

We Want to Hear from You!

We're in the process of developing another parks bond proposal for voter consideration on the November 2012 ballot.

Community feedback and outreach played a crucial part in the success of the 2008 Clean and Safe Neighborhood Parks Bond and we're building on that successful framework for this process. We'd like to hear from you and receive feedback about what is currently missing from your community parks and what new needs might have emerged since 2008. The 2008 bond:

- Was approved by 71.6 percent of San Francisco voters
- Has resulted in \$185M in capital improvements citywide
- Has begun to address more than \$1 billion in capital need
- Includes projects that are all currently on or under budget

For questions or feedback, email us at

Potential Citywide Programs

Playground Safety- Improve safety at playgrounds identified as D or F and at those with pressure-treated lumber

Restrooms- Continue funding for clean and safe restrooms

Water Conservation- Replace old, outdated irrigation with new permeable features and water efficient systems

Soil & Habitat Restoration- Improve eroding slopes and enhance connections to existing green space

Athletic Fields- Improvements to the city's natural play fields

Vistas & Access- Improvements to trails and surrounding landscape

Forestry- Address safety needs and replanting

Community Gardens- Upgrade and improve community gardens

Community Opportunity Fund- Continue smaller community-nominated projects as well as leveraging matching funds for larger projects
