of returning to in-person learning; now, therefore, be it

RESOLVED, That the Youth Commission supports the Slow Streets program, and encourages the SFMTA to expand the Slow Streets network and install better infrastructure to support their continued existence past the pandemic as community spaces and avenues for safe pedestrian traffic; and, be it

FURTHER RESOLVED, That the Youth Commission urges the SFMTA, SFUSD, and individual school site administrators to consult with students and youth about the future of Slow Streets, especially those near schools, and to collaborate with each other to collect more consistent data on student commutes; and, be it

FURTHER RESOLVED, That the Youth Commission urges the SFMTA to develop a plan to return transit to 100% of pre-pandemic service levels to alleviate crowding during school commute hours and enable students who rely on transit for their commutes to safely get to school when they return to in-person learning.
